

Cinnaverse Lorekeeper Changes and Updates

KEY: LK = Lorekeeper (aka this site) + ML = masterlist (aka this site, LOL.)

Stars Now Denote a Cinna's Overall Rarity

A Cinna's rarity on the ML is determined by its **flavor**. A Cinna's flavor is denoted by the number of **stars** (★★★) a Cinna has on the top right side of its **profile**.

As you can see, Vanta has **3 stars** (★★★) because his flavor is **Unusual**, in this case being *Void*.

But wait, what is an **Unusual** flavor?

Flavors Now Sorted into Three Categories

Sweet flavors, like desserts, candies, drinks (alcoholic and non), will have **1 star** (★☆☆).

Savory flavors, like meats, salads, other proteins, or combinations, will have **2 stars** (★★☆).

Unusual flavors, called **Cursed** or **Forbidden** prior to this update, will have **3 stars** (★★★).

Traits Have Four Possible Rarities

These may not be new to you, but the rundown of trait rarities are as follows:

Common traits will be denoted in **green**. Common traits may be used on any Cinna without additional items purchased. Just the MYO slot and you're good to go!

Rare traits will be denoted in **purple**. Rare traits must be purchased from the **Shop** in order to be used on Cinna MYOs, or may be added to customs from GAs for additional charges.

Legendary traits will be denoted in **red**. Previously called **Restricted**, all of these traits have been carried over, they are simply referred to as Legendary now.

Retired traits will be denoted in **tan**. These traits were available for public use for a time, but were discontinued / retired due to lack of use.

Changes to Certain Tail Rarities

We have heard your feedback! Going into the Cinnennial, a few previously Rare tails will now be lowered to Common. We hope you are happy with the compromises!

Triangle, Knot, Drop, and Zigzag tails are officially **Common** as of January 15, 2023. Cinnas that had these tails before this day will be given the **Vintage badge** (see below).

Profile Badges / Awards Now Available

Sometimes a Cinna has undergone a status change that we'd like to keep track of. The following **Badges** will be assigned by admins to your Cinnas should they undergo any of these status changes:

Cinnaminis have been retired as a sub-species for quite some time now. As such, if your Cinna is a Cinnamini, they will get **this** badge.

Cinnas who have **Vintage** traits, which are traits that have been *lowered in rarity* since the Cinna's original designing and approval, will get **this** badge.

Cinnas that have gone through **The Voidal**, either by prompt submission or by drinking a **Void Cola**, will get **this** badge. Please keep in mind the cooldowns before and after voiding.

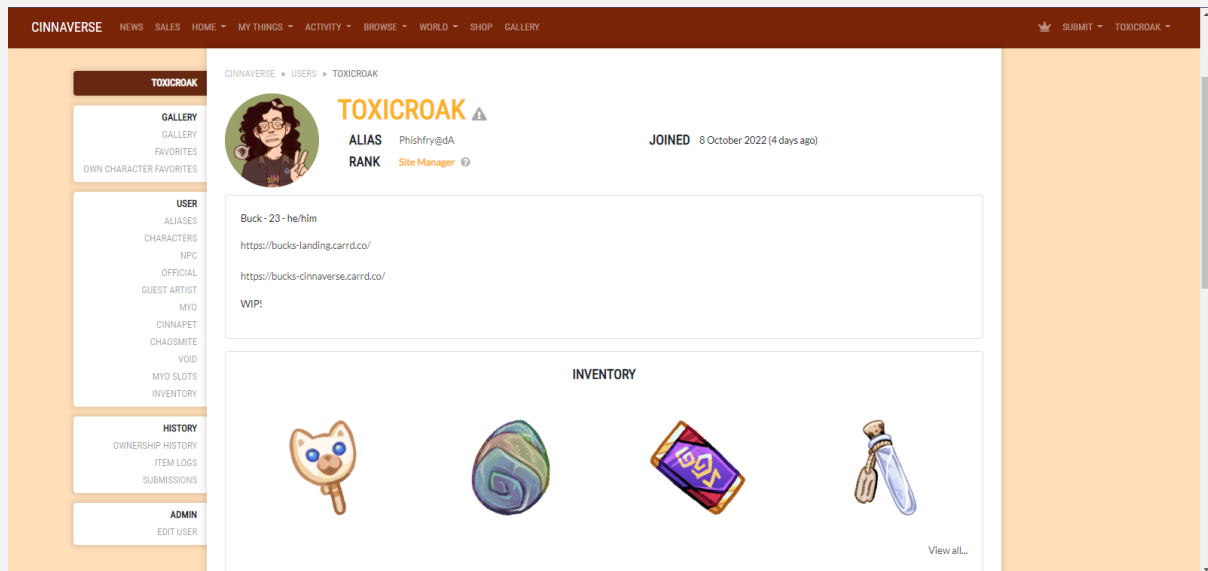

Cinnas that have gone through the **Swapout Pound** will be given **this** badge. Please note that if a Cinnas has been pounded once *it may not be pounded again*.

In other instances, perhaps a Cinna was part of a certain adoptable or community **Event**. Things like which gacha a Cinna came from have been listed on the ML for quite a while now, so we've given them badges of their own on the Lorekeeper as well! These badges are simply for fun. They do not denote any special conditions or rarities.

Item Inventory Now Available on Lorekeeper

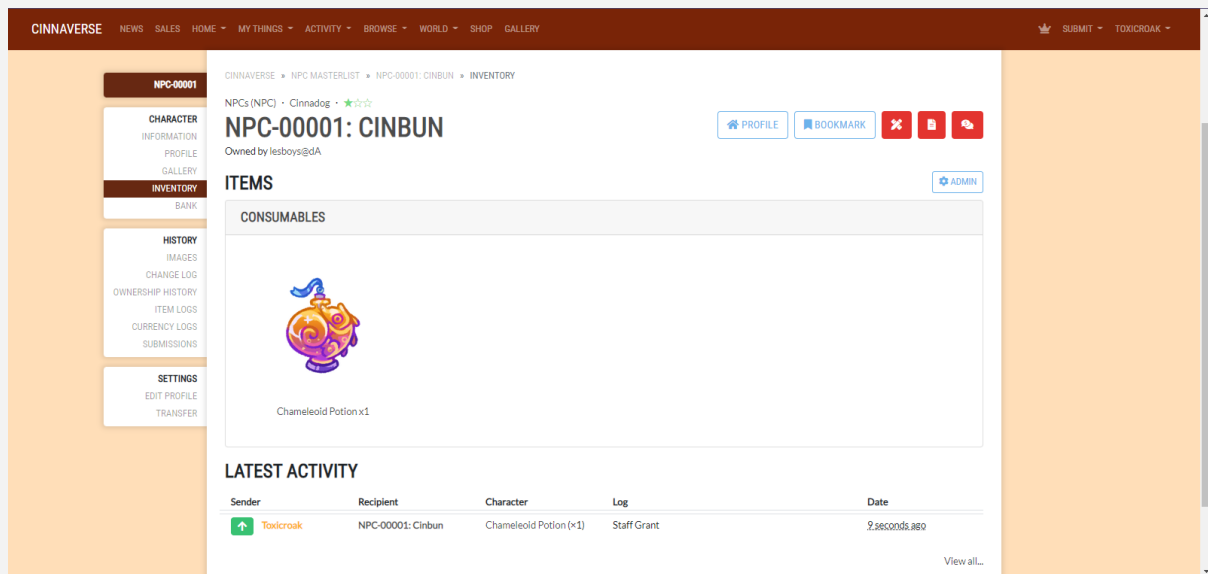

Keeping track of your Cinnaverse items has never been easier! **MYO slots**, **Add-Ons**, and **Consumables** can now be found on your **profile**.

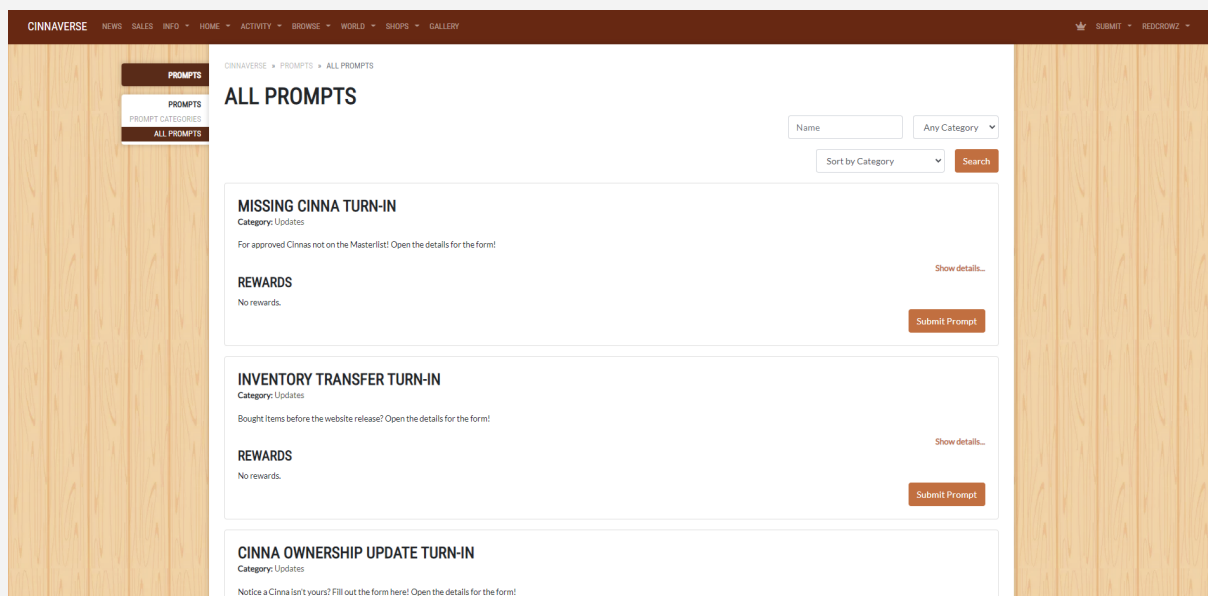

Purchasing items still goes through **Cinnacentral** ([shop](#)). To redeem the items you bought, and to add them to your **user inventory**, go to **Prompts** under the **World** dropdown tab at the top of the page. From there, scroll down to the **Shop Item Redemption** prompt and follow the guide in the description.

(As a note from Lexi/redcrowz, an *on-site* Cash Shop is in the works and will be implemented onto the site as soon as possible.)

As well as keeping track of unused items, you can also keep track of which **Consumables** you have applied to Cinnas. A Cinna's **individual inventory** will show you which items are currently affecting that Cinna. (**Consumable** items can only be used once. Therefore, a Cinna's individual inventory *will not change* even if you transfer a Cinna to someone else.)

Prompts Now Hosted on Lorekeeper

Alongside the LK, the Discord is also being revamped. Not having an actual website to run the species on since the figurative death of DeviantART has been a challenge, but we've certainly managed to thrive! As we move forward, we are taking a lot of pressure off of the Discord. You've already seen some of these changes, as we re-organized and streamlined channels at the end of 2022. The most recent and largest change is that **Prompts will now all be run through the LK!** These prompts can be found under the **World** dropdown tab at the top of the page. All details and rules regarding each specific prompt are written on the prompts themselves, so please click **"Show details..."** before attempting to submit any prompt!

There are **four** categories of prompts available for you to submit, and they are as follows:

UPDATES

These prompts, with submissions also referred to as tickets, are for the upkeep of the masterlist! If you ever notice outdated or missing information about a Cinna on the ML, these are the places to submit those concerns.

Missing Cinna - If you have a Cinna that was *already approved* before the launch of the LK, but is not on the ML, send a ticket via this prompt! (DO NOT send MYOs looking for approval here; they have their own submission process! See the *On-Site Guide* for a more thorough explanation.)

Inventory Transfer - To account for Cinnaverse items you had already acquired *before* the launch of the LK, send a ticket via this prompt. (DO NOT send newly purchased items here. Those belong in **Shop Item Redemption**.)

Cinna Ownership Update - Mistakes happen! If you do not own a Cinna that is currently listed under your name, OR if a Cinna is listed under someone else but *should* be under yours, send a ticket via this prompt. (For transferring ownership in the case of **trade/sale made after the launch of this LK**, see the next section: "Changing Ownership on the New Masterlist".)

Cinna Trait Check - If you notice a trait is wrong or missing, send a ticket via this prompt.

MYO PROMPTS

Looking to get an MYO Cinna but short on cash? No sweat! Here are the fun MYO prompts you can complete once every other month.

MYO Prompts - Complete themed art prompts to receive an MYO slot. These change monthly!

ITEM PROMPTS

These prompts are used to earn or claim Cinnaverse items you can use on your Cinnas!

Item Prompt - Submit a drawing of someone else's Cinna to earn an item of your choice!

Shop Item Redemption - Claim items purchased on DeviantART or the website to have them added to your LK inventory.

Monthly Rarity Prompt - Submit a drawing of an NPC with a festive prompt and earn one rare trait to use!

ETC.

The prompts that don't fit the other categories! You know them well, and now they're on LK.

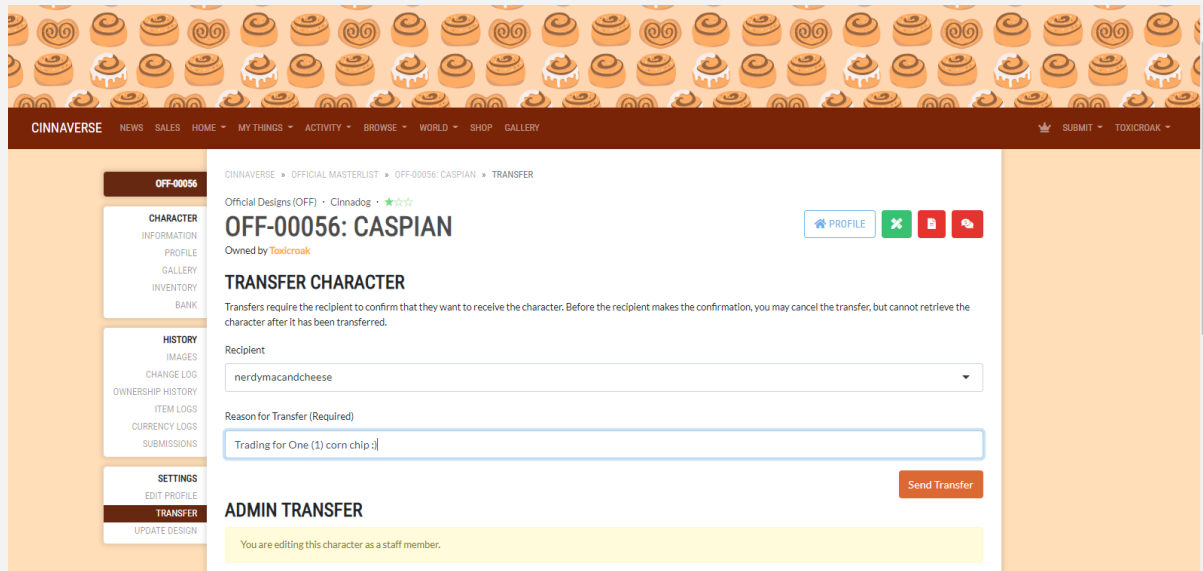

The Voidal - Visit Vanta to have a Voided Cinna reinstate for official group use.

Swapout Pound - Trade in an old Cinna (6+ months) for an MYO slot of 1:1 equal value.

Voiding a Cinna - Void a Cinna, thus making them ineligible for group use and no longer inherently tied to the Cinna species.

Changing Ownership on the New Masterlist

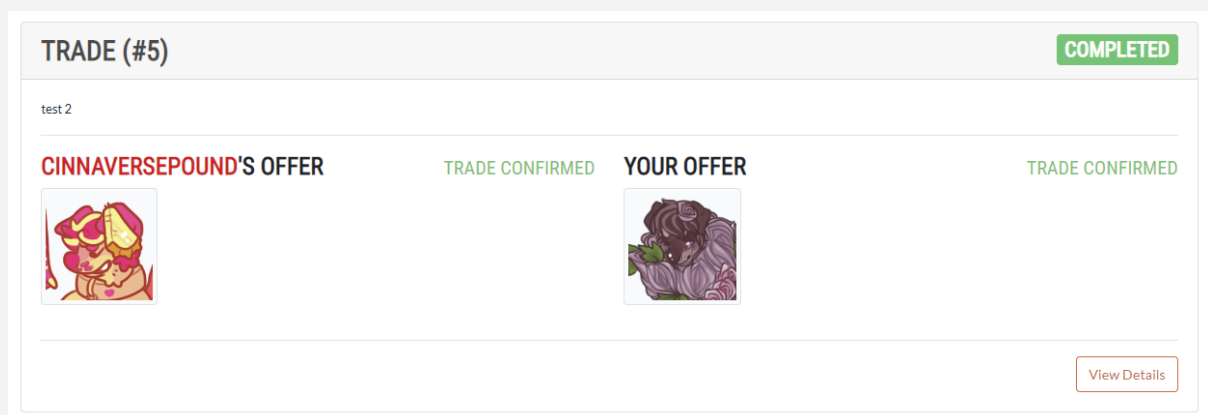

So you've traded or sold a Cinna. Good for you! Here's how to easily change ownership on Lorekeeper.

When you are on a Cinna's page, the left sidebar will give you many options. Under **Settings**, go to **Transfer**, and then input the **Lorekeeper username** of the person you are transferring to. Be sure to denote whether it was a trade, sale, etc.

If the person you are transferring ownership to does NOT have a LK account with us, even if they have Cinnas that are credited to another valid website (DeviantART, Toyhou.se, Twitter, Tumblr), a site Admin will have to do the transfer for you. You can submit that ticket via the previously mentioned **Cinna Ownership Updates** prompt.

If you are **swapping** Cinnas, you also have the option to streamline the process with the **Trades** function. These trades can also include items!

Trade Listings can be posted to the LK and come with handy individual comment sections to communicate in. Each listing expires after **7 days** after the initial posting.

IMAGES

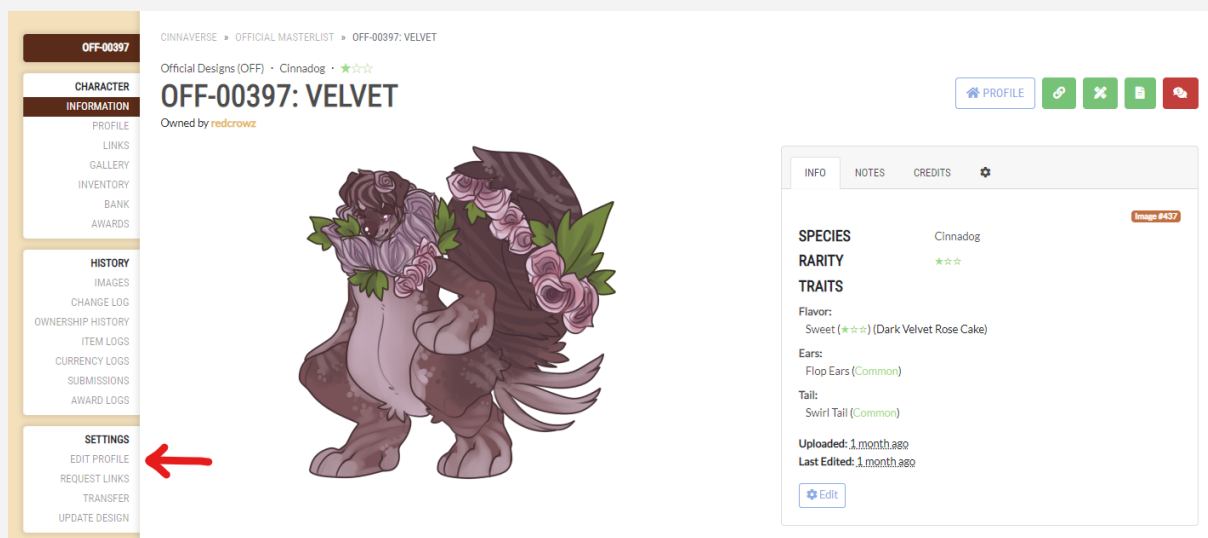

+ ADD IMAGE

Does your Cinna have multiple forms, or were they redesigned in the past? These other reference images (including approved redesigns, wereforms, alternate species forms, rare color palettes, etc.) are now officially documented for you! They are visible in the **Images** category under your Cinna's primary ML image. Additionally, each separate image is listed with its own traits! This is particularly useful if traits were swapped in a redesign, or upgraded with a wereform.

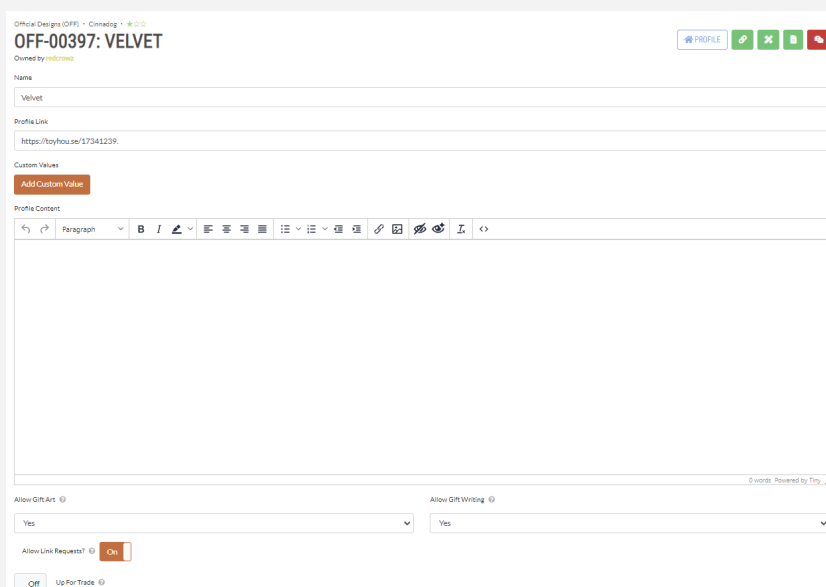

To add an official image to your Cinna, navigate to **Update Design** on the left sidebar and follow the instructions listed (which are also elaborated upon in the [site guide](#)). Please follow the steps accordingly, and remember to apply any items necessary, or a staff member will cancel your request and you'll have to re-do it.

These images are **ONLY** uploaded for official ML recordkeeping purposes! If you just want to upload new art of your Cinna, there is a **Gallery**, detailed at the bottom of this update!

Editing your Cinna's Profile

To edit your character's profile, just go to **Edit Profile** underneath Settings on the side of your character.

You can link to Toyhouse, name your Cinna, add custom page code and info, and also toggle if you want to **accept gift art, writing, links, or trade offers**.

A New Cinnaverse Gallery

There's another wonderful new perk to the Lorekeeper: the Cinna community has a **public art gallery** again! If you missed posting your Cinna art to the DeviantART group, this may fill some of that hole in your heart. <3

For details on how to submit to the Gallery, check the on-site guide, linked below!

Please keep in mind that submissions to the Gallery are **public** and must follow any and all rules previously established by the community for submissions. *Keep all PG-13+ content off-site, and do not under ANY circumstances post NSFW.* We can and will issue warnings / bans if anything inappropriate is uploaded.

Construct Sugar Change

CONSTRUCT SUGAR 🔍

Category: MYO Slots

Reference Link: <https://www.cinnacentral.com/store/p27/cinnapet-myo.html>

Just a dash of this magic dust to any Cinnalchemist's brew, and you'll have a perfectly new Cinnapet! This vial has enough of the special ingredient to conjure a Cinnapet [Oozebud, Cinnabat, Gummi-mandy, Cinnagummy]

This item is transferable between users.

CONSTRUCT SUGAR KIT 🔍

Category: MYO Slots

Reference Link: <https://www.cinnacentral.com/store/p27/cinnapet-myo.html>

Just a dash of this magic dust to any Cinnalchemist's brew, and you'll have a perfectly new Cinnapet! This vial has enough of the special ingredient to conjure three [3] Cinnapets [Oozebud, Cinnabat, Gummi-mandy, Cinnagummy]

This bundle may be split into three separate slots and given to different members.

This item is transferable between users.

Box

Donatable

+ -

The Construct Sugar prior to this update, which granted 3 Cinnapet MYOs, has been renamed **Construct Sugar Kit!** This way it suits the site's one-slot-per-item system. Individual Cinnapet MYO slots will be referred to simply as (1) **Construct Sugar**.

Whenever you submit your inventory redemption OR redeem your purchased items (for the time being), please specify how many *individual* Cinnapet slots you have! You will receive the appropriate exchange rate of Construct Sugars / Construct Sugar Kits.

[Click here for the On-Site Guide, available to you to reference back to whenever necessary!](#)

We hope you enjoy using the Cinnaverse Lorekeeper Masterlist Website! This has been a huge undertaking, and we are so excited to usher in the Cinntennial with a new space for our community!
