

WHITEY RALLY

Shreveport, LA

1-20-20

12 PM CST

Good afternoon Shreveport! This past weekend, I have travelled the Shreveport area and this morning, I had the pleasure of meeting and enjoying a nice breakfast with our great farmers, business leaders and the average working men and women of the Shreveport area. This trip has unfortunately confirmed many suspicions I've had.

To our great farmers, I would like to apologize for the piss poor jobs the Democrats have done. This is a travesty, the Democrats have single handedly hurt our farmers. The Democrats have over regulated the farming industry here in Dixie and I have heard from some farmers that this has almost driven them to the brink of going out of business. If a Republican gets in office, I can assure they will stand with the farmers of Dixie and fight like hell to reverse all this bureaucracy going on in Dixie!

To the business owners, I would like to apologize for the burdens the Democrats have put onto all of you. It has caused many of you that have caused you to let go of some very talented employees, have caused you to cut hours or pay to compensate for the bureaucracy they have forced upon you. As bad as this sounds, I have even heard that some business intend to pull out of Dixie and move to other states. The Democrats are wrecking Dixie's economy right before our very eyes! Let me be clear, with a Republican you will get someone who wants to add jobs, someone who wants to uplift business and someone who will stand right beside you and fight with you.

To the common man and woman who is in attendance tonight, I'm sorry the Democrats have caused your work to close, move or whatever the case may be. You may have even gotten a reduction in pay or hours. This is not right, the Democrats seemed to have turned a blind eye to the people who make Dixie great. They have caused you to change the way in which you live, you may even not be able to pay certain bills or maybe you can't enjoy your hobbies anymore. This will change, with a Republican in office you will see someone who fights for you and not for themselves!

Also, I'm sure you all have heard that the Democrats like to spend and spend, running a quite a bill. Isn't that a beauty? Under a Republican in office, they will fight to account for a sane spending policy so that budgets no longer have something that it funds that no one has even heard of. I mean it's ridiculous what these people fund. Let me again stress that with a Republican, they will fight and claw to have a balanced budget. This is a sane fiscal policy and the right fiscal policy.

To sum up my speech this afternoon, the Democrats are Anti-Farmer, Anti-Business, Anti-Worker. While at the same time they are Pro-over Regulation, Pro-Taxes, Pro-Debt. The Democrats seem to be the party of special interests, big donors. As long as they are racking in the money they could care less about you, they act as a puppet to the big donors and special interests. They are not the party of anyone who is not in any of those categories. They even disdain people like

you! But when election time comes, they are quick to act like they have done something good, when in reality they haven't done a damn thing!

Shreveport, I urge you and Dixie to put a Republican in office to reverse the damage the Democrats have done. It's time to put Dixie first and our great people first! From the East Coast all the way back to the plains of Texas, Republicans will fight for you, no matter how much money you have, how big your house is or no matter the zip code, the Republican party will fight for you and put you first. On Election Day, I want everyone here in attendance and watching at home to go out and vote Republican to show the Democrats that you will not tolerate this nonsense and that your voice will be heard!

God bless Shreveport, god bless the great state of Dixie and god bless the United States of America!
