Dear Parent/Guardian,

The Maine Department of Education requires a **Tdap booster** and the first **Meningococcal Conjugate Vaccine (MCV4)** before entry into the 7th grade. These are required for the **2025-2026** school year.

DTap (diphtheria, tetanus, pertussis)	[]	Polio	[]
MMR (measles, mumps, rubella)	[]	Tdap (booster)	[]
Varicella (chicken pox)	[]	Meningococcal 1 []	2 []

Your child may have already had the immunization(s) at his/her Primary Care Provider's office or other health care provider.

If your child has already been immunized, please contact your child's Primary Care Provider and request that an updated copy of his/her immunization record be faxed to **207-910-6473**. If your child has not had these immunizations, please make an appointment for your child with their Primary Care Provider to be immunized before the start of the 2025-2026 school year and ask that those records be faxed to school.

If your child cannot be immunized due to a medical reason please have your child's Primary Care Provider fax that information to school. An exemption must be completed and provided to the school by your child's Primary Care Provider. If an exemption form is needed, please notify me.

If you are unable to get your child vaccinated, please let me know. There may be an opportunity for them to receive them at school before the end of the school year.

Thank you very much for your prompt attention to this matter and if you have questions, please feel free to call me at 207-375-6961 ext 3.

Thank you,
Erin Reedy, RN
