

Dear [Supervisor's Name],

I'm excited to be starting my career with your practice and am committed to growing into a confident, capable, and valuable member of the team. To support that growth, I'd like to request enrollment in the Ready, Vet, Go Mentorship Program.

This seven-month program is designed to complement in-clinic support by helping early-career veterinarians strengthen essential skills like communication, clinical reasoning, and time management. It includes 12 hours of RACE-approved CE and offers access to an experienced mentorship team and a supportive peer community.

Benefits to the practice include:

- Improved efficiency and case management skills
- Increased engagement and retention
- Minimal time investment from the clinic (about 75 minutes/month)

I'm confident this program will help me grow faster and contribute more meaningfully to our team and clients. I'm happy to enroll directly and submit for CE reimbursement if that works best—or I can provide a link if you'd prefer to handle registration.

You can learn more about the program at: www.readyvetgo.co

Thank you for considering this opportunity.

Sincerely,
[Your Name]
