

Logging In to Your Chromebook

Jane Ball & Lincoln Students

1. Turn on Chromebook.
2. Hold the Clever badge up to the camera.
3. Wait for the successful login tone.
4. Chromebook will now follow pre-programmed steps to land on the student Clever page, automatically.
 - a. If the student does not have a Clever badge, click on "Enter Google Account info".
 - b. Use Google credentials to type in username*, click next.
 - c. Use Google credentials to type in password*, click next.

Red Cedars, Middle School, & High School Students

1. Turn on Chromebook.
2. Use Google credentials to type in username*, click next.
3. Use Google credentials to type in password* click next.

*Usernames follow the pattern **first initial + last initial + student ID number**. For example, student John Doe's username would be: **jd12345**. To look up your child's Google credentials, log in to your PowerSchool parent account. Your child's Chromebook username and password will be listed on the home page.

Chromebook Navigation Issues

If your child has difficulty navigating to a specific page for class (e.g., Schoology, **PowerSchool**, etc.), make sure they are using the correct URL. The district-specific URLs for common sites are listed below:

- Clever: <https://clever.com/in/hcsc>
- Schoology: <https://lms.hanover.k12.in.us>

- PowerSchool: <https://hcsc.powerschool.com>

If these steps do not work, contact the Hanover Tech Department at gs@hanover.k12.in.us for further assistance.
