Chapter 68: Nice Insects Part III

"And how exactly does this experiment work, my son?" Celestia says in the body of the little Desta next to her this Luna in the body of Maud both walking with Sunny entering the mushroom forest.

“Well, the pack leader told me that it was some kind of cloning. To cut a long story short, we will make new bodies based on my DNA and transfer their souls to those bodies, by the way, I will be in charge of the modifications Hahaha ”Says Sunny.

"It sounds crazy when you put it that way, nephew, but at this point, nothing surprises me anymore." Says Luna.

"It's already decided I even asked Pinkie to throw a welcome party for the entire crew to 'enjoy' the quality of their sexy and voluptuous bodies."

"Very considerate of you my son, that's why I love you so much." Celestia says jumping on the emperor's neck kissing him all over his face. Luna laughs at her sister's gesture and they enjoy the family moment. "I just hope they don't hold back in the slightest, this horny princess needs to be brutally fucked."

"Puagh! Do not do that again mother, not in front of my aunt and answering your question, don't worry, my men do not need to be ordered to do what they want with their mares, they will treat them as they should, a whore princess fallen in the debauchery, their holes will be plugged 24/7 and treated like useless garbage. " Sunny says as she kisses Celestia passionately, the emperor's tongue invades the jaws of the little zebra princess who begins to moan.

"This is ... so hot." Luna says as she lifts her dress and begins to masturbate with her hooves.

While they were spending their family moment, something came out of the mushrooms, a giant creature resembling a giant scorpion of a blue color. The size of the creature was almost that of a small house. The three ponies stop what they were doing, they look surprised at the creature with huge pincers, six black eyes, a large mouth and what attracted the most attention was the huge dark blue tail with pulsating veins around it and the tip of its tail was different from that of a common scorpion. what should have been an intimidating black stinger was changed into an emphalic form that dripped white liquid in obscene amounts. Sunny could see her entire tail throbbing and the bug's mouth was breathing heavily. Bringing the wires together, clearly that was a huge giant cock and the creature was horny and ready to fuck whatever moves.

"OH MY! Look at the size of that thing, if cute Fluttershy were here, I bet she'd love to see this. " Says Luna

“Well, whatever she is, she got in our way. How lucky my beloved son will help us get rid of this, right Sunny? ... Sunny? " Celestia says, looking everywhere to see where her son went.

The scorpion opens her mouth and pulls out tentacles that wind her mares, leaving them at the mercy of the scorpion.

"Wow ... this is going to be interesting." Says Luna who sees how a mass of tentacles break her dress, leaving her naked. The tentacles wasted no time invading Princess Luna's holes by shoving more than one tendril into her pussy and ass. Celestia watched as her sister's holes were stretched, while the tentacles invaded her without worrying about damaging Luna who used the body of little Maud on her feet.

"OH YES! fuck me, fuck me harder. " Luna yells as her tentacles inside her begin to fuck her. Luna begins to moan, the pain added to her lust caused him indescribable pleasure, she had never felt something like this, not even when they fucked her among all her soldiers. Luna just lets the monster take her and do whatever it takes with her.

"AHHH! AHHH ~ MMMPHF? !!" Lots of tentacles silence her moans, stretching her jaw and filling her mouth. One tentacle grabs the pony's tail and begins to pull hard. Other tendrils grab her limbs, rendering her immobile and completely defenseless against this monster as more tentacles emerge from her. her mouth and filling Luna with more tendrils, more than her holes could tolerate.

Meanwhile, Celestia watches from above as her sister enjoys the abuse of this creature.

"Wow, if she loves rough, I'd like to be in her place right now." Celestia was with tentacles around her body, while she waited for her turn.

"Come on big, I know you have more to offer than those tentacles ... your little tail-shaped friend needs some attention." says Princess Celestia pointing a helmet at the scorpion's tail. The insect uses her instincts and directs the little princess to the tip of the penis-shaped stinger. Celestia collided sharply against her tail, the pre-semen came out as huge drops of water, one of these drops falling on Celestia's body soaking up semen due to her small body. Celestia is literally blank by the sperm, the princess begins to open her eyes little by little and a look of lust forms on her face. The filly licks all the semen from her lips and gulps it down.

"Ohhh ~ yesss ... that smell and ... that taste is incredible, you are a magnificent creature, give me more, I want more !!" Celestia starts kissing and licking the tip of her huge cock. Due to the size of her body she looked like a mosquito compared to the huge rod of the scorpion who at this point was completely aroused and was going to give these mares what they deserve.

With their tentacles around Celestia's body, they put her on top of the insect's cock, spreading her legs. Celestia didn't care about her size, they just wanted to be fucked hard, she was sure that Desta's soul wouldn't care anyway.

“Ohhh yes a penis… A huge penis is about to destroy me ~ Come on, give it to me !! I want to see what you are capable of ”. Celestia spreads her legs wider to let her rapist have no problem entering.

Her tentacles pull down, slowly the folds of Celestia's vagina open, stretching her filly's tight hole. Although Desta's body has already taken in stallions, minotaurs, centaurs, dragons, griffons, and a long list of men, never anything of this magnitude, Celestia must give the little filly credit, her holes were trained for this. The princess could see an obscene bulge forming under her stomach, she could see the huge cock that was introduced inside her, with the sole purpose of fucking her and making her his. Celestia's eyes rolled to the top of her head as half his cock was thrust into her pussy. It was ridiculous that a filly could take all of this, but here she was with a huge stick embedded in her pussy. Her tentacles move her up and down, as if she were a dirty rag, a live condom. Celestia begins to moan with all of her might.

Meanwhile Sunny is on top of a mushroom, watching from above how her foxes are being used as livestock by the insect.

"This creature will be perfect to fight against the rebellion, I just have to warn that they capture it." The emperor takes out a communicator to call the base.

"Yes sir, how can I help you?" Says a scientist pony who is sorting the mushroom samples in his lab.

"Yes, I would like you to send a group of guards for a capture, there is a giant scorpion fucking my mother and aunt, it will serve us for future plans."

"Is it related to the rebellion? because if so, I could make a couple of improvements ". The pony adjusts his glasses. "I just need to finish off these mushrooms that Comet and his team brought in and I'll take care of the bug."

"Make sure you give her a space in Fluttershy's room, you know that she takes care of these things related to nature, also make sure she fucks her and uses her for the rest of the day."

The pony just smirks as she adjusts her glasses. "At her command, your majesty."

When she finishes chatting with the pony, Sunny looks at Celestia and Luna's current situation, both mares switched positions with Celestia being fucked by a mass of tentacles that filled her and Luna's holes in the scorpion's big cock.

"Well, this will take a while." Sunny says waiting for the torture of celestia and luna to end.

In the cave

Sunny was standing next to Celestia and Luna with stomachs full of sperm from the bug that had just fucked them. around her Sunny saw the mares that the insects had captured to impregnate them with moth eggs. The poor mares were at the mercy of these creatures with

many of their holes being plugged by insects that didn't care about hurting them, they only cared about expanding their breed and fucking the mares that were selected to please the moths. Sunny watched as her tight outfits were ripped to shreds, leaving the mares naked and with big bellies full of little blue eggs that glowed inside.

The insects took their three holes, fucking the mares mercilessly, each mare was penetrated by three horny insects, in a long crowd around her that waited for her turn to fuck those huge thick mare asses. when a moth finished another one took its place and thus a cycle that seemed to have no end was repeated. Sunny approaches the king who had the fortune to fuck Velvet.

"You're late, why are you late?" She says the King while he was fucking Velvet by shoving all of her cock into her stretched pussy. An obscene lump appeared on the mare's stomach that had a blank look on her face.

"We had some… problems along the way." Sunny says pointing to her mother and her aunt.

“Oh, I see, I didn't tell you before, but it's mating season, so a lot of insects go looking for easy prey. If I was you, I would call your crew and take shelter as soon as possible, your females may be in danger and ~ oh crap, I'm close. " Says King Moth giving the last thrusts to Velvet's pussy.

When she gave the last thrust from her, Velvet's stomach began to fill like a balloon, thousands of eggs invaded her uterus and mixed with the sperm of the demons, humans and studs that she had fucked. The load of eggs was too much for the mare that even eggs came out of her mouth, Velvet suddenly woke up, choking on the parasites that came out of her mouth like a waterfall. The mare's eyes drifted to the top of her head as she let herself be carried away by the moth king. When the king finished with Velvet, he grabbed the mare from her head, slowly pulling her out of her huge cock and threw it to one side of her like a sack of potatoes, while the mare's cunt overflowed the eggs inside. her.

"Ahhh, that was a good guest, I loved her pussy and her curvy body of the best mares you have given me." Says the king getting up and addressing Sunny.

Who are they? Another offering? " The king points to Celestia and Luna at the body of Maud and Desta.

“Not exactly, they are the mares I was telling you about. I present to you my mother Celestia ”. Sunny points to the zebra filly.

"Nice to meet you king." Celestia says bowing.

"And my aunt Luna."

"It is also nice to meet who will help us recover our bodies." Luna follows her sister's lead.

"The pleasure is mutual ladies." Says the moth king bowing.

"Your friend is nice, my son, a long time ago he had not been received with such chivalry." Celestia says giving her son a friendly nudge.

"Do not get used to it, if you wanted to, I would throw them to the rest of the mares that are being used as livestock for insects." Sunny says pointing to the mares that up to this point their bellies are to the brim with eggs. The insects stopped using them so that their stomachs deflated and later returned to fuck the mares.

"Well, I take it you are ready for treatment?" Says the king.

"Of course sir, what do we have to do?" Says Luna.

"Well, I did tell your emperor about the 'cocoon method.'
It consists of inserting an egg inside the user and then inserting it into a cocoon and with the passage of time, a new body will be formed, that's the short version ”.

"How long will this process take?" Celestia says.

"One week, but I must warn you that it is a risky process, they have never tried ponies like you, but I trust they will succeed." Says the Anthropoid.

"Come on mom, this is the perfect opportunity to recover their bodies ... and their lives under my helmet." Sunny says spanking both mares, making their butts bounce.

"If my son travels the galaxy just to see his mother happy, then I will not oppose the method, Sister, what do you say?"

"You are an incredible nephew, I still think that you have enviable luck, since you get everything you want ... but on the other hand, I miss feeling you with my own helmets, so I will also join my sister." Says Luna hugging Celestia.

"Well king moth, it's settled now, and I hope you keep your end of the bargain too."

"Of course, I can't help but be grateful to the mares you brought me, but it's a shame you have to take them after we're done here."

"What are you talking about? these mares are yours for the rest of your life; Fuck 'em, fuck' em, wreck their minds, make their lives miserable - that's what they were trained for after all. of course they are all yours, at least if you can get my mother and aunt back alive and by the way the mare you fucked, that is not in the deal, we need her for other… things ”. Sunny says.

"Seriously? Thank you very much Emperor, you are the best thing that has happened to my hive ”. Says the anthropoid spreading its majestic wings and flying with joy Sunny reminded him of the bitch Rainbow Dash before being fucked by him and many of her men.

"Well follow me, the cocoons are ready." Says the king.

"That was fast". Says Sunny following the moth, Celestia and Luna followed her step.

"Well, when my sons brought your mares, I took the liberty of setting everything up, I was just waiting for your arrival."

The anthropoid removes a layer of cobweb that was on top of two large green capsules that illuminated the entire cave. its interior was transparent, branches of the same color were around it. Sunny managed to see the branches pulsing as if they had a life of their own.

"And what else is missing?"

In one swift movement, the moth king grabs both. The anthropoid stands in an upper corner of the cave and pulls out its 20-inch stinger, but what surprised Sunny was that the giant moth made another cock appear so that it could tend to both females. She places the mares in a position to insert all of her members into her pussies. Little by little the folds of Luna and Celestia's pussy begin to stretch, especially Celestia because she was wearing a small body. Both mares began to moan in unison.

"AHH, AHH, AHH GOD, IT'S TOO BIG." Celestia says.

"Grrr-Should it end any other way? ~ Oh my ass, FUCK ME HARD !!" Luna says, screaming at the top of her lungs.

"I need your mares to have my egg to introduce them into the cocoons, the egg develops within you and when they are sufficiently developed, I will take them out of the cocoon and these eggs will come out of their pussies and later new bodies will come out, they will be like empty shells, but they will serve as guests for you, I am not going to lie to you, your stomachs will be colossally large, this is why few survive the method, because they can die in childbirth ”. Says the anthropoid while increasing her thrusts making both mares moan with pain and pleasure.

"Don't worry, I can help with that part." Sunny uses her magic and begins to cast a spell on Celestia and Luna, the mares feeling their insides become more elastic. The big cock that was fucking them began to get deeper until it reached their wombs.

"OHH YESS !!" Both sisters scream to the sky, with their eyes on top of their heads and saliva running from their mouths.

"What did you do to them? I feel like her insides feel more comfortable and tight on my cock”.

“It's called the stretch spell, I rarely use it on my mares, I usually like to have them gangbanged and their holes ripped apart, but this time it is worth it. I want everything okay. it will also serve for the eggs that will develop within them ”.

"I like the sound of that, and it will be almost over." Says the king as he gives his last thrusts to the pussies of his mares, who begin to moan with all the might of him. Celestia and Luna hold onto their helmets knowing that the king is close to ending up inside them.

"TAKE THIS !!!" Says the king giving one last push.

"AHHHH !!!" Both mares scream at the same time, as their stomachs begin to swell. The foam came out of their mouths, their bodies began to give sudden spasms, but at no time did they let go of their helmets, demonstrating their bond of sisters, accepting their destiny.

Sunny noticed how her stomachs swell more and more, but something happened, the characteristic blue color now changed to a red one that glowed in her belly.

"What does that red color mean? Something went wrong?". Says the Emperor worried.

"Do not worry, it means that it is in the initiation phase, when it is in full development it will turn yellow and when it is ready it will turn green." The king removes the mares from his cocks by dropping them to the ground like rag dolls.

"Well, your majesty, put the mares in the cocoons." Says the king.

Sunny obeys and with her magic she lifts her mother and her aunt who had a face of orgasmic happiness on their faces. Before introducing them, Sunny gives a tender kiss to her mother and aunt, and not only to them, but also to her wives that she would not see in a week, so she will miss them for a while and trust them to survive this experiment. She first she introduces Celesia into her cocoon, as soon as she introduced her, three tentacles came out from the interiors of her cocoons; 1 in the form of a mask and two others got into the mare's holes, starting to fuck her. A white liquid began to flow from under her legs that filled the entire cocoon, making it impossible to see Celestia and the only thing that could be heard from the mare was her faint moans.

"That was intense ... but amazing." Sunny says looking at the cocoon that turned red.

"It's your turn, Aunt Luna."

"Do it, nephew, I'm ready for this." Luna says giving Sunny a kiss on the mouth.

"I promise you that when they have their bodies, I will fuck them to have a strong son, I order the crew to prepare a 'Warm Welcome' for the two of you; We will fuck them as hard even harder than Twilight and Rainbow Dash, I will make them beg for our cocks, I will make them not hold back in the least in using their bodies, even the dirty janitors and studs will fuck

them, they will be the centerpiece of a gangbang no only from my ship, also hell awaits for you and my empire will also abuse you… God, I have many plans for those plump asses that you and my mother have ”. Sunny says spanking Luna and biting her ear.

Luna bites her lip when she imagines all those things being used as a fuckmeat by multiple men of different species, licking and sucking their cocks and continuing to fuck with them until the end of time, being nothing more than a bucket of sperm. After she gets out of that cocoon, things will get really interesting for the slutty princess.

"What are you waiting for my nephew! Get me into that asshole at once! " Says Luna excited.

"Your wishes are orders, Princess Luna." Sunny smiles wickedly and introduces Luna into the cocoon.

Like Celestia, multiple tentacles appeared and covered her holes, Luna began to moan and the white liquid began to emerge, disappearing from the emperor's sight and thus beginning the cruel treatment of both mares, who will be fucked tirelessly for a whole week .

"What a way to say goodbye to your family, telling them that they will be used by entire groups of men." Says the moth king in a mocking tone.

"Well, what can I say? I am not sentimental, besides those two whores longed for this. "

"So, will you stay here to wait?"

"No, I'll be back when you're ready, I have other things to * BEEP BEEP BEEP * ... do?" Sunny responds to the call and sees Fleetfoot that she is lying on the floor covered in cum and with all her outfit in shreds, her hair messy and with watery eyes. The emperor watched as Fleetfoot jerked up and down.

“Em-emperor… We have problems ~ Oh god !! It's so big and so hard !!… a horde of ~ AHH !!… of rock beasts… they have been fucking me… all my holes are being used right now… ”Says the Wonderbolt who is being fucked by three rock beasts penetrating her holes with their 17 inch rocky cocks.

"Oh, I remember, we forgot about you when Comet let you die with those mushroom tentacles, I suppose since then any creature that passed by used you as fresh meat, am I right?" The only thing Sunny hears is a loud moan from Fleetfoot, Sunny sees as around the mare more strange creatures on the planet such as scorpions, slimes, rock beasts and giant spiders, they surrounded the mare to have a turn with her and fuck her until the brains.

"Well, if you're in danger, I guess the others are too, I'm on my way." Sunny says.

"Please ... take her time ... There are still a lot of guests I need to attend-AHH YES FUCK ME HARD !!" Sunny rolls her eyes and cuts off the transmission thinking about what's going on with Fleetfoot right now. She being fucked by all the creatures on this planet.

“It sounds serious, I recommend that you plan a distraction to get them away from her, they could seriously hurt her, with all the multiple scorpion eggs and spiders, it could give a terrifying result causing an unwanted child. In addition, the rock beasts do not suffer from fatigue, so it will take a long time ”. Says the king.

"Quiet it will be fine, in fact those creatures can serve me, especially for future plans, I will let them enjoy the bait that is Fleetfoot and then I will capture them. I'm worried they made it to the ship, anyway let me know when my fucking mares are ready, okay? " Sunny says, using her magic to teleport and imagining how her crew will be right now.
