What will happen on the day?

How is the event presented to the live audience and streamed at the same time

As a presenter, what do you need to do?

Kudos

# Program details

## **Best of EVO 2019, *Electronic Village Online***

will be held at two time slots in the Technology Showcase: Exhibition Hall at the annual TESOL conference in Atlanta,

### **When?**

- Thursday, March 14, 10:30-12:20 in Atlanta (That's 14:30 to 16:20 UTC)  
Click here for [Time where you are](#) and a [Countdown to the event](#)
- Friday March 15 at 13:45 to 15:30 in Atlanta (That's 17:45 to 19:30 UTC)  
Click here for [Time where you are](#) and a [Countdown to the event](#)

**Where online?** In Zoom, at this link

<https://us04web.zoom.us/j/5786977523>

**What?** Coordinators, moderators, and participants in Electronic Village Online speak about their EVO 2019 sessions and about how EVO functions. Moderators will overview their sessions, and participants are invited to describe their experiences as members of the EVO online community. Panelists will explain how to become involved as moderators or participants next year.

The 2019 version of the CALL-IS schedule should be in in convention bags at registration (this is true only for participants who paid \$5 at registration for a program book). However the Tech Fair program is available here, <https://call-is.org/ev/schedule.php>

**See Vance Stevens talking about the Best of EVO at the EVO 2019 closing ceremony Feb 17, 2019**

Live on-site presentations Thursday, March 14, 10:30-11:30

10:30 to 10:45 Thu - Christine Bauer-Ramazani and Martha Ramirez introduce the Best of EVO to the on-site audience

Starts at 14:30 UTC - [Click here to see that time where you are](#)

## EVO19 Coordination Team

Christine Bauer-Ramazani  
Cofounder of EVO/Liaison to TESOL CALL-IS

Nellie Deutsch  
Head Lead

Carolina Rodriguez Buitrago  
Lead

Martha Ramirez  
Incoming

Sanja Bozinovic  
Incoming

Jose Antonio da Silva

Mbarek Akaddar  
(former lead)

Vance Stevens

John Graney

Ayat Tawel

Natasa Bozic Grojic

Sheryl McCoy

Sibel Taskin Simsek

Jane Chien

## Summary

Christine will give some background on its founding, mission, and 19-year running (**20th anniversary in 2020!**)

Martha will talk about her role and how she started in as a participant in 2015 and now is a coordinator. The idea of this presentation would be for others involved in EVO to continue in it.

<https://docs.google.com/presentation/d/1uoBNWo8MsujmGT2sd2sYrONOXIEQnFsTU4Pp71btzPk/edit?usp=sharing>

**Christine Bauer-Ramazani** is a native German. She is Director of English Language Programs, as well as a teacher and teacher trainer at [Saint Michael's College](#) in Vermont, integrating technology into teaching and learning. Passionate about CALL, she has designed and taught [online graduate courses](#) for her college and [TESOL](#), co-founded the [Electronic Village Online](#) of TESOL, and chaired the CALL-Interest Section of TESOL, receiving the D. Scott Enright Award for service. Publications and presentations include book chapters, articles, international presentations, keynotes, and invited workshops on technology and strategic planning.

**Martha Ramirez** works as a professor at Universidad de Los Andes in Bogotá, Colombia. She is also a freelance consultant supporting schools, universities and language centers in the implementation of flipped learning, in-class flip and growth mindset. She has been flipping her courses for over five years. She is currently engaged in a research group at Universidad de Los Andes and is working on a project on developing growth mindset in public school teachers. Martha has presented in national and international conferences on flipped learning and the in-class flip. Martha is a differentiation strategies specialist from FLGI. She has recently collaborated in writing the book *Innovations in Flipping the Language Classroom* (2018) by Jeff Mehring and Adrian Leis about Flipping Pronunciation.

## 10:45 - 10:55 Thu - Basic Linguistics for English Language Teachers

Starts at approximately 14:45 UTC - [Click here to see that time where you are](#)

Roslyn Billy - Presenting live on-site in Atlanta at the Best of EVO 2019 event

Carmen Medina and Lana Hiasat will have a brief recorded intervention on the Powerpoint

### Summary

Our sessions focused on the application of linguistic concepts at different levels and in diverse educational contexts. Basic theory and research related to linguistics exposed participants to the foundations of the English language. There was a weekly live session via Zoom and interviews with English teaching professionals from a variety of countries on our weekly topics. At the end of the course, participants who attended all live meetings and carried out all the tasks received a badge for completion of the course.

**Dr. Carmen Medina Garríguez**, PhD, SFHEA. Currently, Foundations Program Coordinator at the Higher Colleges of Technology (DBM). I am an applied linguist and my PhD is on language and culture. I was a Fulbright exchange teacher in 2001. I love to study, research and teach online. I am a lifelong learner.

**Dr. Lana Hiasat** is the General Studies Program Coordinator and full-time faculty. Drawing on her background of cultural diversity, trainings in emotional intelligence, creativity, and intercultural understanding, Lana offers unique insights into educational leadership, cultural inclusion, and integration of technology. Her research interests are in blended learning, educational technologies, teaching and learning best practices.

**Dr. Roslyn Billy**'s educational background consists of a BA in Liberal Arts with a concentration in Philosophy and Religion, a M.A.Ed. in Leadership in Teaching with a concentration in TESOL, (both from College of Notre Dame of Maryland) and a PhD in Curriculum and Instruction (Capella University).

10:55 - 11:05 Thu - EVO Minecraft MOOC - Jane Chien and Vance Stevens

Starts at approximately 14:55 UTC - [Click here to see that time where you are](#)

Jane Chien - Presenting live on-site in Atlanta at the Best of EVO 2019 event

Vance Stevens - Presenting live on-site in Atlanta at the Best of EVO 2019 event

*Also on moderating team: Maha Abdelmoneim, Rose Bard, Don Carroll, David Dodgson, Heike Philp, Kim Harrison, Jeff Kuhn, Beth O'Connell, Mircea Patrascu, Dakota Redstone, Aaron Schwartz, Filip Smolčec, Mariana Smolčec, and Bobbi Stevens*

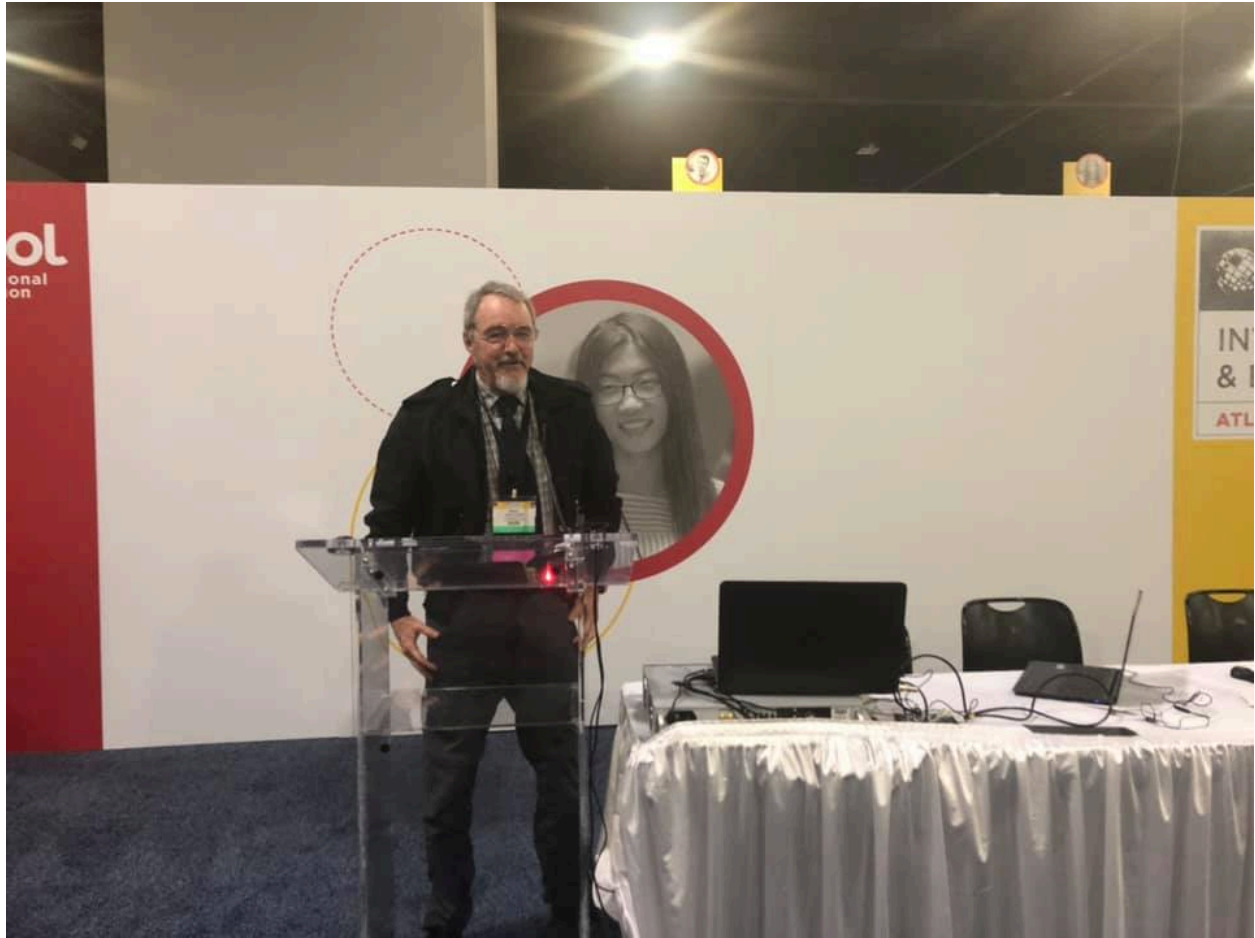

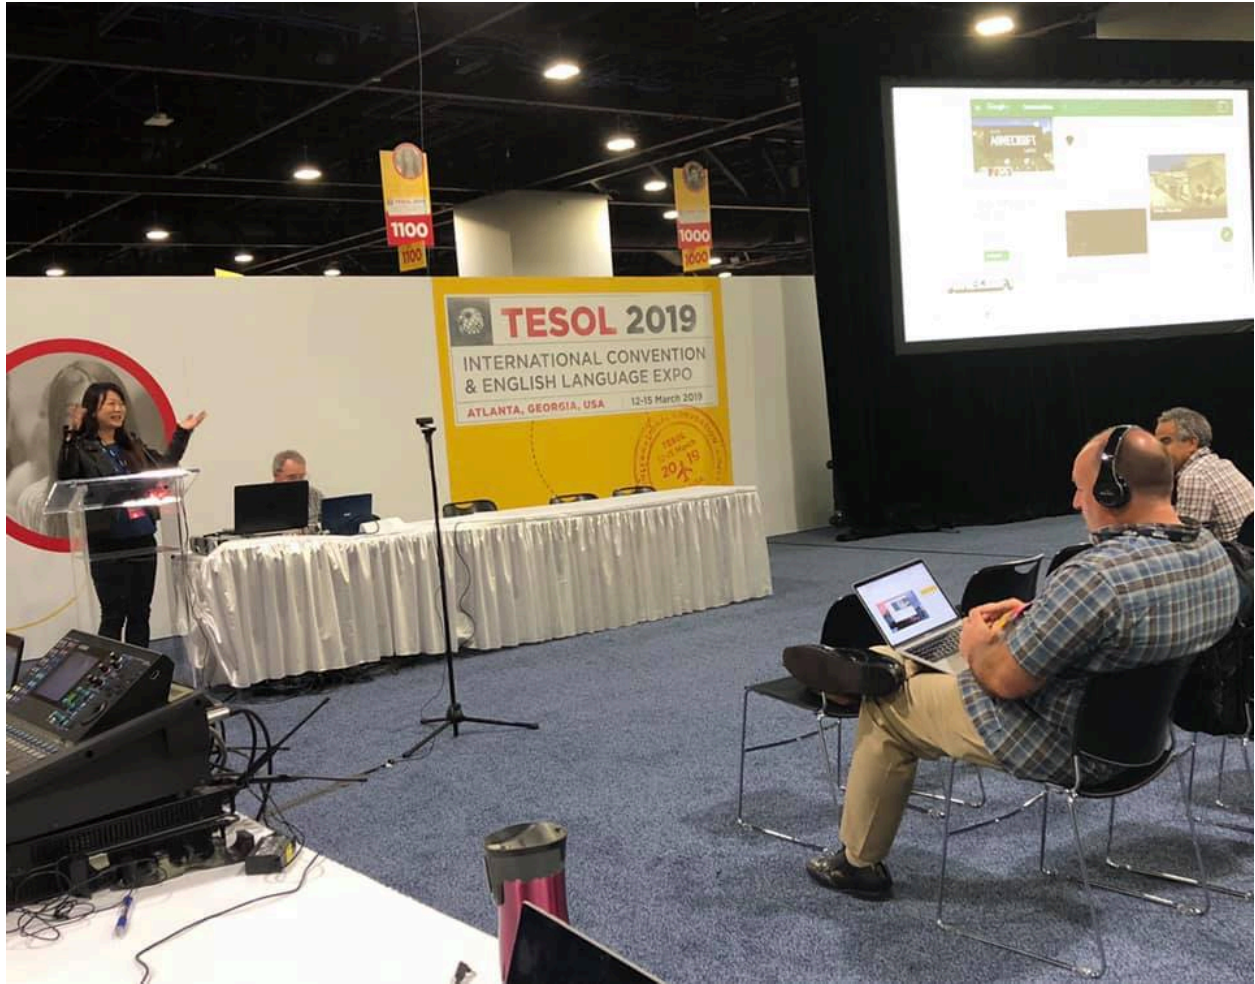

EVO Minecraft MOOC is for interested teachers to join in playing Minecraft in order to learn from each other about how Minecraft is being used for language learning. In the process we learn about gamification as we experience a unique participatory culture. This presentation discusses EVO Minecraft MOOC, which has been an EVO session since 2015, with particular emphasis on the evolution of the MOOC culminating in its 2019 instantiation.

**Vance Stevens, Learning2gether.net, Penang, Malaysia; [vancestev@gmail.com](mailto:vancestev@gmail.com)**

Vance's online work includes founder of [Webheads in Action](#), On the Internet editor for [TESL-EJ](#), a podcast series [Learning2gether](#) with apprx. 390 episodes, and since 2002 one of the coordinators of TESOL CALL-IS Electronic Village Online. Vance has passed his 5th year as founder / coordinator / co-moderator of EVO Minecraft MOOC.

**Jane Chien, National Taipei University of Education, Taipei, Taiwan; [ychien@gmail.com](mailto:ychien@gmail.com)**

Dr. Jane Chien is an assistant professor of TEFL and has been on the faculty of Children English Education, National Taipei University of Education since 2005. This year is her third year participating in the Minecraft MOOC community. She has served as one of the co-moderators of EVO Minecraft MOOC since 2017 and has become one of the assistant coordinators of TESOL CALL-IS Electronic Village Online last year. Her areas of interest include EFL teacher training, differentiated instruction, EFL curriculum design, and game-based learning.

11:05 - 11:15 Thu - Flipped Learning - Juliana Diaz

Starts at approximately 15:05 UTC - [Click here to see that time where you are](#)

Juliana Diaz for Flipped Learning - Presenting live on-site in Atlanta at the Best of EVO 2019 event

Martha Ramirez- Presenting from a distance at the Best of EVO 2019 event

Also on moderating team: John Graney, Jeff Magoto, Katja Auffret, Carolina R. Buitrago, Juliana Díaz, Gabriela Garibotto, Birgit Jensen, and Diana Salazar (who presented live on-site at TESOL Chicago 2018)

## flipped learning

### Moderating Team:

- John GRANEY
- Jeff MAGOTO
- Martha RAMIREZ
- Carolina R. BUITRAGO
- Katja AUFFRET
- Juliana DIAZ
- Diana SALAZAR
- Gabriela GARIBOTTO
- Birgit JENSEN

### Summary

This five-week online workshop is designed for both those new to flipped learning and those who are already flipping their classes. The goal of flipped learning is to reach every student every day in a meaningful way. In flipped learning, the group learning space is revitalized and turned into a fertile environment for students to engage actively and creatively with learning. Thus, participants in the session will gain further insight into the concepts and processes of flipped learning in order to transform their pedagogical practice and will also learn about tools to enhance direct instruction and individual learning. Of course, whenever possible, the workshop employs a flipped approach!

**Judy Wong** is a native New Yorker who is a visual & performing artist, a writer and an English teacher to speakers of other languages. She is an Adjunct Faculty member at PACE University in New York City, USA, she promotes literacy as a reader in the NYC Public School and she is an advisory board member of EFLtalks (online EFL teachers' teaching teachers webinar group). Judy has taught 3-80 yrs old students dance, acting, elocution, academics through the arts as a guest artist and English. Ever passionate, currently she is combining her two passions (theater arts and English teaching) to work on bringing together a forward thinking group of artists and educators to develop new original culturally relevant theater for ELL (English Language Learner) audiences. Judy holds a BS in Liberal Arts /Teaching Academics through the Arts and a MA in TESOL from the New School University in NYC, USA.

"We are teachers as well as students and our students are our teachers"

**At a distance presentations Thursday, March 14, 11:30-12:00**

11:35 - 11:45 Thu - CEFR vs Assessment: How Can Revisions Help? Maha Hassan

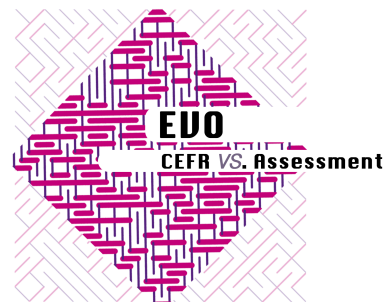

Starts at approximately 15:35 UTC - [Click here to see that time where you are](#)

Maha Hassan - Presenting from a distance at the Best of EVO 2019 event

*Also on moderating team: Aya EL Wakil*

### Summary

CEFR has settled rules for determining students' language levels. Yet what is the relation between it and assessment? What are the new clarifications/descriptors added through the recently published CEFR revisions? Can these really promote teachers' assessment of their students' classwork and their lesson plans as well?

Is there a place for technology also? Let's look it up!!

Live on-site presentations Friday March 15 13:45 - 14:05

13:45 - 13:55 Fri - Introductions from the EVO 2019 Coordination team -  
Christine Bauer-Ramazani and Natasa Bozic Grojic

### Summary

Christine will give some background on EVO's founding, mission, and 19-year running (**20th anniversary in 2020!**)

Natasa will introduce members of the coordination team and its year-round activities. She will also talk about how she first joined EVO as a participant in 2008, then moved on to be a moderator and finally a coordinator. She hopes she will be able to motivate other moderators to join the coordination team.

- Can be bulleted here

**Christine Bauer-Ramazani** is a native German. She is Director of English Language Programs, as well as a teacher and teacher trainer at [Saint Michael's College](#) in Vermont, integrating technology into teaching and learning. Passionate about CALL, she has designed and taught [online graduate courses](#) for her college and [TESOL](#), co-founded the [Electronic Village Online](#) of TESOL, and chaired the CALL-Interest Section of TESOL, receiving the D. Scott Enright Award for service. Publications and presentations include book chapters, articles, international presentations, keynotes, and invited workshops on technology and strategic planning.

**Nataša Božić Grojić** is an EFL teacher and a British Council-certified teacher trainer. She works at Zadužbina Ilije M. Kolarca in Belgrade and her students are adults and teenagers. She has been working as a language teacher for almost 30 years and still believes teaching is the best job in the world. She spends a lot of time online, learning and sharing with other teachers. Her hobbies include blogging and digital storytelling. She blogs at <http://lunas994.blogspot.com>.

13:55 - 14:05 Fri - EVO Minecraft MOOC - Vance Stevens, Jane Chien, and Heike Philp

Jane Chien - Presenting live on-site in Atlanta at the Best of EVO 2019 event

Vance Stevens - Presenting live on-site in Atlanta at the Best of EVO 2019 event

Heike Philp - Will join us in presenting from a distance at the Best of EVO 2019 event

*Also on moderating team: Maha Abdelmoneim, Rose Bard, Don Carroll, David Dodgson, Kim Harrison, Jeff Kuhn, Beth O'Connell, Mircea Patrascu, Dakota Redstone, Aaron Schwartz, Filip Smolčec, Mariana Smolčec, and Bobbi Stevens*

EVO Minecraft MOOC is for interested teachers to join in playing Minecraft in order to learn from each other about how Minecraft is being used for language learning. In the process we learn about gamification as we experience a unique participatory culture. This presentation discusses EVO Minecraft MOOC, which has been an EVO session since 2015, with particular emphasis on the evolution of the MOOC culminating in its 2019 instantiation.

**Vance Stevens, [Learning2gether.net](http://Learning2gether.net), Penang, Malaysia; [vancestev@gmail.com](mailto:vancestev@gmail.com)**

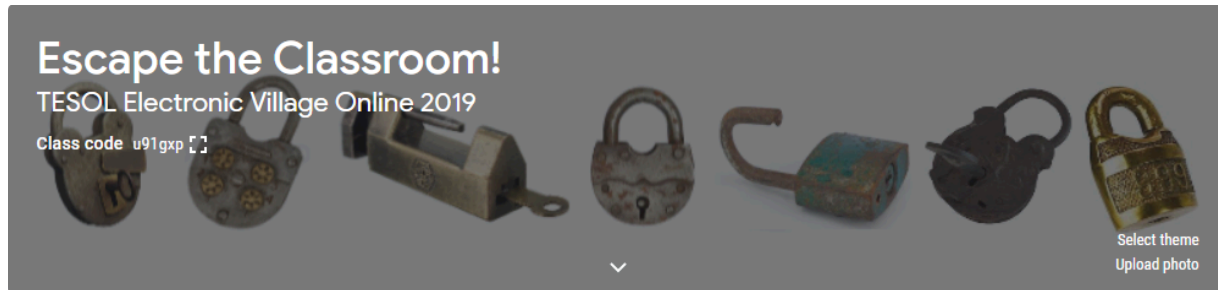

Vance's online work includes founder of [Webheads in Action](http://Webheads in Action), On the Internet editor for [TESL-EJ](http://TESL-EJ), a podcast series [Learning2gether](http://Learning2gether) with apprx. 390 episodes, and since 2002 one of the coordinators of TESOL CALL-IS Electronic Village Online. Vance has passed his 5th year as founder / coordinator / co-moderator of EVO Minecraft MOOC

**Jane Chien, National Taipei University of Education, Taipei, Taiwan; [ychien@gmail.com](mailto:ychien@gmail.com)**

Dr. Jane Chien is an assistant professor of TEFL and has been on the faculty of Children English Education, National Taipei University of Education since 2005. This year is her third year participating in the Minecraft MOOC community. She has served as one of the co-moderators of EVO Minecraft MOOC since 2017 and has become one of the assistant coordinators of TESOL CALL-IS Electronic Village Online last year. Her areas of interest include EFL teacher training, differentiated instruction, EFL curriculum design, and game-based learning.

## At a distance presentations Friday March 15 14:05 to 15:30

14:05 - 14:15 Fri -- Escape the (class) room - Heike Philp

**Heike Philp** - Presenting from a distance at the Best of EVO 2019 event (check)

**Co-moderators:** Graham Stanley and Randall Sadler

### Summary

An escape room is an adventure game set within a confined space in which players solve puzzles to unlock the door. Originally a video game, you can now find non-virtual versions in cities all over the world. Players are given a set time limit during which they unveil a story and attempt to get out of the room. In order to do so, the players have to solve a variety of puzzles, riddles and other challenges in order to find keys and combinations to open locks. Escape rooms have started to be introduced to education as they can be easily adapted to a variety of subjects and provide plenty of opportunities for learning. They can be exciting, intense and a lot of fun. Teamwork and communication is key, which means they are ideal for language learning and teaching too. During this EVO session we would like to explore different aspects of escape rooms and other puzzles, looking how you can use them for language learning and teaching. Participants are invited to join in to get tips and tricks on how to turn their classrooms into escape rooms.

14:15 - 14:25 Fri - Getting online as a teacherpreneur - Harshita Kapoor

Harshita Kapoor - Presenting from a distance at the Best of EVO 2019 event

Moderators: Harshita Kapoor (Lead Moderator)  
Dr. Nellie Deutsch

### Summary

This technical session is for teachers wanting to set up their own online teaching platform. Beginning with setting up a domain on wordpress.com to making the website secure. Learners also get a hands-on learning experience on coding a web page using HTML and CSS. Security is an important aspect when getting online. Thus it is important to have cognizance of the

various threats prevalent online, how to keep yourself and your website's users secure. We also try to address cyber bullying among young adults. As teachers the onus is on us to a large extent to secure our young learners. Participants receive badges at the end of every module for successfully completing the task per module. In the end of the session they get a certificate of participation.

**Harshita Kapoor** is the founder of Codewizacademy, an e-learning portal designed for teaching Core programming and IT related skills. She has worked as an educationist at several prominent educational institutes in the K-12 sector. She also has experience in content reviewing and instructional designing for school learning solutions. She holds a Masters degree in Computer Application and industry endorsed certifications in programming such as OCPJP by Oracle. She is certified as Cyber Crime Investigator by ASCL, India which has helped her deal with cyber bullying and challenges related to virtual world among school students. She has conducted various seminars on Cyber Security for students, management and parents at the K-12 level. She is passionate about teaching programming which is her forte.

## 14:25 - 14:35 Fri - QR Codes in Action - Sibel Taskin Simsek

Sibel Taskin Simsek - Presenting from a distance at the Best of EVO 2019 event

Moderators: Sibel Taşkın Şimşek (Lead coordinator)

Nellie Deutsch

Nezaket Özgirin

Burça Çapkan

Deniz Fırat

## Summary

This presentation discusses QR Codes in Action, which has been an EVO session for the last three years. Designed by Sibel Taskin Simsek and Nezaket Özgirin “QR Codes in Action” is a session for teachers who want to explore how QR Codes could be useful in motivating learners and teachers. The target audience is EFL / ESL teachers and educators with little or no experience in teaching with QR codes. More experienced teachers and educators are also welcome to join so that they can share their own experiences and learn from the participants. During the course, participants received badges for completion of the tasks and received a certificate at the end of the course.

**Sibel Taskin Simsek** is actively involved as a member of the Online Learning Support Project team at the School of Languages, Sabanci University, Istanbul, TURKEY. She has professional certificates including "Teaching English with Technology" offered by The Consultants-E. Her interests include technology integration into teaching, MOOCs, learner development and motivation. Her blog [songstoteachenglish](#) won the Edublog Awards 2014 “Best Educational Use of Media”.

14:35 - 14:45 Fri - Teaching Pronunciation differently - Carrie Terry

Moderating team: Roslyn Young, Piers Messum, Carrie Terry, and Arizio Sweeting

### Summary

This is the fifth year of TPD - a radical departure from L & R (listen and repeat) - the traditional approach to teaching pronunciation. In a sense the field hasn't really – in text book terms anyway – moved on in terms of either teaching or learning methods. Pick up a random EFL text and it's still mostly Listen and Repeat. TPD shows students how to make the correct physical movements to successfully pronounce English through discovery and experimentation, with the teacher acting as coach, rather than model. TPD fills a gap in two senses: Firstly, teachers often feel ill-equipped to teach pronunciation (often called the 'Cinderella' of EFL) and lack an underlying understanding of the mechanisms involved and secondly, there's a consequent dearth of information and advice to support teachers who want to teach pronunciation in a different and more effective way.

14:55 - 15:05 Fri - Moodle for Teachers and Teaching EFL to Young Learners - Nellie Deutsch

Nellie was unable to present due to a loss of voice so Vance said a few kind words about her during this time in our program and pointed out that she had been lead coordinator for two (or is it three?) years now and co-moderator of two other sessions besides the ones listed here: Getting online as a teacherpreneur and QR Codes in Action. She graciously offers her Moodle as a platform for others in addition to teaching others how to use it. EVO is indebted to her for her hard work and long service.

15:05 - 15:15 Fri - Flipped Learning and EVO Coordination Team - Martha Ramirez

Martha Ramirez- Presenting from a distance at the Best of EVO 2019 event

Also on moderating team: Juliana Diaz, John Graney, Jeff Magoto, Katja Auffret, Carolina R. Buitrago, Juliana Díaz, Gabriela Garibotto, Birgit Jensen, and Diana Salazar (who presented live on-site at TESOL Chicago 2018)

# flipped learning

## Moderating Team:

- John GRANEY
- Jeff MAGOTO
- Martha RAMIREZ
- Carolina R. BUITRAGO
- Katja AUFFRET
- Juliana DIAZ
- Diana SALAZAR
- Gabriela GARIBOTTO
- Birgit JENSEN

## Summary

This five-week online workshop is designed for both those new to flipped learning and those who are already flipping their classes. The goal of flipped learning is to reach every student every day in a meaningful way. In flipped learning, the group learning space is revitalized and turned into a fertile environment for students to engage actively and creatively with learning. Thus, participants in the session will gain further insight into the concepts and processes of flipped learning in order to transform their pedagogical practice and will also learn about tools to enhance direct instruction and individual learning. Of course, whenever possible, the workshop employs a flipped approach!

We will have to keep to ten minute segments so that everyone can present. Please be respectful of that.

# What will happen on the day?

## **A message Vance sent to EVO coordinators**

We did this last year, and it worked smoothly, but as we have so many this year, especially on Friday, we will need effective control on handovers.

We will need presenters on deck to be ready to go at ten minute intervals. We won't be able to accommodate too many time overruns and we'll need to moderate that. There will be inevitable glitches. Presenters should plan to speak solidly for only 5 or 6 minutes, so as to allow for minutes lost getting started and handing off the mic. If someone's sound is not working then we'll need to go to the next presenter available on deck and return to the one missed out. Some people might not be able to connect at all.

We will have people on-site to monitor the proceedings. I can act as on-site emcee. As with the webcasting we've been doing for years now, available hands on deck handle all storms, and the ship has always appeared to be sailing smoothly so far.

If you have any suggestions, please add them here

## How is the event presented to the live audience and streamed at the same time

This session will be streamed by a CALL-IS webcasting team and changeover times between presenters will have to be efficient. If you are presenting on-site we would queue your presentation on the presentation computer in advance of your presentation.

We use Zoom in two ways.

In online presentations we show zoom to the live audience and the presenter shares the presentation with us.

- The Zoom plays on the presentation computer and that is projected to the live audience.
- Zoom is also running on the webcasting team computer and the team shares the zoom window with the steam

that's simple

For live presentations it's slightly different

- In live presentations the presenter runs the presentation in full screen on the presentation computer. Even if it's something else besides PPT, whatever is on that computer is projected to the live audience.
- Zoom is also running on the webcasting team computer, the presentation computer is in Zoom, and the team shares the zoom window with the stream, so the stream sees clearly, from the presentation computer itself, what is on the projected screen that the audience sees
- The webcasting team uses OBS to mix inputs and send them to the stream. The zoom window is one of those inputs.
  - There is also a web cam view of the presenter speaking, and an audio track of what s/he is saying
  - The webcast team can switch layouts so if the presenter is talking about the slides, that is shown to the stream with a cameo of the presenter in the corner
  - If the presenter is talking about something else the webcast team shows the speaker to the stream

## As a presenter, what do you need to do?

All of this is happening in the background, but for presenters,

- if you join us in Zoom online, you just talk and share your screen as appropriate
- If you are presenting live you present from the podium using a PPT, website, or video, whatever, but it must be running on the presentation laptop

# Kudos

To [EVO\\_Coordinators@yahoogroups.com](mailto:EVO_Coordinators@yahoogroups.com)

Dear EVO team,

It was a great pleasure and honor to be representing, along with Vance, Jose, and Jane, the EVO Coordination team at TESOL Atlanta, and to have other EVO coordinators joining us online via webcast—Martha, Natasa. The Best of EVO 2019 was well-received and a lot of fun to listen to—I was a Webcast Assist and therefore present for both presentations. Vance, of course, was in his element, trouble-shooting, fixing, “herding,” and making sure it all worked smoothly. He is a marvel to observe in action, and he always comes through! Even when things are not working, he finds a way. I have complete confidence in him!

*Thank you Christine, one of the founders of EVO in 2001, almost 20 years ago (Vance)*
