

Privacy Policy

Last updated: 11 July 2026

This Privacy Policy describes how Snake Cube ("the App," "we," "us") handles information when you use our application.

1. Overview

Snake Cube does not collect, store, or share any personal data. The App contains no advertisements and does not use any third-party analytics or tracking SDKs.

2. Information We Collect

We do not collect any personal information, usage data, or device identifiers. The App does not require you to create an account, sign in, or provide any personal details to play.

Any gameplay data (such as scores, progress, or settings) is stored locally on your device only and is never transmitted to us or any third party.

3. Third-Party Services (Google Play)

The App is distributed through Google Play. Google may automatically collect certain information as part of operating the Play Store platform, such as app installation data, crash reports, and device information, independent of anything the App itself collects. This data collection is governed by Google's own privacy policy, not ours.

You can review Google's practices here: <https://policies.google.com/privacy>

We do not have access to, and do not use, any data Google may collect through the Play Store platform.

4. Advertising

The App does not display ads and does not integrate any advertising networks.

5. Children's Privacy

Because our Game does not collect any personal data, it is inherently compliant with the Children's Online Privacy Protection Act (COPPA) and global privacy regulations. We do not knowingly or unknowingly collect personal information from children under the age of 13 (or any other age).

6. Data Sharing

We do not share, sell, rent, or trade any data, because we do not collect any.

7. Changes to This Policy

We may update this Privacy Policy from time to time. Any changes will be reflected by an updated "Last updated" date at the top of this page.

8. Contact Us
