

DESIGN PROCESS

Task: Sketch a rough draft of your automaton and label the materials you will use for each part.	Success Criteria ○ ○ ○
Model:	Add to the idea: We want to add _____ to make our design more accurate.
	Revise the idea: We want to change _____ to make our design more accurate.
	Remove/Find out more: We want to remove _____ or find out more about it.
Explanation of our design:	Questions: We still have questions about _____.

Consolidating Our Learning

1. What is one thing you learned from building this automaton?

2. Why do you think it is important to continue to build on or improve designs from earlier inventors?
