

Always Sparkle by Kyle: MANIFESTO

The #AlwaysSparkleInitiative | Every Heart Matters

In loving memory of Sparkle Kyelle and in honor of her brother, Kyle

OUR MISSION AND VISION

To honor the memory of Sparkle Kyelle and celebrate the resilience of her brother, Kyle, by advancing CHD awareness, lifelong heart-health advocacy, and patient-safety accountability. We are committed to bridging the gap between high-risk symptoms and professional medical response, ensuring that no family walks this frightening journey alone.

A world where every person affected by Congenital Heart Disease (CHD) receives timely, professional, and compassionate healthcare. We envision a future where every family is supported with dignity and hope, and every grieving sibling is seen, comforted, and surrounded by care.

WHY THIS MATTERS: THE LEGACY

Sparkle Kyelle was a brave baby who endured complex cardiac treatments with remarkable strength. On 4 June 2026, after a delay in urgent medical attention, her extraordinary life was cut short. Her story is not just a tragedy; it is a call to action. Medically fragile children must never be treated as routine cases. Parents must be heard, symptoms must be escalated, and emergency systems must respond with the urgency these lives deserve.

This initiative also exists for Kyle, Sparkle Kyelle's brother. Born exactly two years apart, they shared an unbreakable bond. Kyle now carries the pain of losing his sister and closest companion, reminding us that CHD affects the entire family unit; especially the siblings who are often forgotten in the aftermath of trauma. Always Sparkle by Kyle is a promise to them both: we will ensure that the voices of families are heard, that high-risk children are recognized early, and that no more preventable losses occur.

OUR COMMITMENT

1. **Systemic Advocacy:** We advocate for triage standards, escalation protocols, and patient-safety accountability. We work with healthcare systems to ensure high-risk children receive urgent, professional care when they need it most.
2. **Holistic Family Support:** We provide emotional first aid, peer mentorship, and bereavement support for parents, while creating child-sensitive resources to help grieving siblings heal and feel included.
3. **CHD Awareness:** We are transforming the national narrative around CHD, educating the public on early warning signs, emergency pathways, and the importance of timely intervention.

4. Community & Hope: We provide the "You Are Not Alone" assurance to parents suddenly thrown into the world of CHD, ensuring that fear is replaced with information, preparation, and a strong, supportive community.

JOIN THE MOVEMENT

Always Sparkle by Kyle is a mission-led agenda built on love, truth, and a commitment to safer healthcare systems. We invite the press, healthcare partners, and the public to collaborate with us to ensure that "Every Heart Matters" becomes a reality.
