Wear this soothing potion in stressful situations or when you feel the stirrings of the savage beast within.

Trembling Aspen

Among the first trees to change color, it exchanges subdued green for a bright, buttery yellow that complements the afternoon light. But perhaps its most distinguishing feature is the rapid, fluttering movement of its leaves. Flat leaf stalks give the Trembling Aspen's foliage a unique quiver in the breeze, seeming to sparkle in the long shadows of September. Sunflower petals, delicate strands of saffron, crystallized ginger, and candied kumquat. Wear this scintillating scent to evoke courage and confidence.

Possets Gelato: Stracciatella, Ajevie slink, oil stained

This is what chocolate chip ice cream would be like if it were perfect. A wonderful creamy vanilla gelato is drizzled with a dark bitter dark chocolate and left for just a few seconds. During that time the chocolate hardens. When the churn starts again, the chocolate shatters and is diffused into the mixture. It gives it a fabulous chocolate crunch and bitter backlash which is unmatched in any other form of "chocolate chip" ice cream. Stracciatella is a very special treat, done best in Sicily.
