NSFW TOS:

As I mentioned before, I am willing to take NSFW commissions. However, there are NSFW projects & subjects that I will **not** do for one reason or another.

Projects which joke about:

- Suicide
- Self-harm

- Mental health
- Rape
- Abuse

Projects which glorify things like:

- Rape
- General Abuse - *Child abuse, domestic abuse, etc.*

That being said however, I am willing to make an exception **if** these topics are handled carefully and with the respect that they deserve.

If you do want to hire me for a project which uses any form of dark humour. Please send me the script within a weeks notice of the commission.

Regardless of what type of project it is, I will be sending you a legal document that basically says you can't legally use my voice for AI purposes.

Your commission will be denied if you do not do this specific instruction.

When with traditional NSFW related matters and projects; I have no qualms over the projects and my usual rates apply there as well.

That means that I am willing to take commissions for projects in which characters have any form of sexual intercourse. I am willing to record sex noises within the process.
