

Languages Other Than English

The LOTE Department supports the study of world languages as an essential part of education. The instructional model is TEKS-based, aligned to the national standards for foreign language learning: communication, cultures, connections, comparisons, and communities, and provides a differentiated, sound structure for a comprehensive and rigorous foundation in a world language. The skills and strategies necessary to be college and career ready have been integrated into the curriculum to ensure high levels of achievement for all students. Ongoing professional learning opportunities in the critical areas of communication: interpersonal, interpretive, and presentational, provide teachers with the instructional support to ensure the success of every student in the area of language learning.
