About the Program

Speak to Grow is a 12-day immersive MiniMind for women entrepreneurs who are ready to develop or refine their signature keynote or workshop so they can start booking aligned stages, sharing their story, and growing their visibility offline.

This program is focused solely on your keynote. No fluff. No complicated tech. Just clarity, feedback, and real-time coaching to help you turn your ideas into a magnetic message that moves the room.

This isn't about becoming a professional speaker overnight. It's about building a strong foundation, testing your message, and showing up with the clarity and conviction of someone who knows they're here to make an impact.

What Past Participants Are Saying

[Click Here](#) to hear why Joanna said "YES" and how it impacted her business & personal journey.

Before the MiniMind, I had a vision for what I wanted to teach, but I didn't know how to structure it or make it land with an audience. Lupita helped me take my ideas and turn them into a clear, grounded presentation that actually moves people. I feel confident, ready to speak, and proud of how I can now share my work.

- S. MiniMind Client

I was so impressed by Lupita's ability to see exactly where I needed to focus my outreach. I had been spinning my wheels trying to connect with the right clients, and she helped me identify where to start and how to do it strategically. I left our sessions feeling clear, confident, and finally in momentum again.

-P. MiniMind Client

Before this program, I struggled to talk about what I do. Now I have a clear, structured keynote that feels powerful and authentic. I finally feel confident being seen.
