

After-School Professional Development: Wired Wednesdays

The Elementary Google Classroom

Learn how to post Announcements, create Assignments, and assess student work in this 2-part workshop for elementary educators. You will learn how to set up your own Google Classroom and invite your students to join, post announcements and share links to documents and websites for whole-class or small-group instruction, create assignments and provide students with timely feedback, and share self-graded formative assessments to save you time.

- Meeting 1: February 28, 4:00 - 5:30
- Meeting 2: March 14, 4:00 - 5:30
- Location: Stonehedge Library
- Instructor: Rob Leo

Introduction to G Suite for Secondary Teachers

This workshop will help secondary teachers understand how to leverage a variety of Google's many collaboration and communication tools to facilitate 21st century skill development among their students. Time will be spent demonstrating how to use several Google Apps, including Drive, Docs, Sheets, Slides, and Classroom, as well as guided workshop time during which teachers can practice using the tools most helpful to their own classrooms.

- Meeting 1: February 28, 3:00 - 4:30
- Meeting 2: March 14, 3:00 - 4:30
- Location: WGHS, C213
- Instructor: Conor Murphy

Teaching History with Technology

During this 2-part workshop for secondary social studies teachers, participants will explore practical and creative ways to use technology in the classroom for direct instruction as well as for student-centered learning. In addition to exploring digital content applicable to social studies, this workshop highlights a variety of technology tools for students to create digital stories, screencasts, collaborative documents and presentations, infographics and posters, interactive maps, and timelines.

- Meeting 1: March 21, 3:00 - 4:30
- Meeting 2: March 28, 3:00 - 4:30
- Location: WGHS, C213
- Instructor: Rob Leo
- [Register Here](#)

Introduction to the Flipped Classroom for Secondary Teachers

Learn how to transition from “sage on the stage” to “guide on the side” as you examine instructional strategies that support the delivery of instructional content online, allowing for more personalized learning in the classroom. During this 2-part workshop, you will learn how to establish a web presence to share digital resources with students, explore existing subject-area content on the Web, and create custom content through video screencasts. By the end of this workshop, you will have a working framework for flipping your instruction and establishing a digital workflow.

- Meeting 1: April 4, 3:00 - 4:30
- Meeting 2: April 11, 3:00 - 4:30
- Location: WGHS, C213
- Instructor: Rob Leo
- [Register Here](#)

Introduction to the In-Class Flip for Elementary Teachers

Have you ever wondered how you can multiply your presence in the classroom and work with multiple groups of students simultaneously? In this 2-part workshop for elementary teachers, you will learn how you can do just that by creating an “in-class” flipped classroom. Learn how to transition from “sage on the stage” to “guide on the side” as you examine instructional strategies that support the delivery of instructional content online, allowing for more personalized learning in the classroom. You will learn how to establish a web presence to share digital resources with students, explore existing subject-area content on the Web, and create custom content through video screencasts for independent centers. By the end of this workshop, you will have a working framework for supporting an in-class flipped classroom and establishing a digital workflow.

- Meeting 1: April 18, 4:00 - 5:30
- Meeting 2: May 2, 4:00 - 5:30
- Location: Stonehedge Library
- Instructor: Rob Leo
