NEW Pre-Occupational Therapy Club Interest Form - Join Now!

Do you want a hands-on, high-demand career in healthcare? Are you interested in helping people? **Occupational Therapy** might be your perfect match! The O.T. is a student organization dedicated to uniting undergraduate students aspiring to pursue Occupational Therapy. Our goal is to promote awareness of OT, support pre-OT students, and diminish barriers on your journey to graduate school! Interested in joining us? Please fill out the [interest form](#) or scan the QR Code!

September 23rd, 2026.

Stanford Longevity Design Challenge 2026-2027 - Submissions due 12/01/26!

“Human-Centered Robotics for Longevity”

The [Longevity Design Challenge](#) is an annual **innovation competition** hosted by the [Stanford Center on Longevity](#) that is open to **all undergraduate and graduate students** globally. This year, students are invited to design solutions that explore how robotics can support longer lives while strengthening human connection.

Submission deadline: December 1, 2026.

How it works:

- Students may submit a design for a robot that addresses the Challenge theme, *Human-Centered Robotics for Longevity*, [online](#) any time between September 15 and December 1, 2026.
- Join the [Living Futures: Robotics for Longevity Ideathon](#) on October 20-21, 2026 to learn more and develop a well-defined, research-backed problem statement.
 - 6-8 Finalist teams will be announced on January 27, 2027.
 - **Finalist teams are awarded:**
 - \$1K Finalist award.
 - Pairing with an experienced mentor.
 - Funding to travel to Stanford in April 2027 (conditions permitting) to present their design at the Finals, competing for the \$10K first prize.
 - Participation in workshops, lab tours, and networking opportunities at Stanford.

Eligibility:

- Students from **all majors**/fields of study are welcome to participate!
- Each team must have at least one full-time undergraduate or graduate student who is enrolled during the 2026-2027 academic year.
 - Designs may be submitted solo (by one person). Teams may have up to 5 members.
- Team members may be from different universities. Team members may also be non-students, but if the team is selected for the finals, only the student members may present at the final competition.

2026 - 2027 LONGEVITY DESIGN CHALLENGE

Human-Centered Robotics for Longevity

About “Human-Centered Robotics for Longevity”

This year's Longevity Design Challenge is a collaboration between the Stanford Center on Longevity and the Stanford Robotics Center. University students worldwide are invited to design simple, affordable robotic solutions that help people thrive across longer lives, in one of four areas: mobility and physical safety, caregiving and daily living, social connection and human interaction, or aging infrastructure. High-tech and low-tech approaches are equally welcome. The goal is not the most advanced robot, but the most impactful, especially for people with limited resources or access to emerging technologies. The challenge is not to remove people from care, connection, or community, but to imagine a future where robotics and human connection grow together.

For more information, visit: <https://designchallenge.stanford.edu/>

Learn about the UCSB Teacher Education Degree Program- Info Sessions through 12/16/26!

Join the UCSB Teacher Education Program and earn your Teaching Credential and Master's of Education in 12 months!

About UCSB TEP:

We believe public education has the power to shape a more equitable future for all learners. Our 12-month teaching credential and master's degree program is uniquely structured to focus on developing constructive relationships, immersing candidates in a full year of supported student teaching, and integrating coursework with fieldwork to put theory into practice.

Learn more about UCSB TEP by [checking out our website](#), attending one of our upcoming [information meetings](#), or [signing up for our newsletter](#). Please do not hesitate to contact us with any questions at tepapp@education.ucsb.edu.

UCSB Teacher Education Program

education.ucsb.edu/tep

*Commit one year to become
an exceptional teacher leader.*

Credentials Offered:

Education Specialist Credential
Mild to Moderate Support Needs;
Extensive Support Needs

Multiple Subject Teaching Credential

Single Subject Teaching Credential
English; History/Social Science; Math;
Science; World Languages

- ◆ Earn your credential and Master's Degree in 12 months.
- ◆ Learn by being fully immersed in classroom teaching.
- ◆ Build community within one closely connected cohort.

Psychology Day at Rutgers University - New Brunswick

Rutgers University - New Brunswick Psychology Department has opened applications for their annual
Discovering Psychology Day!

Rutgers Discovering Psychology Day is an annual virtual event designed to support prospective psychology Ph.D. applicants as they prepare for the graduate admissions process. The goal of this event is to help participants learn more about psychology doctoral programs, the process of identifying research fit, preparing application materials, and navigating graduate admissions and post-bacc job opportunities.

Applications are due **September 25th**, and the event will take place on **October 16th from 11am-6pm EST**. Participants may attend as many sessions as they would like based on their interests and availability.

Please visit the event website to learn more: <https://sites.rutgers.edu/rdpd> and [click](#) here to access the application!

Psychotherapy Conference Opportunities

Innovations in Psychotherapy 2026 in Anaheim

Dates: November 10 to 13, 2026

Location: Anaheim Marriott, or online

That's [Innovations in Psychotherapy 2026 in Anaheim](#), the premier trauma therapy conference of the year. You'll learn these methods directly from the people who created them, and walk away with skills you can use in your very next session, not just theory.

The faculty this year includes:

- **Peter A. Levine**, developer of Somatic Experiencing
- **Gabor Maté**, author of *The Myth of Normal* and *In the Realm of Hungry Ghosts*
 - **Janina Fisher**, complex trauma and dissociation expert
- **Dan Siegel**, Mindsight Institute founder and neuroscience expert
 - **Frank Anderson**, Harvard-trained IFS trauma trainer
- **Ramani Durvasula**, internationally renowned narcissism expert
 - **David Kessler**, world-renowned grief expert
- **Arielle Schwartz**, author of *The Complex PTSD Treatment Manual*
 - **Monica Lewinsky**, activist and podcast host

And many more.

Public Service Center Opportunities - Check out Now!

2026-27 Public Service Center Scholarship Opportunities

Are you looking for ways to stretch your leadership skills?

Do you want to give back, take action or engage with the local community?

The Public Service Center (PSC) has service opportunities for you to gain hands-on experience and build connections all while earning a scholarship or stipend. Come to an [Info Session](#) to learn more and decide what is right for you.

PSC Opportunities for 2026-27

- [Alternative Breaks](#): serve as a director or lead one of our critical service-learning trips. Need-based scholarship available (up to \$5,000).
- [College Corps Fellows](#): serve 450 hours with a local community partner & earn \$10,000 via monthly stipend & Education Award.
- [Peter E. Haas Public Service Leaders](#): serve in a project of your choice & receive a need-based scholarship (up to \$7,000).
- [Public Service Internships](#): intern with a local non-profit organization or government office. Need-based scholarships or a stipend available.

Tap into the UC Berkeley Alumni Database – Check out today!

[My Berkeley](#) connects you with alumni who've walked the path before you. With a growing network of over 13,000 Cal alumni and students, you're guaranteed to [find a fellow Golden Bear to support you](#) as you embark on your career journey. Whether you're exploring industries, editing a resume, preparing for interviews, or need someone to talk to — this platform is your gateway to mentorship and meaningful connection.

Get Started in Three Simple Steps

- **Log in using your CalNet ID**
- **Update Your Profile and Preferences**
 - Share your current internship, industries you hope to pursue, topics and skills you need support with, and location. The more information you share on your profile will make it easier for alumni and other peers to connect with you.
 - Add a profile photo so others can easily find you. (Hint: Profiles with a photo are 4x more likely to receive more connections!)
 - Customize your networking preferences, including who you want to connect with, monthly connection limits, and even sync your Google Calendar for seamless scheduling.
- **Connect**
 - Leverage our Community feature to network at your own pace with your peers and alums by industry, location, job function, and more.
 - Start a connection by sending a message with the questions or topics you'd like to explore, or schedule a meeting directly through the platform.

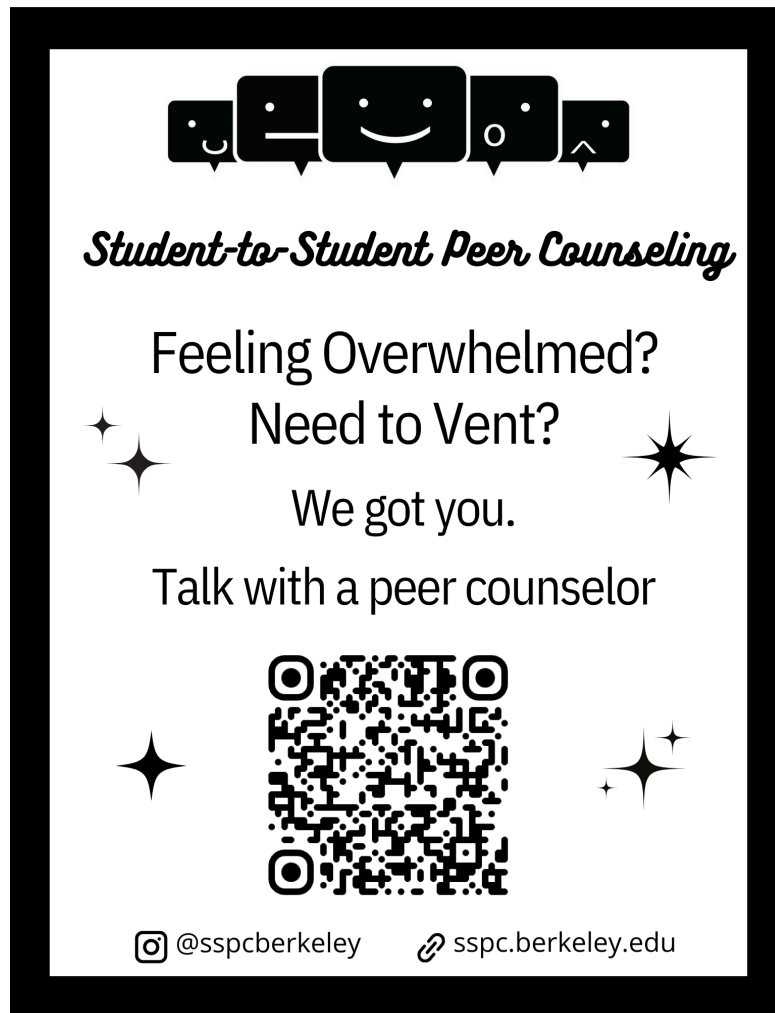

Your future is shaped by the relationships you build. So please consider starting to build your network today on My Berkeley!
