

Introduction

Welcome to the P.O.P Formula

Congratulations on getting access

You made a wise decision.

You have the blueprint to change your life (*sounds hypey*)

It does a little, but it is true.

Would an extra \$3,000 per month change your life?

For most it would

You wouldn't have to worry so much about living expenses and bills.

Anyway...

This quick pdf intro is to tell you how the system works.

The first stage of this is about building a list

Yes list building you may have heard it hundreds of times

The money is in the list

Yes its true

So you need to build a list of targeted people

So you need a squeeze page up online giving away a free gift in order to incentivise them joining

You link all this with your autoresponder service

And boom you have a system for collecting emails

The P.O.P Formula is WHERE THE MAGIC happens

This is the post opt in profits magic

YES!

Where do you send your new email lead after they have joined your list

You will discover exactly the best way to make money right away in the videos where its explained in detail.

But in a nutshell you can make money from your list even if they don't buy anything!

It's an amazing method.

Then after that it's all about emailing your list follow up offers consistently with a balance to keep them engaged and so they stay responsive so you can monetize them further

This process works! **PERIOD**

The only thing stopping you from making it work is **taking action**

Follow the step by step videos

Take action

P.S – I have been using various P.O.P offers after people join my list which work GREAT!

But recently I discovered an offer that I send people to on my list which starts off as a free offer, so people jump all over it, but this same system does all the selling and banks me cool **\$1,050** commissions.

It's been working crazy for me and these 1k paydays are fantastic.

If you want more info on this offer I am using please drop me **support ticket** and I will personally give you more info on it.
