Bicycle Infrastructure Improvements

Message:

Dear Santa Cruz City Council Members,

I hope this message finds you well.

Thank you for the great work on the new protected bike lanes on Bay Street between Escalona and Nobel—the improvements are much appreciated. I do have one request: could the city consider adding the same protective barriers on the downhill portion as those installed on the uphill side? While flex posts are helpful, concrete strips would provide greater safety, potentially save lives, and encourage more residents to cycle.

Additionally, I encourage you to begin the process of making Ecology Action's Bikeway more permanent. It is a low-cost project with significant potential to improve health, safety, and quality of life in our community.

I truly appreciate the city's continued investment in bicycle infrastructure and the hard work you are doing to make Santa Cruz a safer and healthier place to live.

Best regards,
