Map of Shacklewell Ward

Introduction

This profile explores the demographic, social and economic characteristics of Shacklewell Ward and is largely based on data drawn from the 2021 Census. The ward profiles should be a helpful resource for local people and services that want a basic overview of the key characteristics and make up of local wards.

All data used in this profile has been drawn from the Office for National Statistics (ONS) 2021 Census unless otherwise stated.

Impact of the Covid-19 Pandemic

The 2021 Census in England and Wales took place on 21st March 2021 when the UK was in lockdown.

The ONS has recognised that the coronavirus pandemic may have affected Census 2021 data in a variety of ways, but has said that for most of the population, the coronavirus pandemic would not have affected where they considered themselves resident. They do however accept that for some students and in some urban areas, there is evidence that the coronavirus pandemic did result in changes to where people lived and that these changes might have been temporary for some and permanent for others.

A significant amount of work was done to encourage as many Hackney residents as possible to complete the census with the ONS reporting 90% percent of forms returned.

The 2021 Census included questions around sexual orientation and gender identity, however this data is not available at Ward level to protect identities of responders. For information at borough level, please read our briefing on [sexual orientation and gender identity](#).

To compare this ward profile to others, or to look at profiles developed from the 2011 Census please visit the [Hackney Ward Profiles](#) page of the Hackney Council website.

- Household deprivation in Shacklewell Ward is comparable with the overall Hackney picture.

Further Resources and Information

More ward-level statistics can be found at the ONS [NOMIS](#) website and the Greater London Authority (GLA) [Datastore](#).

The ONS is also producing a range of online tools to help share information from Census 2021 including:

- [Census Maps](#) - which allows the user to access local census information down to Middle Layer Super Output Areas across England and Wales.
- [Build a Custom Area Profile](#) - which allows the user to build a custom area down to Ward level and produce a basic area profile from a range of 34 topics.

Further research, statistics and intelligence about Hackney can also be found on Hackney Council's website via the [Shared Evidence Base](#) and [Population Pages](#) where there are links to Council briefings on key Census data at Local Authority level.
