Welcome to the Pizzaplex, a place where the fun never ends! But firstly, we need to give you a few pointers and safety rules to survive the night. Let's start on what each color means for each route.

If this is your first time at the Pizzaplex, make sure to follow the green highlighted strategies.

If you've already been to the Pizzaplex and know a bit of strategies, make sure you follow the orange highlighted strategies.

If you've been to the Pizzaplex multiple times before and think you're an advanced player, it's highly recommended you follow the blue highlighted strategies.

If you're in the top 5 on the Pizzaplex leaderboards and wanna up your game. It is recommended you follow the red highlighted strategies.

Legal and Banned Strategies:

You **CAN**:

- **Exploit In-Game physics and collisions** to clip/skip parts of the game if allowed. *(Any% or NMS depending on the glitch)*
- **Use a FPS limiting software to temporarily cap or increase FPS**
- **Lowering Voice Volume to 0** (Skips cutscenes and audio cues)

You **CAN NOT**:

- **Use Third-Party Software to alter the game** in any way that would give you an advantage such as Increased walking/sprinting speed, NoClip, Macros. These include any cheat engines such as UUEU, CheatEngine, ArtMoney, etc...
- **Use Macros or Third-Party Software** to record/play any preset keybinds/keystrokes.
- **Turning Master Volume to 0**
- **Use of pre-run save files to help warp you to other locations** *(doesn't apply for NG+ in Category Extensions)*

Main Categories

- **Single Endings.** Speed your way through the game as quickly as possible using any allowed glitches or exploits found in the game. Each ending is separated into its own category:
 - **Afton Ending:** Done by completing the Afton Fight in Roxy Raceway
 - **Escape Ending:** Done by leaving through the main entrance.
 - **Vanny Ending:** Done by clicking the button in Vanny's Hideout
 - **Car Battery Ending:** Done by leaving through the loading docks exit after achieving Level 6 clearance.
 - [Click here for locations of all 8 Security Card locations.](#)
 - **Fire Ending:** Done by leaving through the Super Star Arcade Prize Counter emergency exit after collecting 39 total collectibles. Security Badges and Upgrades do not count towards this.
 - **Princess Quest Ending:** Done by completing all 3 Princess Quest arcade machines.
 - [Click here for the locations of the arcade machines.](#)
- **All Endings.** Speed your way through the game as quickly as possible using any allowed glitches or exploits found in the game. You must achieve all 6 endings listed above.
 - Use of multiple save files is allowed as long as those save files come from the current playthrough and not previous ones.
 - Timer regulations are a work in progress
- **All Collectables/100%/600%.** Speed your way through the game as quickly as possible using any allowed glitches or exploits found in the game. You must collect all required items, collectables, messages, and Retro CDs.
 - **100% and 600%** also require getting all Endings and Completing all Arcade Machines
 - **600%** also requires to start a new save after every ending.
 - You must show your message count and inventory prior to ending the game. 50 Messages and 124 Items (Misc. Tab; 15 rows + 4 items) must be shown.
 - Items that don't stay in your inventory if used are also required, but should NOT be used to try to replace an item you don't want to get. In other words, try to fake having 124 items.

- Mr. Hippo Magnet, Entrance Pass, Damaged + Repaired Head
- Additional information and a full list of everything needed and locations can be found [here](#).

Sub-categories:

- Each main category is separated into 5 different sub-categories:
 - **Any%:** Everything that is not listed in the Banned Strategies above is fair game.
 - **Out of Bounds:** Use of deloads are fine as long as those are not deemed hardware based by the community
 - **Inbounds:** Any glitches that involve any deloading of the game are NOT allowed. Accidental deloads are fine as long as you don't take advantage of it.
 - **No Major Skips:** Skips and glitches are allowed as long as they don't break the sequence of the missions
 - **Skipless:** Any glitches or skips, no matter how big or small, are not allowed. This includes skipping cutscenes and 0 volume skip.

If you are unsure if a specific glitch is allowed for a certain sub-category, click [here](#) for a full showcase of all known glitches and skips

Timing:

- **Start** - Start the timer when the battery icon on Freddy's HUD drains to 2 bars
- **End** - End the timer at the appropriate time based on your chosen ending:
 - **Afton Ending** : Timer ends when cutscene starts
 - **Escape Ending** : Timer ends when you press leave
 - **Vanny Ending** : Timer ends when button is pressed
 - **Car Battery Ending** : Timer ends when you press leave
 - **Fire Ending** : When you press leave at emergency exit
 - **Princess Quest Ending** : Ends when you hit the last object in princess quest

Category Extensions:

- **Death%:** Die as soon as possible
 - Timing ends when the static appears
- **Golf%:** Complete all holes in the Monty Golf arcade in as few strokes as possible, as fast as possible

- Timing starts when you press “Play Game” and ends when the End Screen shows up
- Strokes come before timing, so a 12 stroke: 30 min time is better than a 13 stroke: 10 min time.
- **Flag%:** Get all flags in FazerBlast as fast as possible
 - Timing starts when you press the button in the elevator and ends when the last flag is collected
- **Pizza%:** Bake pizza for Chica as fast as possible.
 - Timing starts when you press “Activate Pizza Bot” and ends when you grab the pizza from the oven
- **Woman%:** Get jump scared by Vanessa as fast as possible
 - Timing ends when the jumpscare scene starts
- **Map%:** Take the map from Mapbot as fast as possible
 - Timing ends when the map shows up on the screen
-
- **NG+:** Complete the game with any ending where the use of save-warping is allowed
- **Genocide%:** Kill all animatronics as soon as possible while choosing any ending where Freddy dies
 - Vanny and Fire ending only
- **All Jumpscares:** Get all jumpscares/deaths possible in the game
 - Security Bot, Shattered Security Bot (both Afton area one and Sewers/Vanny Ending sequence ones, they are different), Nightmare Bots, Map Bot, Vanessa, Vanny, Freddy, Wind-Up Music Man, DJ Music Man, Glamrock Chica, Shattered Glamrock Chica, Glamrock Montgomery, Shattered Glamrock Montgomery, Glamrock Roxy, Shattered Glamrock Roxy, Moondrop, Endoskeleton, The Blob
 - Timing ends when the last jumpscare animation starts.
