

55 - Contest Design Doc

Note: If designs are entered into our contests, we maintain the right at Community DAO, to mint those designs for a variety of purposes, including sales and promotion. First and foremost, we are interested in developing the rising careers of the designers behind these NFTs. But we may also utilize NFTs to grow our project through book publications and other types of marketable strategies.

Note: If designs are entered into our contests, we maintain the right at Community DAO, to mint those designs for a variety of purposes, including sales and promotion. First and foremost, we are interested in developing the rising careers of the designers behind these NFTs. But we may also utilize NFTs to grow our project through book publications and other types of marketable strategies.
