As you can see, there are no one-size-fits-all templates when it comes to fundraiser shirt ideas. From the tee shirt, colors, patterns, event textures, to how and where you personalize your apparel fundraiser tee, knowing your budget will help you narrow down your options. Having a [marketing budget template](#) will help.

For example, if you're needing to make t shirts for fundraising but are on a tight budget, you can save on the cost by customizing by limiting your artwork to one design and keeping it to a single placement. You'll also save money by limiting the number of colors you use as well. For example, a tee with a single-color logo on just the pocket will be cheaper than a tee using two or more colors and patterns on the front, back, and or sides of the tee.
