Present

- * Joyee Cheung @joyeecheung (voting member)
- * Darshan Sen @RaisinTen (voting member)
- * Matteo Collina @mcollina (voting member)
- * Robert Nagy @ronag (voting member)
- * Ruy Adorno @ruyadorno (voting member)
- * Yagiz Nizipli @anonrig (voting member)
- * Gireesh Punathil @gireeshpunathil (voting member)
- * Benjamin Gruenbaum @benjamingr (voting member)
- * Chengzhong Wu @legendecas (voting member)
- * Moshe Atlow @MoLow (voting member)

- * Antoine du Hamel @aduh95 (voting member)
- * Anatoli Papirovski @apapirovski (voting member)
- * Ruben Bridgewater @BridgeAR (voting member)
- * Colin Ihrig @cjihrig (voting member)
- * Danielle Adams @danielleadams (voting member)
- * Geoffrey Booth @GeoffreyBooth (voting member)
- * James Snell @jasnell (voting member)
- * Michael Dawson @mhdawson (voting member)
- * Rafael Gonzaga @RafaelGSS (voting member)
- * Richard Lau @richardlau (voting member)
- * Michaël Zasso @targos (voting member)
- * Tobias Nießen @tniessen (voting member)
- * Rich Trott @Trott (voting member)
- * Beth Griggs @BethGriggs (regular member)
- * Ben Noordhuis @bnoordhuis (regular member)
- * Сковорода Никита Андреевич @ChALkeR (regular member)
- * Shelley Vohr @codebytere (regular member)
- * Daniel Bevenius @danbev (regular member)
- * Franziska Hinkelmann @fhinkel (regular member)

- * Gabriel Schulhof @gabrielschulhof (regular member)
- * Brian White @mscdex (regular member)
- * Myles Borins @MylesBorins (regular member)
- * Rod Vagg @rvagg (regular member)
- * Tiancheng "Timothy" Gu @TimothyGu (regular member)

Agenda

Announcements

- Node v20.6.0 is out <https://nodejs.org/en/blog/release/v20.6.0>.
- The next version of Undici will include HTTP2 support, which would bring automatic HTTP/HTTP2 selection of for fetch() in Node.js

CPC and Board Meeting Updates

*Extracted from ****tsc-agenda**** labeled issues and pull requests from the ****nodejs org**** prior to the meeting.

- Travel Fund revamp
(<https://github.com/openjs-foundation/cross-project-council/issues/1147>)

nodejs/TSC

- * Additions to `import.meta` [#1430](<https://github.com/nodejs/TSC/issues/1430>)
 - Benjamin summarize the issue
 - Matteo signal the concern that this would break our automation (semver-minor labels do not require TSC approval)
 - Geoffrey recommends we add a need-tsc-approval label

nodejs/admin

- * Nominations for OpenJS CPC voting members
[#819](<https://github.com/nodejs/admin/issues/819>)
 - done

nodejs/undici

- * expose websocket in node bundle [#2217](<https://github.com/nodejs/undici/pull/2217>)
 - Darshan, another client/server implementation of WebSocket
<https://github.com/nodejs/node/pull/49478>

- Joyee we already have a server implementation of WebSocket implemented in C++ for the inspector
- Yagiz is working on another C++ parser.
- Geoffrey We have the possibility to ship a WebSocket implementation as a global in v21 and ask for objections. The TSC agrees.
- Matteo we ship the one in undici and we potentially investigate a C++ replacement for the underlining parser later on, similar to what we did for URL parsing.

nodejs/uvwasi

* Next release [#228](<https://github.com/nodejs/uvwasi/issues/228>)

- Matteo: why does the TSC needs to approve it?

Strategic Initiatives

Upcoming Meetings

* **Node.js Project Calendar**: <<https://nodejs.org/calendar>>
