

More About This Rescue

Thank you for your wish to rescue, save, adopt and give a forever home to one of our very deserving puppies or dogs! Once we receive your application you will be able to talk with the foster home to find out all about them!

We are an all volunteer run organization. We do not have a physical shelter as we are strictly a dog rescue organization.

The dogs SDAC coordinates adoptions for have come from southern shelters and, regardless of what state the dogs are posted in, they ARE FOSTERED IN THEIR SOUTHERN FOSTER HOMES UNTIL ADOPTED, IF we are lucky enough to have a northern foster home, then it will say "In New England" after the dog's name.

Most of our lucky dogs and lucky puppies are adopted by families living in the northeast! All of our dogs arrive with a current Health Certificate, are up to date with vaccinations and are transported on a U.S.D.A. approved transport.

These dogs and puppies all deserve a home who will treat them as family members, who will give them a warm and loving **INSIDE** home, a soft bed to sleep on, plenty of food, toys to play with, family members to take them for walks and rides and, finally, give them the chance to enjoy the rest of their life.

YOU are their hope, they need YOU to adopt them to complete their lives.
