Wesley Andrade de Souza Alves

Web Developer | Front End Specialist | Drupal Specialist | HTML5 | CSS3 | Bootstrap | JQuery
| PHP | Javascript | Typescript | NodeJS | AngularJS | ReactJS | VueJS | Wordpress Specialist |
UI/UX Certified

Full-Stack Developer with over than 10 Years of Experience

Experienced full-stack developer with a solid foundation in design, with 17 years, at least, of experience in development and a passion for continuous learning in new technologies and languages.

Technical Expertise:

- Front-End & UI/UX: Extensive experience in design prototyping, UI/UX, and certified skills in design and user experience.
- CMS Specialization: Over 12 years of experience with Drupal and WordPress, with a strong focus on SEO optimization, accessibility, and security best practices.
- JavaScript Frameworks: 8+ years working with JavaScript frameworks, primarily React and Angular, emphasizing functional components for efficiency and performance.
- Clean Code & Design Patterns: Committed to clean code practices and skilled in applying design patterns across projects.

Advanced React Proficiency:

- Skilled in React ecosystem, including Next.js and custom hooks.
- Proficient with state management techniques, using Context API for smaller applications and understanding the strategic use of Redux.
- Experienced with styled-components to streamline development.

API Development & Database Management:

- Extensive experience in relational and non-relational databases.
- Skilled in API creation, consumption, and documentation, with attention to performance and scalability.

Testing & Code Quality:

- Proficient in testing libraries such as Jest, Playwright, and Lint.
- Experience in establishing semantic commit patterns with tools like Husky, Commitizen, and Commitlint.

DevOps & Production Environments:

- Proven track record in handling production environments, including short turnaround times and robust DevOps practices, particularly in Acquia hosting environments.
- Familiarity with Agile methodologies, Docker, CI/CD pipelines, and both Microsoft and UNIX systems.

With a strong emphasis on efficiency, clean code, and high-quality development practices, I am committed to delivering impactful, user-centered applications across various frameworks and environments.
