

Chaos Invitational Ladder(s) (2021-02-02)

Not sure how much **time** you have to play? **This is your league!**

Discord channel (mandatory): <https://discord.gg/DJjXZPB>

The short (!) rules

- **Ladder format.** As dictated by the BB2 client, the ladder format limits TV differences to 500, but arranging games below that in TV difference (100?, 200?, etc) is perceived as normal so that both coaches are willing to play. There is no obligation to play against anyone or at any TV difference.
 - **Open ladder:** Fresh teams, using the Chaos Invitational **diversity rules** (see below). Max 1.000.000 GP spent.
 - **Allstar ladder:** Returning ladder teams, or from the Chaos Invitational competition.
 - **Max 2 active teams in each ladder** at a time. If your team gets crushed, or you want to join after the ladder has run for a while, then no problem - just sign up with a new team whenever you wish within the season. Ask for a ticket to the ladder by sending a ping to Admin.
 - **Max 10 games per team** may be played during this time period. You are free to play these games at any pace, date or time as long as it is during the season.
 - Each team may play **max 2 games vs. the same team** per season.
 - **Seasons are 3 months** with playoffs between the top 4 coaches based on the in-game standings.
 - **Open Championship** and **Allstar Championship** playoff rules:
 - 4 unique coaches are included in each Championship playoff.
 - 3+ games must have been played by the team to be considered for playoffs.
 - If we have less than 8 playoff candidates (unique coaches with teams having played 3+ games), that ladder does not go to playoff and instead extends with one more season of 3 months.
 - Stadium **enhancements are allowed** (contrary to in Chaos Invitational).
 - Matches are arranged using the **#chaos-ladders** thread on Discord by tagging **@Open Ladder** or **@Allstar Ladder** depending on what you are looking for a game within. You may also ask for games from specific coaches that you see in-client have teams in the ladder. It is up to you and your opponent if you want to play at all, as well as if it is right away, or schedule a particular time and day.
- We focus **recruitment** on communities we collaborate with already. However - if we know you then we also trust you, and **you may share these rules and invite others that you believe would fit in.** There might even be cookies in it for helping out!

Chaos Invitational diversity rules

N = normal skill. **D** = optional double skill (or a normal instead). Tier 2-5* should always start on 0 cash and be built as custom teams. They will be validated for the cash bug before being allowed into the ladder.

Tier 1 (max TV1000): Amazon, Chorf, Dorf, Lizard, Orc, Skaven, Undead, and Woodie

Tier 2 (max TV1040, from +2N): Delf, Helf, Necro, Norse, and Pro Elf

Tier 3 (max TV1060, from +1N +1D, or +3N): Bret, Human, and Khemri

Tier 4 (max TV1080, from +2N +1D, or +4N): Chaos, Kislev, Nurgle

Tier 5 (max TV1100, from +3D, or +2D +2N): Goblin*, Halfling*, Ogre, UW and Vamp

* Halflings and Goblins are the only teams that will get the difference between their starting cost and 1.000.000 in cash (the little ones have a strong union representative!). Ask Admin to help sort that out for you if you don't know how to yourself. We validate all teams before sending out tickets, so if you know how to set this up yourself we appreciate the help!
