MYTRIBE AI

Affiliate Bonus Package

6 done-for-you bonuses to offer your list — an $862 value that lifts conversions

For Our JV Partners

To help you convert more of your traffic, we've built a ready-to-offer bonus package you can promote to your list, free for you to use.

Each bonus below complements MyTribe AI perfectly: it removes a remaining obstacle a new buyer might feel ("will members actually stay?", "what do I charge?", "is this even allowed?"), which is exactly what makes a bonus stack lift conversions instead of just padding the offer.

All six are delivered for you, buyers access them inside the member area the moment they purchase through your link, so there's nothing for you to host or fulfill. Simply reference them in your emails (full swipes provided) and point to your affiliate link.

> **Total package value: $862** — included free with every MyTribe AI purchase made through your affiliate link during launch.

The Bonuses

Bonus 1 — The Tribe Exit Blueprint — Value: $197

A complete guide to turning a paid community into a lump-sum payday: how to value a tribe (the 5–10x annual-revenue rule buyers actually use), the simple moves that make yours sellable, the marketplaces and brokers where communities change hands, and exactly what a buyer checks before they wire the money.

Why it converts: It makes the "asset" promise concrete. The buyer isn't just paying $17 for monthly income, they're starting something that could one day sell for a life-changing sum, which reframes the whole purchase from an expense into an investment.

Bonus 2 — The Member Retention Playbook — Value: $197

The exact system for keeping members paying month after month: a welcome-and-onboarding flow that hooks new members in the first 48 hours, the rituals and rewards that build real belonging, and the quiet churn-killers that turn a one-month member into a one-year member.

Why it converts: It answers the unspoken fear, "what if they all cancel?" When a buyer can see how members stay for years, the recurring-income promise stops feeling fragile and starts feeling bankable.

Bonus 3 — The Sponsor & Legal Shield	**Value: $147**

The moment money changes hands, a buyer is in territory the software doesn't cover. This hands them plain-English sponsor and affiliate disclosures, fill-in sponsor agreements, member terms, and a compliant community footer, so they get paid on time and stay protected.

Why it converts: It removes the "is this even allowed?" hesitation that stops cautious buyers cold. Knowing they're covered legally makes pressing buy feel safe instead of risky.

Bonus 4 — The Perfect-Price Profit Calculator	**Value: $97**

A simple tool and guide for setting the monthly price and membership tiers that earn the most, so a buyer never under-charges or scares members away. Plug in the niche and audience, and it points to the sweet-spot price and the free/core/VIP structure that maximizes monthly revenue.

Why it converts: It answers "what would I even charge?", a question that quietly stalls new owners. Removing that guesswork makes the income feel real and the first step obvious.

Bonus 5 — The Faceless Authority Kit	**Value: $97**

Everything needed to build a trusted brand and voice without ever showing a face: a 60-second community intro formula, signature welcome and sign-off templates, and the small "sounds like a real host" touches that make members feel they belong, even under a pen name.

Why it converts: It removes the biggest private fear of the camera-shy buyer, "I don't want to be on video." It proves they can own and run a thriving community completely behind the scenes.

Bonus 6 — The Zero-To-First-Payday Masterclass	**Value: $127**

The whole system taught end to end, so a buyer gets a result on day one instead of month three. Follow along as one community goes from a blank niche, to a live page, to its first members, to its first monthly payment, including the power-user moves that fill a tribe faster.

Why it converts: A plan removes overwhelm. When a buyer can see the path from "logged in" to "first paid member" laid out step by step, "I'll try it someday" becomes "I'll start tonight," which is the difference between a sale that sticks and a refund.

How To Use This Package

1. Use the provided 15-email swipe sequence — the bonuses are already referenced in **Emails 2, 3, 5, 7, 8, 10, 12 and 15** (listed just above the final CTA).
2. Remind your list the bonuses are free, but **only while the cart is open** — scarcity on the bonuses lifts urgency as strongly as the price does.
3. Reassure them delivery is automatic: the bonuses appear in their member area instantly, **nothing to claim or email for**.

> Promote with the coupon **Tribe30off** (30% off across the funnel) and this bonus stack together, and you give your audience a near-irresistible reason to act now.
