

Family Tree Project

Objetivo: to use Spanish to explain the relationship of people in our family to us

You will be doing a Family Tree project. This can be done in a number of different ways. You can do the original "tree" way or any other illustration that shows pictures and who they are to you (in Spanish) and their name. Do not write sentences :) Just tell us how they are related to you by their "title." For example, grandpa Bob=abuelo Bob
