

\$Nut

## **\$NUT Litepaper & Tokenomics**

**Token Name:** Nut

**Ticker:** \$Nut

### **Inspiration:**

In poker, the nut hand (or the nuts) is the strongest possible hand in a given situation.

As a Meme token, \$Nut will also be the best possible and winning hand for everybody.

Also the word, "Nut", has so many different and funny meanings in English, so it will be very easy to create memes and content for it.

### **Narrative:**

Here comes the Nut shot, the strongest hand in every HODLer's portfolio.

Born from the poker tables of Las Vegas and the meme factories of the internet, this one's for all my degens, gamblers, and nut enthusiasts.

We have thus declared that Nut will be the "nuts" of all investments – the unbeatable play in crypto. \$Nut will eventually conquer it all, from NutFi and NutFests to NutVerse

Gather round my Nutties. Spread the word of \$Nut and let's make this a Nut Nut November to remember. They've heard of jeets and paper hands, they've heard of hodlers and diamond hands, but they've never heard of us Nut Hands.

Let's get everyone nuts for \$Nuts!
