[5] Transportation (TR)

[5.7] Average number of passengers of each shuttle

Vehicle Service Type	Brand / Model	Quantity (Vehicles)	Passenger Capacity (Persons)	Average Passengers per Vehicle
Passenger Cars (Sedans)	TOYOTA CAMRY, HONDA ACCORD, NISSAN	3	12	4
Shuttle Vans	TOYOTA COMMUTER	8	120	15
Large Buses	BENZ, MAN (Air-conditioned Passenger Buses)	2	120	60
Passenger Truck	HINO (6-Wheel Passenger Truck)	1	30	30
Total		14	282	20.14

Number of shuttles operated in the university: 14 vehicles.

Description:

Sisaket Rajabhat University operates **14 passenger transportation vehicles** to support mobility services for students, academic staff, and administrative personnel. The shuttle fleet consists of 3 passenger cars (sedans), 8 TOYOTA COMMUTER passenger vans, 2 air-conditioned passenger buses, and 1 passenger truck.

These vehicles are used for academic activities, fieldwork, student development programs, official travel, community engagement projects, educational field trips, and other university-related transportation services. The university-operated transportation system helps improve accessibility, supports shared mobility, and reduces dependence on individual vehicle use.

To further promote sustainable transportation, Sisaket Rajabhat University is currently procuring **two electric vehicles (EVs)** to establish a zero-emission campus shuttle service. The EV shuttle system is expected to become operational in the third quarter of Fiscal Year 2026.
