

GREETINGS

Hi! I'm Krmailence. Your run-of-the-mill protogen that really has a lot of quirks.

Like, a lot is kind of an understatement, actually.

Regardless, hi! Pleased to meetcha.

Let's get to the bulk of this now, shall we?

I like to make F3X builds on Roblox. If you don't know what F3X is, go and ask google idfk.

MC/Zachary K. (Headcanon+JPOV Default Name)

Lore to Post-Finale MFP3 Zachary

As a result of his injuries, he needed a respirator and an arm brace to help him heal. After it was healed, his brace was given an add-on to allow him to defend himself with melee combat if he needed to.

After his injury healed, he kept the arm brace to prevent it from refracturing, and the brace was modified to allow him to defend himself at his side job at Protogen Inc. that he decided to take up as a way to keep himself and Juno able to afford the occasional repair and pit stop, considering the two were getting rather tight on credits.

Special Details

Zachary also has a wedding ring past MFP3!

ZK-[REDACTED] is Esmire's best investigator in service, known to psychologically wear down his subjects and effectively defuse situations with nothing but his presence. Those who know of him fear him.

Known Details:

Tri-auditory array for full-range omnidirectional profiling
Rarely verbal. Instances where ZK-[REDACTED] ended up being verbal are:

>During the infamous Five-Week Riot

Only one transcript of these instances have been documented.

[Zenith enters the room; [REDACTED] sitting, covering her face with her arms.]

[Zenith pulls out the empty chair from under the table, quietly taking his seat.]

ZK: [REDACTED], you shan't worry. Your friend is safe.

[[REDACTED] didn't respond.]

ZK: So, tell us what happened on CR-4829.

[No response.]

ZK: [REDACTED], you're fine.

ZK: Could I offer you a beverage?

[[REDACTED] shifts slightly, nodding her head.]

ZK: Noted.

[Zenith pulls up a hologram, displaying numerous beverages.]

ZK: We have a bit of a variety nowadays, especially since you last visited.

[[REDACTED] finally lifts her head, expression completely neutral.]

ZK: Look, apologies for our... ..system.

ZK: And apologies for what happened when you left the hospital.

ZK: All you need to know is that we're alone here, and you're safe.

[[REDACTED] points at the soda beverage.]

ZK: Alright.

[Zenith puts his hand to the side of his visor for a brief moment.]

ZK: They're bringing it down.

ZK: Now, [REDACTED]...

ZK: May we converse?

[[REDACTED] sighs.]

[]: I don't know what you want from me, Zenith.

[]: And you say he's okay, but considering how you people here at Esmire treat people that aren't native to you, how can I trust that he IS okay?

[[REDACTED]'s expression shifts to skepticism.]

ZK: He is currently being held at one of our high-quality hospitals.

ZK: You know me, NV. I do not lie.

ZK: Besides, a claim from one of the guards at what I presume to be a space station belonging to your sisters said you went through a lot with [REDACTED].

[]): H- How do you know his name?

ZK: I have my sources.

ZK: Anyways, would you mind telling us about what happened?

[[REDACTED] takes a breath.]

[]): Fine...

[]): Now, I presume you saw the body, right?

ZK: One of our own kind, yes.

[]): He was destroying planets that the council didn't bother to protect. Planets like II-9916.

[]): That's actually where I met [REDACTED].

[]): But, we were chasing him around the cosmos for...

[]): Four years..?

ZK: Hm. Okay...

ZK: We also noticed some rubble near one of the walls of the ruins close to the scene. Is that related to him or not?

[]): It...

[[REDACTED] falls silent.]

ZK: [REDACTED]?

ZK: Is everything okay?

[[REDACTED] buries her face into her arms.]

ZK: I'll give you a minute.

[Zenith gets up, putting his hand to his visor once more.]

ZK: Your beverage will be here in a few minutes.

ZK: Also, [REDACTED] is in stable condition. We'll see if we can get him to visit you.

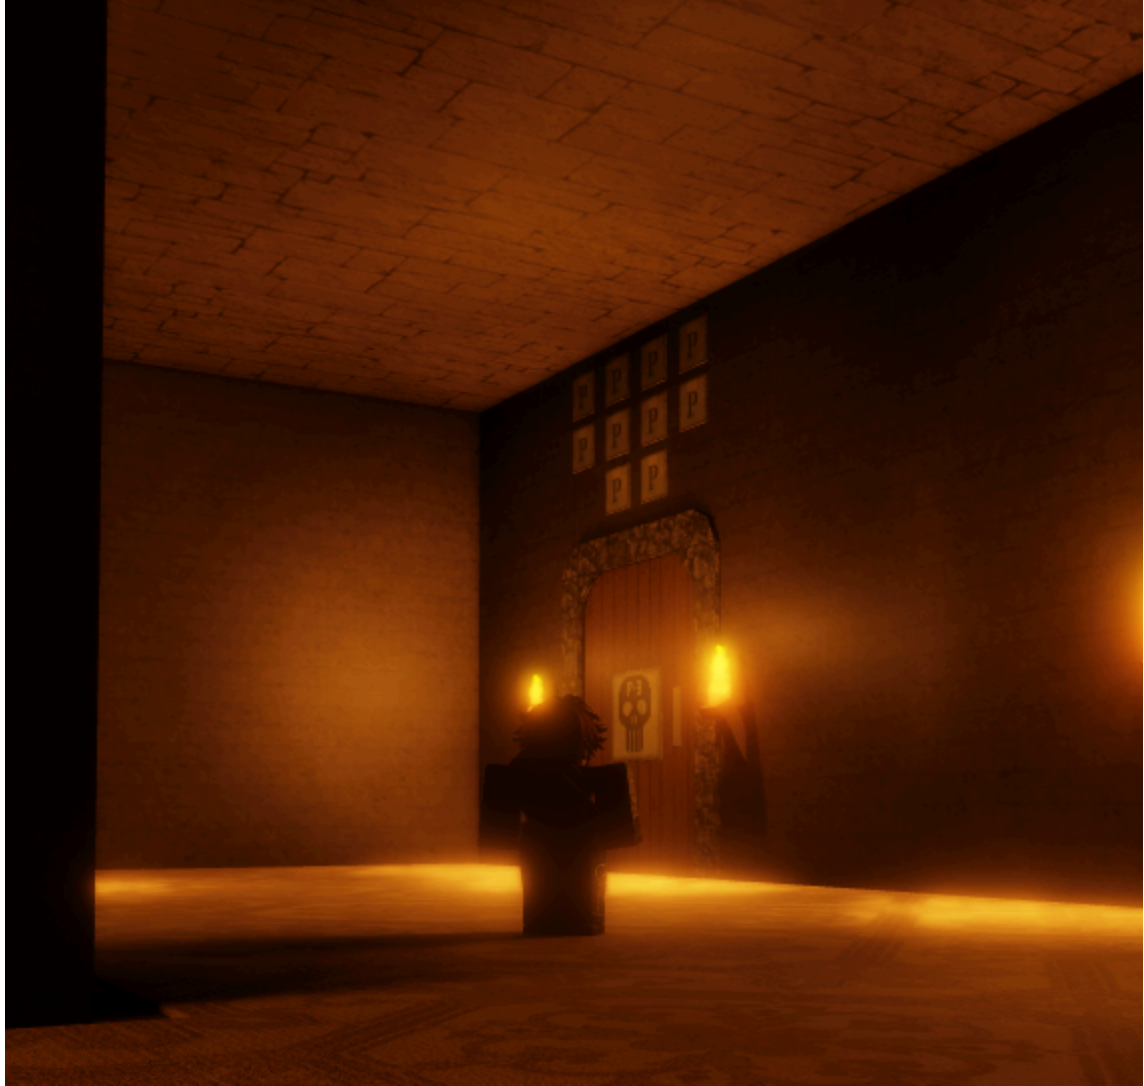

ZK: And, apologies for touching on such a sensitive topic.

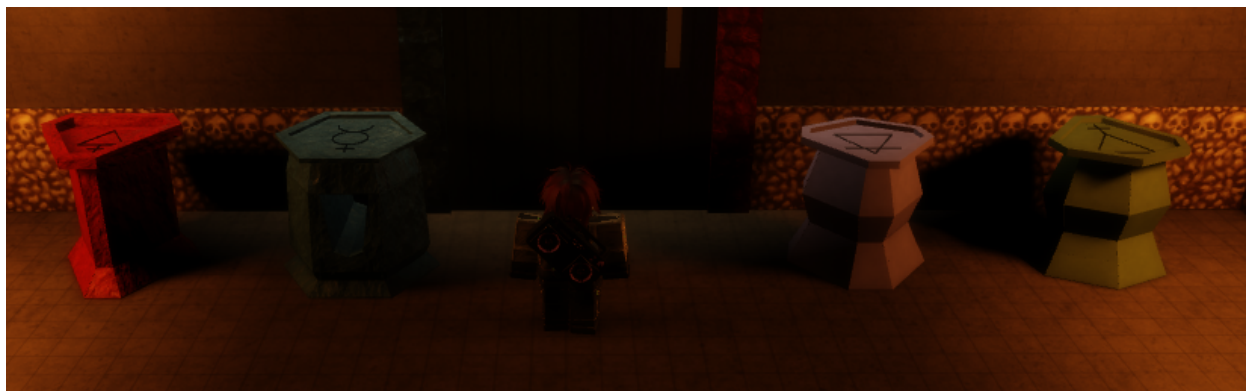

[]): [inaudible]

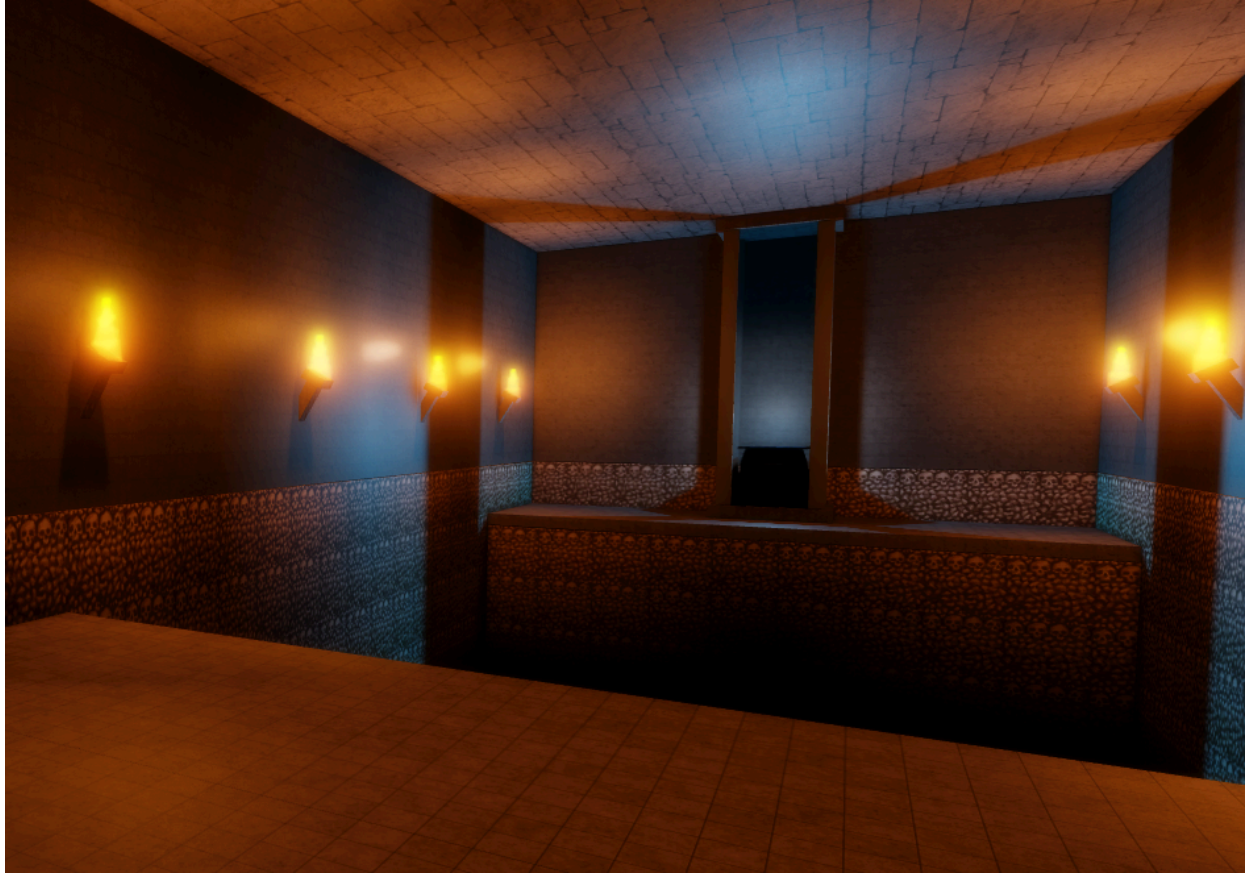

[Zenith departs from the room.]
