WOLLEMI CAREERS NEWS

Keeping you updated with careers-related information from a multitude of organisations.

HOW THIS WORKS…

Wollemi Careers News will provide students with a regular summary of information that comes from various external organisations.

Given the vast quantity of materials that are sent to the college each week, this publication will:

- filter and organise information
- lay it out in a way that is easy to navigate for students
- provide weblinks that make extra information accessible

A new publication will be created each term, and updated every couple of weeks.

- With each update, students will be notified via email
- The email will include items of note (so students know if there is content relevant to them even before opening)

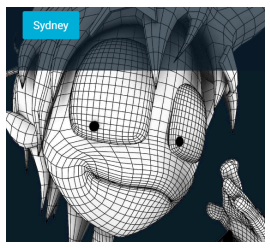

When students come across something of interest, they are encouraged to discuss it with their parents, mentors and Mr Garzaniti.

>> Take me straight to the latest updates <<

Term 1 2026
