

HOW TO GET INTO BURNING MAN HIVE

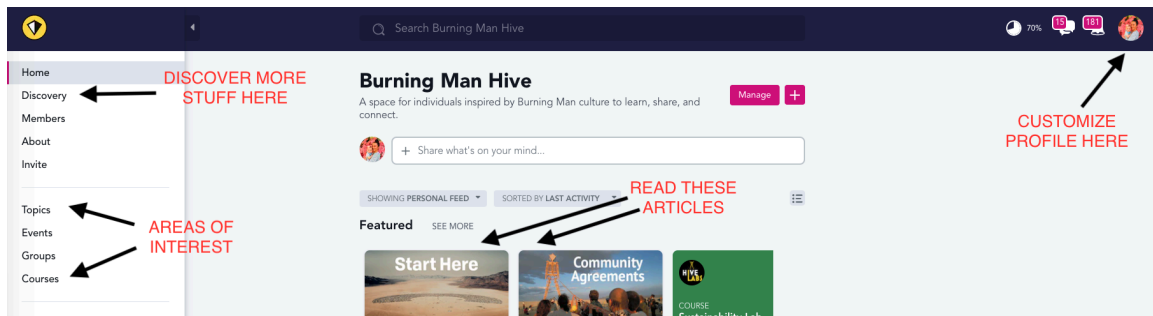

1. Head on over to the Burning Man Hive [landing page](#); and click on either the pink “Sign In” button, or on “Sign In” in the upper right corner.

2. This will take you to the log-in page where you will use your Burner Profile [username](#) and password to sign into Burning Man Hive. If you don't have a Burner Profile yet, you can set one up [right here](#).
3. Once you're in Hive, make sure to customize your profile by clicking on your profile icon in the upper right corner!

Please note: the only part of your Hive profile that you cannot customize within Hive is your name; this information comes from your Burner Profile (BP). If you have information entered into the “Playa Name” field of the BP this will appear as your First Name in Hive, and you will have a dot in your Last Name field. If your BP “Playa Name” field is empty, your Legal First and Last names as entered in the BP will appear in Hive.

4. To begin exploring Hive, we recommend starting with two articles in the Featured section, “Welcome to Burning Man Hive” and “Our Community Agreements”.

These can also be found in the Discovery section of the main menu on the left hand side; this section aggregates information from all over the network. Be sure to watch the “How To” video in the welcome article!

From the same menu, you can navigate into different areas of interest - Topics, Events, Groups, Courses - to start checking out other articles, happenings, and learning opportunities that are calling to you...with more new things popping up all the time!

5. If you have any questions, reach out to hivesupport@burningman.org.
