

Trans-Affirming Healthcare Providers in Mid-Missouri

Information collected by The Center Project
thecenterproject.org

The healthcare providers and other transition-related services on this list were recommended by

- a) transgender and non-binary members of our community OR
- b) the parents of transgender and non-binary youth, OR
- c) other healthcare providers who had been recommended by trans and non-binary community members.

You can reach us at health@thecenterproject.org if:

You need more help finding trans-affirming care in our community

You are a trans or non-binary person in mid-MO who would like to recommend a healthcare provider or other service

You are a healthcare provider who needs to update your information in this document

Resources for Adults with Medicaid

As of August 28th, 2023, Medicaid in Missouri will no longer cover gender-affirming care. Here are some resources for adults struggling to pay for gender-affirming care. This document will be updated as we learn about resources.

If you already have a prescribing clinician, talk to them about your concerns and options. The implementation of this law and the resources available are a complicated moving target. Your clinician should be able to talk with you about the most affordable formulation and pharmacy for your particular type of hormone(s).

If you are aware of other resources, please email us at health@thecenterproject.org so we can update this document.

Grants for funding transition:

Trans in the South has compiled a list of grants to fund transition (living in the South is not an eligibility requirement):

<https://southernequality.org/resources/transinthesouth/funding-your-transition/>

The Center Project's Emergency Fund can potentially provide up to \$500. Application [here](#).

Reducing Cost of HRT Medications:

MedZou typically covers the first \$50 of prescription costs for patients (can be layered with GoodRx discounts). See more info about MedZou [here](#).

NextRx: A local pharmacy that doesn't go through insurance and often has medications available for lower cost. You can call them to ask about the cost of your specific medication (they also plan to have a tool online soon where you can get this information). They do take Medicaid, if you want to use insurance for other medications.

Call: 573-993-3734

Online contact form: <https://www.nextrx.com/contact/>

GoodRx: This website and app offer coupons for discounts on medications. The cost of the same medication can vary substantially between pharmacies, and can change month-to-month. GoodRx coupons are not accepted at MU pharmacies or most locally-owned pharmacies.

<https://www.goodrx.com/>

Resources for Minors

As of August 28th, 2023, minors (anyone under age 18) cannot be prescribed or administered gender-affirming puberty blocking medication, hormone therapies, or surgeries per Missouri law. There is a legal case pending that will determine if this law stands. Although the law allows for minors who are already receiving gender-affirming hormones or puberty blockers to continue receiving that treatment, MU Health Care has made the decision to stop prescribing gender-affirming hormone therapy or puberty blocking medications to minors, even for patients who had already established that care.

If this ban applies to you or your child and you already have an established relationship with a doctor, your first step is to reach out to your doctor to discuss their plan for ongoing care.

We are collecting resources here for minors who are affected by this Missouri law. If you are aware of other resources, please email us at health@thecenterproject.org so we can update this document.

Minors who were already prescribed gender-affirming medications before August 28th can continue care at these locations:

- Children's Mercy in Kansas City:
913-696-5880
<https://www.childrensmercy.org/departments-and-clinics/gender-pathway-services/>
Patients will need to provide a mental health letter of support to get started with services at Children's Mercy
- Planned Parenthood of St. Louis and Southwest Missouri (for patients age 16 or 17)
Telehealth appointments available
314-531-7526
<https://www.plannedparenthood.org/planned-parenthood-st-louis-region-southwest-missouri/patients/our-services/transgender-care>

Minors who need gender-affirming medications and were not prescribed them before August 28th will need to receive care out-of-state:

- Planned Parenthood in Fairview Heights, Illinois (for patients age 16 or 17)
618-277-6668
<https://www.plannedparenthood.org/health-center/illinois/fairview-heights/62208/fairview-heights-health-center-2712-90770/transgender-hormone-therapy>

Resources to offset the costs of healthcare:

The Center Project's Emergency Fund can potentially provide up to \$500. Application [here](#).

The [Southern Trans Youth Emergency Project](#) provides resources and support to the families of youth who are affected by anti-transgender healthcare bans. They offer one-time \$500 grants and referral services. Complete the [contact form](#) on their website to get connected with their resources.

Reducing Cost of HRT Medications:

NextRx: A local pharmacy that doesn't go through insurance and often has medications available for lower cost. You can call them to ask about the cost of your specific medication (they also plan to have a tool online soon where you can get this information). They do take Medicaid, if you want to use insurance for other medications.

Call: 573-993-3734

Online contact form: <https://www.nextrx.com/contact/>

GoodRx: This website and app offer coupons for discounts on medications. The cost of the same medication can vary substantially between pharmacies, and can change month-to-month. GoodRx coupons are not accepted at MU pharmacies or most locally-owned pharmacies.
