

The Chinese Year of the Istanbullocks.

Welcome to Talking Istanbullocks the melting pot of highbrow and lowbrow humour and shenanigans for the young at heart from the heart of Istanbul, with me, Jorma Kirkko, and him, Ray Mac and seriously, Shakers, hand on heart, I arrived, actually, a few minutes in the bar. After Jimmy and Shakers, I caught him wildly, uncontrollably, frantically, applying Canestan and trabacort, a double mix of cream to his buttcheeks to treat an early summer yeast infection.

Actually, he happened to pick up recently and wait for it. The fecker he's drinking right now. He's drinking imported Ribena shakers. It doesn't get better than fecking that doesn't really, does it? And whether that's true or not, it's another issue. We are live, loud and proud, bringing you this episode straight from the local juicer.

Of juicers, James Joyce, Irish pub, Istanbul, exactly. And today's show is brought to you with the support of De-worming world magazine. The magazine that discusses all the latest techniques and trends in banishing parasites from your pets, colons and anuses. This week's show is fuller than a plumber's crack on a Monday morning.

And if you like what you've heard so far, why not subscribe on your podcast app. And download some of our past episodes and share them with friends. Where do you come up with these magazine names? Deworming World Magazine. Shakers, seriously, we've got a packed show for you today. Kiss and Tell is back with a vengeance with a bedroom tale of a man who likes a touch.

of Lord of the Rings in the bedroom Kaiden Stokes, the really woke bloke who's on a mission at the British Library folks but first let's kick off with Morgan Freedman reading an original poem about the real life effects For climate change. Yes, exactly. And if that's not something that'll make you use, uh, Canestan, what will be?

All right, let's go. Hi Shakers. I hope you're enjoying your summer. David from Kildare in Ireland wrote to me asking for a poem about climate change. He said that although it's nice to have a real summer, there's a lot to worry about with unpredictable weather systems, and it got me thinking. I spend my year between the U.

S. and the U. K. But in the summer months, since I was made the voice of Turkish Airlines, I like to spend as much of the summer months as possible in Turkey, where I first met Ray and Jorma. I agree with David that this is worrying, and we've felt it more in Turkey this year than many. Remember, folks, if you'd like a poem written and read by me on any topic, just drop us a line at TalkingToStanBullocks at gmail.

com. Here is Climate Change, by Morgan Freeman. The land of the Ottomans, where summers gleam. The skies are grey, no warm weather to be seen. A few nice days, and then the rain pours down. It's mid May, but it's still so cold in this town. Bought a summer place. I didn't take it lightly. Every time I'd been here, the sun shone brightly.

But friends in Blighty tell me it's way too hot. Friends in Ireland are enjoying the sun a lot. This time of year is usually what I like best. No tourists here yet getting in your way. What pests. But our freckled faced friends won't have the last chuckle. If they rub it in. I'll give them some bare knuckles.

I'm a brown skinned man of means. I deserve the sun. So pasty Brits and Patties can stick it up their bums. And if I get no joy this year with Turkish weather, I'll hop in my private jet and go somewhere better. And post on Facebook that I'm on the best vacation. When you've got my wealth, you can ignore regulations.

So British weather is hot, and it's quite strange. I never thought I'd fall foul of climate change. I'm a modest man. I don't ask too much of life. Just to have weather better than they have in Fife. I'm not spiteful. I won't tell them to F off. I just wish them rain and to eat baked beans from a trough.

R. Morgan. Giving it some Jimmy on the climate change. Yes. I'm not well impressed actually with most of it. Yeah, absolutely. Back to his spiteful best. He hasn't really turned on anyone for quite a long time. I actually made a note of that word. What a coincidence. Spiteful. In the least, pal. Jimmy, Big up to David from Kiddle, Ireland.

David, how the hell are you, man? Hope you're in tip top and in good form. Uh, Jimmy, I loved actually, uh, how he defined Istanbul's weather Agreed. Yes, absolutely. Absolutely. Do you know that used to remind me a little bit of, uh, of my Nana, you know, uh, she, she once asked me what I thought of global warming and I didn't really know what to, what to say to her, you know, this little old lady and, uh, I said, well, you know, I spoke in platitudes.

I said, well, it's not really a very good thing. Is it? She said, I don't know. She said, uh, I think it's okay. And I'm thinking, what on earth are you thinking? She said, well, the thing is, I don't know. With this global warming, everything's, you know, it's getting really hot, it's hotter than Spain, and soon the Spanish will be coming over here for the holidays instead of the other way around.

Do you not think that the word global means that it's getting hotter there as well? And she, she hadn't thought of that one, actually, um, it's getting hotter everywhere except Istanbul.

But good old modest bloke, our Morgan, just wants the weather that's better than five. Yes, exactly. Well, five. Yeah. Well, I think there's, there's, I don't know about you, Ray, but.

There is sometimes with me, I do like to check when I'm on holiday, what the weather is like at home. And, um, I, I do check it probably most days. And if wherever I am, we've got slightly better weather. I do chuckle a little bit to myself. I don't know about you. We're blessed. I mean, I think we're double blessed, uh, in, in, uh, Turkey in general.

I mean, I love the Mediterranean weather. I can't. Hack can't stand the Irish weather. It's depressing, Jimmy. Mm. Depressing as Beck. Yeah. It, it is, it is in many ways, and you know, we, we tend to have lovely summers here, don't we? But you say Mediterranean weather, but if you compare the weather to coastal Spain, it's not as good here.

Mm-Hmm. and some is a lot shorter. You know, and I compare it with my dad, you know, he'll be going out in the sea in, in April in Spain. And I've been in the sea once this year and I'm not going in again till at least mid June. I know that's an unusual year, but you know, and he's still, it's still summer there in November, whereas we're in a kind of much more Northern, I think it's because of where we're positioned at the, uh, the bottom of the Balkans, isn't it?

But it's a lovely summer, but it's not as long as a lot of other Mediterranean places. Of course it is. But Jimmy, as we're living here a long time, you know, fact and all, June, July, August, September is absolutely gorgeous. I think four of the finest, best, blessed with heat. Yeah, it is. June, July, September, I would say.

Because August can get a bit unpleasant because it gets humid as well. September and May is Yeah, May can be a lovely month. Unfortunately, it's not happened this time, has it? But, uh Global warming, my friend. Yeah, absolutely. Absolutely. Anyway, if you would like a poem written and read for you, just send in your poetry request at [talkingistanbullocks at gmail.com](mailto:talkingistanbullocks@gmail.com)

And we'll pass on to Morgan. Bernard I got your email today, thank you very much, and, uh, yours is up next week. Okay. Should we go and do True or False, Ray? Yeah, it would be a shame not to.

Uh, okay. Jimmy, uh, once Mozart had to write for a singer he disliked, who moved her head up and down. with the notes when she sang. Right. So he gave her a melody line with a bunch of quickly altering high and low notes so she could bob her head like a chicken. Yeah. True or false? Um, I've no idea if it's true or false.

I am the kind of person though, I would find that deeply annoying watching the head going up and down, but then I'd start to find it funny and I would do that on purpose. Um, just to amuse myself. Um, So, I'm gonna assume that, uh, that Mozart is probably quite like me in that regard. Let's go for true. Jimmy, I don't care if it's true or not.

That was just optical. I haven't, I haven't a fucking clue. But I do know one thing, Jimmy, for a fact. Probably was. I know, Wolfgang Amadeus Mozart was a lucky genius. Mm hmm. Yes, he was. Imagine, Jimmy, if he had to write for Cardi B or Nicki Minaj. How could you imagine? I can't really, uh, imagine Mozart writing a rap about somebody's fanny.

Jimmy. Jimmy. As a great Irish poultry farmer once quoted, Mozart once flew into a rage and killed all his chickens because all they ever talked about was bawk bawk bawk bawk bawk bawk bawk bawk. Exactly. Exactly. Shakers! Considered one of the greatest composers of all time, but you already knew that, Shakers, didn't you?

Wrote his first composition at just four years old. Just say that word again Ray, it was great. He wrote his first composition at just four years old. True musical prodigy, Jimmy. Skilled at the uh, clavier. The clavier, a stringed keyboard. Clavier. If I'm correct. Yeah, but I like to say clavier. It's the German word for piano.

Piano. Piano. Wow, can you tell me that again? Actually clavier. Oh, wow. And the violin by the age of five performed his first composition before European royalty and toured a lot, Jimmy, as a child musician. Now, the extensive travel shakers cost him severe illnesses, leaving Mozart sickly for the duration of his life.

Mm hmm. Jimmy. He didn't live very long, did he, I don't think. No, I think it was the thirties, it could have been. Yeah, I think, I've got it in my head he was about thirty four or something like that. Jimmy, you're gonna love this. Shakers, you will laugh your arse off. Mozart had a certain fondness for scatological humour.

That is to say, Mozart thought toilet jokes were outrageously funny. Get a load of that. Yeah, he would've, he would've done, right? Um He absolutely would have done, because the, the arse is, and all the things connected to it. Virtually every swear word in German is connected to bottoms. And, um, they even have these, I know he was from Austria, but he was a German speaker, and it's right on the border, anyway, where he was from, Salzburg.

But, the Germans are obsessed with arses. Um, if you You've never been to Germany yet, Ray, but one thing that you'll find, the toilets, they have these kind of platform toilets, so it's exactly positioned so that if you're sitting on the toilet, that you pee will go down the hole, as you would expect, but your, uh, your stoolage, your foulage, will sit on this platform, so that you can actually look at it to see if it's healthy before you flush it down.

Do you think when he was on the, um, bog? In the toilets. That's where he composed, uh, the most popular work, The Magic Lute. I wonder if that's what he was referring to, or The Magic Chute anyway. I was, uh, listening to something the other week, Ray, about, uh, Martin Luther, you know, the, uh, the German monk who invented Protestantism, and he was absolutely, he had a scatological obsession.

Um, you know, he had, uh, he was obsessed with his guts, but he would, uh, constantly curse people and, and threaten to throw shit at them and shit on them and things like this. Um, he frequently used to say that he was going to shit on the devil. It's in the Germanic mindset. It's all bottoms, right? Bottoms up.

All bottoms. Bottoms up. If. If. Mark Johnson or Robert or Jonathan could see you drinking Ribena right now. I had to wash my hands though with that canister. His family actually, uh, not our friend's family, uh, Mozart's family also shared, uh, the same sense of crude jokes and it seemed, uh, they also had the same shitty sense of humor.

Mozart, Jimmy was buried in a common grave. Only the aristocracy was buried in marked graves in those days. So to this day, it is not known where Mozart was buried, Jimmy.

You're a big classical music fan, right? I love classical music. My wife does. And that's, uh, I have no choice but to listen to it when it's on, especially on a Sunday during breakfast. Yeah, I like it. Pardon? I like it a lot. I feel very, uh, soothing. Yes. Yeah, I was just wondering, really. I was thinking that, uh, just how you pronounced his name.

I was wondering if, uh, if you were a fan or not. Yeah. Anyway, where are we? Yeah, okay. Um, right, okay, well, talking about, uh, Mozart and, uh, and his scatological obsessions, let's go from one, uh, asshole to another. It's Kaiden Stokes, everybody. Kaiden Stokes, Kaiden Stokes, Kaiden Stokes is a really woke bloke.

Early in the morning, as the day was dawning, Kaiden is a really weird man. Hi listeners, my name is Kaiden Stokes. It's awesome to be here. I'm deeply passionate about challenging systemic injustices and amplifying marginalized voices. Welcome to my world.

Hello, welcome to the British Library. I'm looking for a list of children's books for a research project for my PhD. Oh, that sounds intriguing. Well, would you possibly be able to find the following books? Thomas the Tank Engine, by Wilbert Audry, The Little Prince, by that French dude, The Merry Adventures of Robin Hood, by Howard Pyle, and The Very Hungry Caterpillar, by Eric Carle.

No problem. We have them all. They're all alphabetized, so you should easily find them. I'm sorry. Would you be able to find them for me? Uh, okay, I'll get them. I urgently, desperately need the bathroom. Okay then. I'll be back in a few minutes. I've gotta go. Thanks for that information. Twelve and a half minutes later.

Oh. You're back. I thought you'd fallen in. Okay, did you get them for me? Yes. Thanks. What's your thesis about, if you don't mind me asking? I'm writing a thesis on how everything was unethical and shit in the past through the medium of children's literature. So what have we got here? Thomas the Tank Engine?

Glorification of rigid hierarchies. Promoting unsustainable and exploitative economic systems. That's some seriously fucked up shit. Ah, possibly. But you know, the stories also emphasize teamwork and friendship, regardless of Hmm, interesting. I'm keen to see how Howard Pyle represents the African American played by Morgan Freeman in the novel, because I see him as being every bit as important as the eponymous angry white male, Robin Hood.

I think you'll find that particular character was created for Robin Hood, Prince of Thieves. In fact, many people have criticized Warner Bros. for what some call the noble, savage, racist concept, where the uncivilized tribesmen show their innate goodness in humanity through loyalty to the white savior.

OMG, you're like so right! Awesome! But I tell you what I do want to know. Why did they have to make that sheriff dude a cis male? Answer me that! It's nothing but a boys club. It's like, so wrong. What about Maid Marian? One of the first strong female role models in English literature. Tokenism. Nothing but sheer tokenism.

What's to suggest she wasn't a trans woman, huh? Ever thought of that? I think, when you look at literature, you need to look at the historical context of the day. You can't write a book projecting how people will think several centuries later or drugs that may be there to change the levels of testosterone.

Nonsense! This vile shit needs to be cancelled. It's abject repression of minorities and just spreads ignorance. It could be argued that it's the opposite, that literature documents the social changes in human evolution misogynistic ignorance. These fucking books should be burned in, like, a fire. I'm afraid you won't be allowed to take any books out if you intend to burn them.

I'm gonna do just that. I'm gonna write this paper and then tell everyone on Twitter to reject this vile pulp fiction. So, The Little Prince. The portrayal of different planets and their

inhabitants as simplistic, reflecting the colonial mindset of the time. The Little Prince explores universal themes of love.

The Little Prince. Loss. And the search for meaning. Yeah. Yeah. Emphasizing the importance of seeing with the heart and valuing the intangible. That's just offensive. It's a good book. It's very fucking Daily Mail. The Very Hungry Caterpillar? Excessive eating normalizes gluttony and unsustainable consumption patterns.

Making white privileged middle class morons like you, body shame the obese community. It's disgusting. You know, you're just another slave to the patriarchy. You're like soooooo, full of shit. I'm gonna video this, and put it on Twitter and show the world that sexism, climate change denial, racism, and colonialism are still celebrated in this library I'm gonna tweet about it right now.

Please don't use your phone in here, sir. There are rules in here. No, you forced me to react this way. I didn't wanna be forced to do this to you, lady, but you need to be exposed. I'm going to get my phone out right now, sir. Do I have to shoot your muck with CH Vision? Best girls on the neck. Oh shit. I forgot to turn it off, sir.

I'm going to have to ask you to leave. Okay? You are disturbing the utter patrons and violating library rules. Yeah. Come on out. I'm sorry mom out now

No Again, hand on heart. I Personally thought the fit Librarian handled him gorgeously. Well, she sounded jimmy like a fit Librarian, do you think so? She definitely believed in her shelf Yeah Yeah, I think so. I think so. Can I just say good skills, Joan O'Ruairc you are absolutely brilliant. Yeah, she did a superb job with that.

Absolutely superb. I said she can do any voice, any accent that you want. And she really, really nailed it as a stuffy, a stuffy librarian. But she kind of put him in his place, didn't she? Yeah, but Jimmy, Jimmy, wait. Shh, shh. This being a family show and all, but the best, best, the bestest part, Jimmy, was when Kaiden needed to use the washroom, the bathroom, the feckin toilets, taking all of twelve and something minutes.

Twelve and a half minutes. Yeah, to knock one out, Jimmy, or for a better Talking Istanbulocks word, beef stroking off. Yes. Jimmy went to Chug Vision, the hottest chicks on Netflix, to DIRT, a DIRT BAG! Oh, he deserved that, Kaiden, didn't he? He Shoot your muck with Chug Vision! That's the word I was waiting for!

Shoot the muck! Oh, you bollocks. I slightly borrowed that jingle from, um, Chug Vision. Still game, um, live special at the Hydro in Glasgow. It was just so funny. A guy, Bobby the

barman, um, was, was boasting about his new iPad. And the first thing somebody says to him is, uh, And you get porn on it, and it suddenly goes all coy and he says, well, I wouldn't know, and he says, ha ha ha, how would I know about this kind of thing?

And the minute he goes to the toilet, one of them, one of the old guys, the grandson's got one of these, so he goes into his search history, presses this button, and it just comes out with, shoot your muck with Jugvision. Best girls on the net. So I thought I'd borrow it. Um, but yeah, yeah. Oh, Kaiden picking on all those lovely books.

Ridiculous, isn't it? Yes. And shakers now for something a little steamier. It's time for Kiss and Tell this week. We've got a huge story from a female listener who thought she found the perfect man. Until she got into the bedroom. Yes. Okay, let me get this out. I've got the Just let me open up the email here.

Uh, here we go!

Are you taking the piss? Kiss and Tell. That's right, we want you to spill the deet, pal, on your first date escapades. And we decide if it's in his kiss or just taking the piss. Ever had a date that left you wondering? Share it with us, we'll read it out on air, and let's dive into the drama. So send an email to TalkingIstanbullocks at gmail.

com. And let's kiss and tell, because every great story starts with a kiss. Are you taking the piss? And this is from Karen in Nuneaton. So thanks for the letter, Karen. Dear Jorma and Ray, I hope this message finds you well. I love the show. Uh, I'm writing to ask a bit of advice. I met a guy online and we hit it off immediately.

He lives 50 miles or so away from me, so we've only met face to face a few times, but last weekend, we decided to have our first romantic weekend away together. I really like this guy, he seemed perfect in every way, considerate on the phone and when we've met he always opens doors for me and is genuinely funny.

Everything was going wonderfully on our first weekend away and we went for a nice meal and then decided to go to the hotel to make love for the first time. We were getting intimate and as things heated up I excused myself. to the bathroom to, uh, to freshen up. Out of nowhere, he blocked my way, and in a deep Gandalf voice from Lord of the Rings said, YOU SHALL NOT PASS!

I I was taken aback, and I thought it was a bit Weird. I laughed it off and we continued kissing and cuddling after I'd been to the bathroom and, and all was lovely. Things heated up

a little and it felt, uh, it felt right until he started to get to the, what she calls the, the vinegar strokes. Not sure if I know what those are.

Uh, I think I can maybe imagine. Uh, suddenly he switched to a creepy voice impression of the Emperor from Star Wars saying, You won't. This, don't you? I tried to stay focused and block it out, but it didn't end there. Just as I was reaching climax and he was about to ejaculate, he shouted in the voice of Ian McShane's character from Deadwood, Welcome to Deadwood!

While I appreciate his playful side, these impressions during such intimate moments were jarring, and quite frankly, a bit too much for me to handle. I really like him, but I can't shake off how bizarre and out of place this is. Those impressions were. I'm curious to hear your thoughts on this, guys. We've arranged to meet up again next month, but I'm not sure if I can go through this again.

Is it in his case, or is he taking the piss? Sincerely, Karen in Nuneaton. What do we think, Ray? Well, he started off great. He lasted about a week, didn't he, before he got into the, uh, into the, uh, Furious Jumping? Yeah, well, she doesn't say, actually. I mean, I guess them living quite a distance away from each other.

But there's great love, though, for the impressions of characters and films, uh, while partaking in Furious Jumping. That all came where he threw out all the muck near the end, wasn't it? Yes, yes. I mean, I'm just wondering, to an extent, if, you know, if he has to do all those kind of film impressions, if he wouldn't be better, you know, watching Chugvision or something.

Because, I don't know, how would your wife react, Ray, if you were to, uh, suddenly surprise her with one of those impressions? You keep my wife out of this good laugh. None of your fucking business. I can tell you she does not like it at all.

No, but I think I think most women would probably find that a bit weird don't you He's a funny guy Uh, he's definitely taking a piss. Hehehehehehehehehe Isn't he? Well I think he is, I think he is. But I mean, you know it sounds like he's a nice guy most of the time. But I mean, I just wonder if he gets over excited and has to do these voices and things.

He's up for a good laugh. He's a good character I think. Just a little bit. I think it's all down to the characters, the impressions, pal. Yeah, yeah, yeah, well, she might just have got the wrong impression of him, actually. Uh, so what should she do, really? Do you reckon she should talk to him about it, or, um?

Well, meet up again. Go with the flow. Yeah? Yeah, in my opinion. He's not the worst. Oh, he's not the worst, is he? But, uh, I just, yeah. Yeah, I, I think that, I, I think that. You reckon he could do an Arnie on it? I'll be back. Laughter Well to be honest I thought the Deadwood thing was pretty bad because, you know, just after he'd finished he referred to Deadwood.

Which he probably was. Um, I think she's got to talk to him about this one. But I mean, you know, is it worth the dumping? Or, or is it just worth a bit of a conversation, just saying, look, it intimidates me a little bit. Two different ways of dumping. Turns me off a little bit. Yeah, exactly. Okay. So what are we doing?

Dump or, uh, have a conversation with Ray? Ah, no, have a conversation. Yeah. Okay. I, Karen, I will go with Ray's wisdom on this one. Um, Yeah, why not? Maybe you could get him to do some impressions of somebody that you actually like. Uh, quite boy y, nerdy sort of films that he's into. I don't know, maybe you could do something that's more, uh, more your style?

Yeah, so, um, thanks for that, Karen, um, looks like the, uh, the gentlemen's won a bit of reprieve. Um, if you have an awkward date, it doesn't need to be a first date story, it could just be, it's usually about new relationships, but if you have an awkward date story, why not send in your story to us at the same address as the Morgan Freeman poems, uh, email talkingistanbullocks at gmail.

com and tell us what you think. Your story and Ray and I will decide whether it's in his kiss or he's taking the piss. Before we continue, Jimmy, was chatting earlier to Darren Hasty, a big avid listener, Jimmy, to our weekly podcast. Tip top look from, uh, Ballina cheers, Darren. We hope, uh, we'll meet up one of these fine days.

Was he the one who sent the joke in last week? Yeah, it was. Yeah, yeah, it was. It was, indeed. And, uh, Hasty. Uh, I think that's a Scottish name, Jimmy. Definitely has to be. Yeah, it sounds like it. Tattle rustlers, Jimmy. Like your man, Rob Roy. From the Scottish borders, I think. Right. Feckin red headed heathens, Jimmy.

Border reaver. Darren Hasty listens every week. Never misses the show good skills. Good skills. Thank you so much Darren

Black milkshake best posts of the week

Post of the week props to Johnny Campbell, uh in Apple Cross, Wester Ross, Scotland Hi johnny Stunning small little village, Jimmy, one of Scotland's most scenic driving routes,

which I'm led to believe. I'm not too sure. I heard that somewhere. Oh, it is a beautiful place to drive in, in general. Okay, I'll tell you a wee story, Shakers.

A boy with his dad in a drugstore, pharmacy, one day. He points to a box and goes, Dad, what are those there? He said, Son, those are condoms. Rubber Johnnies. Son says, Dad, what are condoms for? He said, They are to practice safe sex, Son. So the little boy is well fascinated now and is standing there and picks up another box and goes, Dad, how come there are three of them in here?

He said, Son, they are for high school boys. One for Friday, one for Saturday, one for Sunday. So the little boy goes, ah, okay. But he's still fascinated, Jimmy. Stand in there, and he picks up another box, and he goes, Dad, how come there are six of them in here now? He says, son, they are for college boys. Two for Friday, two for Saturday, two for Sunday.

He picks up a big box, and goes, Dad, How come there are 12 of them in here? His father, at this stage, evidently perturbed Jimmy. Got emotional as tears rolled down his eyes. He said, son, they are for married people. One for January, one for February, one for March.

Good skills, Johnny Campbell. Likey, likey, old but gold. Oh, good skills. Yeah, good skills. That's all for another week, Shakers. Don't forget to subscribe, please, on the YouTube page. And leave a comment on some of the videos, please, if you like them. It's the same as Facebook's likes. They don't really help, as you know.

Uh, apologies for not bringing you the interview we promised last week. Uh, the guy was in touch last night. He's got a bit of a full diary at the moment.

That time of the month. Jesus. That time of the month again. Well, you've not had it for a couple of months actually, Ray, you've been quite lucky.

But, um, yeah, he'll be back. Uh, Hansi's gonna be back with his May horoscopes in typical fashion right at the end of the month. Uh, remember this show is This is your show as much as ours. We need you to get involved, whichever way you can. Following the YouTube page, sharing the links to the podcast on your social media, telling your friend.
