**Mr. Michael Key, Superintendent**

Good morning, Crawford County Schools are physically closed for the 2019-2020 school year, but public education continues.

We heard yesterday from the Governor that for the remainder of the school year, we are to provide remote instruction and no school will be allowed to conduct any person-to-person instruction.

Crawford County Schools, our administration, school board, teachers, and staff members want you to know we are working to provide our students with the best possible education by developing remote learning lessons and packets. Details will be available early next week and communicated through social media and our all-call system.

We do know we will continue doing everything humanly possible to let our students, parents, and staff know that our public schools will continue providing all the support they need until our schools reopen.

Sometimes it takes something of this magnitude to remind us all about the important things in life. From our families, neighbors, and community members to our first responders, health care providers, and public servants, like our teachers, we hope and pray for everyone's well-being and safety.

Public school teachers and staff: Thank you for all you are doing to help our students, parents, and community.

Students: We miss you, and we will do everything we can do to ensure that you have what you need during this time. Please reach out to your teachers, counselors, and administrators; we will help you get through this time.

Parents: Thank you for your encouragement and support for our teachers and staff during this time. We are here to assist you however possible.

Our public schools in Crawford County will continue providing a high-quality education to our students because of the passion, dedication, and commitment of our teachers, staff, administration, and school board. We will never give up on our students, and we are committed to providing every student with an appropriate education, no exceptions.

Be safe and see you soon!
