

Databases are provided by the Nassau Boces School Library System.

Username and Password work across all databases – for students and adults.

Username: XANH

Password: nbsls

*As there is a primary log-in, students cannot save searches when working on projects. They should always take note of the articles used (most databases provide an already-made citation at the bottom of each article).

***If you know of any additional databases, please let me know:
