

Mẫu 1: Bàn làm việc PC

“Use the nano-banana model to create a 1/7 scale commercialized figure of the character in the illustration, in a realistic style and environment.

Place the figure on a computer desk, using a circular transparent acrylic base without any text. On the computer screen, display the ZBrush modeling process of the figure. Next to the computer screen, place a [Tên Bạn] - style toy packaging box printed with the original artwork.”

Mẫu 2: Macbook

Use the nano-banana model to create a 1/7 scale commercialized figure of the character in the illustration, in a realistic style and environment. Place the figure on a computer desk, using a circular transparent acrylic base without any text. On the desk, show a MacBook with its screen displaying the ZBrush modeling process of the same figure. Next to the MacBook, place a [Tên Bạn] -style toy packaging box printed with the original artwork. Cinematic lighting, high-detail textures, realistic materials, shallow depth of field, professional photography look.

Mẫu 3: Quảng Trường cờ đỏ sao vàng

Use the nano-banana model to create a 1/7 scale commercialized figure of the character in the illustration, in a realistic style and environment. Place the figure on a computer desk, using a circular transparent acrylic base without any text. On the desk, show a MacBook with its screen displaying the ZBrush modeling process of the same figure. Next to the MacBook, place a [Tên Bạn] -style toy packaging box printed with the original artwork.

In the background, through the window or behind the desk, show a large public square filled with thousands of people wearing red T-shirts with yellow stars, celebrating joyfully. Add vibrant lighting, flags waving, and a festive atmosphere. Make sure the square feels energetic and patriotic, while the figure scene remains professionally staged and cinematic. Use high-detail textures, realistic lighting, shallow depth of field, and editorial photography quality.

Mẫu 4: Phòng Gaming có Vàng và Đô La

Use the nano-banana model to create a 1/7 scale commercialized figure of the character in the illustration, in a realistic style and environment. Place the figure on a computer desk, using a circular transparent acrylic base without any text.

On the desk, display a high-resolution gaming monitor showing the ZBrush modeling process of the same figure. Next to the screen, include a PlayStation 5 console with its

controller placed nearby. Scatter multiple stacks of US dollar bills and shiny 9999 gold bars across the desk surface. Also place a [Tên Bạn] -style toy packaging box printed with the original artwork beside the figure.

Set the entire scene inside a stylish gaming room, with RGB lighting, gaming chair, LED strips, and high-tech accessories. The atmosphere should feel luxurious, modern, and dynamic — with cinematic lighting, shallow depth of field, high-detail textures, and photorealistic materials.
