

Who we are:

Insighte is a leading Neurodiversity Affirming and Child Rights Driven organization based in Bangalore. As of 2024, it is part of Attavaran Accelerator Program, Vishnu TBI Accelerator and has won Parivartan Grant.

We are dedicated to fostering inclusion of neurodiverse children in their natural environments, including home, mainstream schools, and online settings. Our commitment to social innovation and excellence has been recognized on multiple occasions. At Insighte, we provide crucial support services for children, including Shadow Teachers, Special Educators, and Counselling support. Our compassionate and empowering intervention process is tailored to each child's unique strengths and rights. We promote neuro-affirmative approaches to help children spot their strengths and embrace their uniqueness.

We are working towards building ourselves into a one-stop shop for families with kids needing extra support. We not only aim at lending support at school by providing Learning Assistants for neurodiverse students, but also homecare therapy and counselling at home or through online & offline model. We have a team of 180+ psychologists and is steadily growing. We aim to continue building upon this model and help encourage parents and schools to embrace the uniqueness in every child.
