Keiko Matsumori

VA and Character Notes:

Japanese accent and fluency.

There's a lot more English dialogue than Japanese so be prepared for Japanese speakers.

Keiko is your stereotypical warrior dedicated to the blade and looking for strong opponents to fight with. She sees Flayne, the main character, as her rival. She is confident in her abilities and talks as such. She appears in the main story.

She has some cute/ blush moments outside of the main story.

Delivered like a Dark Souls boss fight about to begin. Dramatic. Theatrical. Composed.

“「お覚悟フレインさん」For you face Keiko of the esteemed Matsumori clan.”

Loud. Excited for a fight.

“Draw your blade! Come at me with the intent to kill! It’s the only way you’ll stand a chance!”
