LICENSE TO PUBLISH (LTP) AGREEMENT

Journal : Jurnal Sains Materi Indonesia
ISSN : p-ISSN 1411-1098 | e-ISSN 2614-087X
Homepage : https://ejournal.brin.go.id/jsmi
Publisher : BRIN Publishing (Penerbit BRIN)

A. Corresponding Author

- Full name : [Your Name]
- Affiliation : [Your Affiliation]
- ORCID/Scopus iD : [Your ID] :
- Email : [Your Email] | Phone (optional):

B. Co-authors (attach if needed)

- Names : [list of authors, separate with ;]

C. Article Information

- Manuscript title: [Your Manuscript Title]
- Manuscript ID: [Leave blank if there is none]
- Funding (funder name & grant no. – if Any):

D. Open-Access License for the Final Published Article

By default, the final published article (Version of Record, "VoR") is licensed under CC BY-SA 4.0, which permits commercial sharing and reuse with attribution and requiring adaptations to use the same license. Any other license may be applied only by prior written agreement with the journal.

E. License to Publish

I/We authorize BRIN Publishing to publish in the journal the VoR and to reproduce, distribute, publicly display, communicate, translate, index, preserve, and otherwise make the VoR available in all media and formats, worldwide, for the duration necessary to ensure permanent scholarly access, including use of trusted third-party services for indexing, discovery, DOI registration, and preservation. I/We shall **not** publish, nor authorize publication of, the same or a substantially similar article in any other scholarly journal.

F. Author Retained Rights

Authors retain copyright and may:
- make personal copies; share with colleagues for research; present at conferences and distribute to attendees;
- use in future works (books, lectures, compilations), theses/dissertations; internal company training;
- create derivatives with full citation of the VoR; retain all patent/trademark rights;
- self-archive preprints and the author accepted manuscript (AAM) per Section 6 (Page 2).

Terms and Conditions

1. Definitions

Work = the article identified on Page 1 (including figures, tables, supplement). Version of Record (VoR) = publisher-branded final version. Author Accepted Manuscript (AAM) = post-peer-review, pre-typeset version. COI = personal interests could affect their ability to make fair or unbiased decisions in their job or role in publication.

2. License to Publish

The Author (s) grant journal's publisher a license to publish the VoR and to reproduce, distribute, publicly display, communicate, translate, index, preserve, and otherwise make the VoR available in all media and formats, worldwide, for the duration necessary to ensure permanent scholarly access. Journal may use trusted third-party services (e.g., Crossref, indexers, preservation networks) to exercise these functions.

3. Uniqueness of Journal Publication

The Authors shall not submit, publish, or authorize publication of the same or a substantially similar article in another scholarly journal, in any language or format. This does not prevent use of the Work (in whole or part) in books, encyclopedia entries, monographs, or other long-form works. For the avoidance of doubt, third parties may create and share translations/adaptations as permitted by the VoR's Creative Commons license (e.g., CC BY-SA 4.0); these are not duplicate journal publications, but must not be presented as the VoR and must include attribution with a DOI link to the VoR.

4. Open-Access Public License for the VoR

Upon publication, the VoR is licensed to the public under CC BY-SA 4.0 by default. Journal may apply a different Creative Commons license only by Any alternative Creative Commons license may be applied only by prior written agreement with journal. Public reuse is governed by the license indicated on the VoR.

5. Author Retained Rights

Authors retain: (a) patent/trademark rights; (b) reuse in future scholarly works with VoR citation; (c) conference presentation & distribution to attendees; (d) internal company training; (e) sharing with colleagues for research use; (f) inclusion in theses/dissertations; (g) creation of derivatives with VoR citation; (h) reuse of excerpts/figures with VoR citation; (i) preprint/AAM posting per Section 6.

6. Preprints, Self-Archiving & Online Use

a. Preprints may be posted at any time; upon publication add VoR citation/DOI and link.
b. The AAM may be posted without embargo in personal, institutional, or disciplinary repositories with VoR citation/DOI, a link to the VoR, and a statement of the VoR's license.
c. Authors may choose AAM license consistent with their rights and repository policies. Where the AAM license permits uses beyond those of the VoR, such uses do not extend to the VoR.
d. Posting preprints/AAM does not authorize publication of the Work in another journal.

7. Third-Party Material

Authors will secure permissions for third-party content not covered by statutory exceptions or compatible open licenses, and provide required credit lines. Authors indemnify Journal/BRIN for claims arising from third-party content supplied by Authors.

8. Representations, Warranties, Ethics & AI

The Work is original; not under consideration elsewhere; free of unlawful content/infringement; all co-authors approved submission; funding/COIs disclosed; human/animal ethics approvals (as applicable) obtained; any AI tools are disclosed and used with human oversight. Authors agree not to submit or publish the same or substantially similar article in another journal.

9. Employer/Government Works

Where employer/government ownership applies, the signatory confirms to grant the license in Section 2 and accept these T&Cs.

10. Articles-in-Press / Early Online Availability

Journal may post metadata/abstracts or early online versions prior to issue assignment. Authors may request deferral if early disclosure jeopardizes patentability.

11. Proofs & Editorial Changes

Authors receive proofs for correction of errors. JOURNAL may make formatting/minor editorial changes that do not alter scientific meaning.

12. Corrections, Retractions & Withdrawals

Post-publication changes follow COPE-aligned policies (corrections, expressions of concern, retractions) when warranted.

13. Research Data & Code

Authors will provide a data/code availability statement and, where feasible, license data/code to enable verification and reuse consistent with funder, legal, and ethical constraints.

14. Text and Data Mining (TDM)

a. TDM of the VoR/AAM is permitted under the applicable CC license (typically CC BY-SA 4.0), with attribution and links to VoR DOIs. If expressive content from the works is redistributed in a corpus or outputs, ShareAlike applies to those expressive portions
b. Access: respect robots.txt/rate limits; do not circumvent access controls. Bulk access may be provided via Journal Publisher APIs or datasets on request.
c. Intermediate copies: allowed for non-commercial research.
d. Outputs: Sharing—including commercial—is permitted under **CC BY-SA 4.0**; cite VoR DOIs and include the applicable license.
e. Suspension: Journal may suspend access for abuse or technical risk; previously granted CC rights remain for lawful copies.

15. Exceptions & Additional Permissions

a. Educational cost-recovery: non-profit accredited institutions may reproduce the VoR in coursepacks/e-reserves on a cost-recovery basis with attribution, VoR DOI, and CC BY-SA notice; access limited to enrolled students.
b. Government/Institutional deposit: AAM/VoR deposit allowed where mandated, with VoR citation/DOI and correct license statement.
c. Commercial reuse pathway: for uses outside CC BY-SA obtain written permission from the journal and publisher.
d. Translations & adaptations: permitted under the VoR's CC BY-SA 4.0 with attribution and ShareAlike; include the VoR DOI link; see Section 3 (permitted adaptations are not duplicate journal publications).
e. No duplicate journal publication: nothing in this Section authorizes publication in another journal.
f. Reservation of rights: all rights not expressly granted are reserved by Authors and journal publisher.

16. Third-Party Requests

For uses beyond the CC license or requiring third-party permissions, requestors should contact the rights holder(s). Journal may assist by providing citation/DOI links.

17. Privacy & Personal Data

Authors consent to processing of personal data (names, affiliations, ORCID, email, funding, etc.) for publishing, indexing, and archiving in accordance with applicable data-protection laws.

18. Publisher Responsibilities

Journal manages peer review; editorial preparation; DOI assignment; VoR publication; metadata submission to indexers (no guarantee of inclusion); preservation; and COPE-aligned integrity actions.

19. Governing Law & Dispute Resolution

This Agreement is governed by the laws of the Republic of Indonesia. Disputes shall be resolved by the courts of Jakarta.

20. Entire Agreement; Severability; Notices

This is the entire agreement regarding the Work; amendments must be in writing and signed. If any clause is invalid, the remainder remains effective. Notices may be sent electronically to the addresses on Page 1.

21. Term

Licenses herein are effective upon signature and remain in force perpetually for the VoR and associated metadata.

Prof. Rike Yudianti
Editor-in-Chief
Jurnal Sains Materi Indonesia

[Date]

Dear Mrs. Yudianti,

We are pleased to submit an original research article entitled ["Your Manuscript Title" by Name of Authors] for consideration for publication in Jurnal Sains Materi Indonesia. In this manuscript, we show/report that **[list a few important results]**.

We believe that this manuscript is appropriate for publication by Jurnal Sains Materi Indonesia because it… **[specific link to the journal's aims & scope]**.

This manuscript has not been published and is not under consideration for publication elsewhere. We have no conflicts of interest to disclose. If you feel that the manuscript is appropriate for your journal, we suggest the following reviewers:

[List reviewers and contact info is required for submission. The reviewers must be from different countries.]

[2]Faculty of Mathematics and Natural Sciences, Universitas Indonesia, Indonesia

ABSTRACT – All manuscripts must be accompanied by an abstract. Do not include art work, tables, elaborate equations or references. The abstract should be written using the Normal style with Arial Narrow font, size 10. Abstract is written in English. The abstract should briefly state the problem or purpose of the research, indicate the experimental plan used, summarize (important results), the principal findings, and point out major conclusions. Abstract length is one paragraph.

INTRODUCTION

(TNR 10) Manuscripts written in English are typed using Microsoft Word for Windows with A4 size and right, left, top and bottom margins of 30, 20, 30 and 25 mm, respectively. The text is typed with the time new romance font type and 1 line spacing.

The introduction section contains a brief explanation of the background and importance of the research problem, the current scientific status accompanied by a review of the latest references (literature for the last 5 years), hypotheses and research objectives accompanied by a statement of the novelty of this study. Reference numbers are written sequentially in square brackets, for example [1], or [2-5], or [1, 3].

EXPERIMENTAL METHOD

Materials and Instruments

(TNR 10) Includes an explanation of the material used in the study by stating the brand or origin of the material obtained, written in sentence form. For example, sodium chloride, pro analyst (Sigma-Aldrich), battery waste obtained from the Z plant.

The equipment used in this paper mentioned the brand and type and its function in this experiment. For example Differential Scanning Calorimeter (DSC) Perkin Elmer Jade for thermal analysis, JEOL JEM 1400 Transmission Electron Microscope (TEM) for microstructure analysis.

Method and Procedure

(TNR 10) Method and Procedure is in the form of sentences that describe the steps of the research conducted.

***CORRESPONDING AUTHOR** | A.D. Prasetya | ahad007@brin.go.id

RESULT AND DISCUSSION

(TNR 10) Discussion is carried out by referring to the objectives / hypotheses presented in INTRODUCTION and comparing with the results that already exist in the reference. At the end of the discussion, further research can be submitted.

Tables are numbered and must be referred sequentially according to the contents of the article. Each table must be accompanied by a title and if there is a measurement result, the unit must also be written in the title section. Tables are made without vertical dividing lines.

Table 1. Table caption. (TNR 10). The title should be understandable

Column number 1	Column number 2	Column number 3
Parameter 1 (N)	12.3	1.5
Parameter 2 (kg)	34.50	12.00
Parameter 3 (mm)	25	9

All images given numbers must be referenced in articles in sequence. Images are sent in the form of Excel files that can still be edited for graphics and in the form of bitmaps (BMP, JPEG, TIFF, GIF) for photos/images. Images in the form of bitmaps must have a resolution of more than 300 dpi, unless there is a resolution limit for scientific reasons. Labels/captions are given in separate parts of the image.

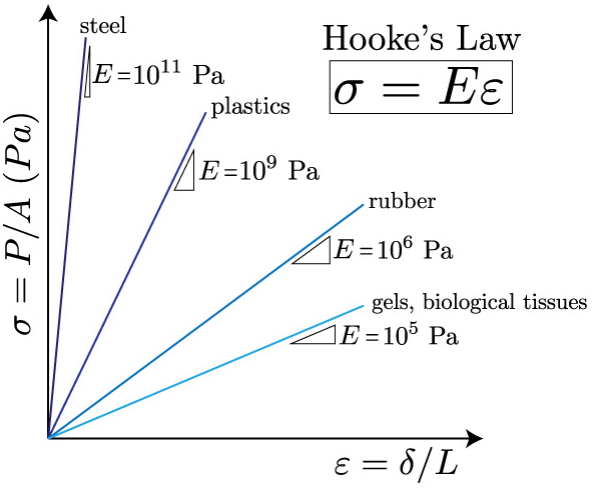

Figure 1. Figure Caption (TNR 10). Figure caption All figures must be mentioned in the text consecutively and the caption should be understandable.

The writing of chemical equations and or mathematical agreements is carried out by the Microsoft Equation program and is numbered with Arabic numbers according to the discussion flow. Abbreviations must be completed at the beginning of loading in the article. For example:

$$X_{best}(t) = fit_i(X(t)) \tag{1}$$

$$X_{best}(t) = fit_i(X(t)) \tag{2}$$

CONCLUSION

(TNR 10) Conclusions are written in paragraph forms without numbering or indenting.

ACKNOWLEDGEMENT

(TNR 10) Acknowledgments are conveyed to funders and individuals or institutions who support the implementation of research and writing.

AUTHOR CONTRIBUTION

Conceptualization: A.B. and C.D.; Methodology: A.B.; Software: E.F.; Validation: C.D. and E.F.; Formal analysis: A.B.; Investigation: A.B. and E.F.; Data curation: E.F.; Writing – original draft: A.B.; Writing – review and editing: C.D. and E.F.; Visualization: A.B.; Supervision: C.D.; Funding acquisition: C.D.

FUNDING STATEMENT

Authors must disclose all financial support under the Declarations section of the manuscript. Provide full funding agency names (no abbreviations) and exact grant numbers.

Copy the option that applies to your research and fill in the bracketed details:

1. Single Grant: "This work was supported by [Full Agency Name] (grant number [Grant Number])."
2. Multiple Grants: "This work was supported by [Agency A] (grant number [Grant A]); and [Agency B] (grant number [Grant B])."
3. Internal Funding: "Supported by internal funding from [Institution Name] via the [Program Name], [Year]."
4. No Funding: "This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

COMPETING INTEREST

If no relevant competing interests exist, authors may use the following statement: “The authors declare that they have no financial or non-financial competing interests relevant to this work.”

If competing interests exist, the statement must identify the author concerned and describe the nature of the interest clearly. Authors must also disclose all sources of financial and material support and explain the role of funders or sponsors in: Study design; Data collection; Data analysis and interpretation; Manuscript preparation; Journal selection; and The decision to submit the work for publication. If the funder had no such role, this must be stated.

GENERATIVE AI DECLARATION

During the preparation of this manuscript, the authors used XXX and YYY to improve language’s clarity, readability, and overall organization of the text. After using these tools, the authors reviewed and edited the content as needed and take full responsibility for the published article.

REFERENCES

The entire bibliography must be referred to in the text with numbering in the reference adjusted to the chronological discussion. A bibliography of at least 80% is published in the last 5 years by originating from a primary reference source which is primarily a journal. The number of references is at least 10 pieces and a maximum of 25 pieces, while for the review paper (review) the minimum number of references is 25. Writing a bibliography follows the IEEE style system, such as the following example:

Book:

[1]. W.K. Chen. *Linear Networks and Systems. Belmont*, CA: Wadsworth, 1993, pp. 123-35.

Book Chapter:

[2]. J.E. Bourne. “Synthetic structure of industrial plastics,” in *Plastics*, 2nd ed., vol. 3. J. Peters, Ed. New York: McGraw-Hill, 1964, pp.15-67.

Journal:

[3]. G. Pevere. “Infrared Nation.” *The International Journal of Infrared Design*, vol. 33, pp. 56-99, Jan. 1979.

Proceeding:
