Abstract is written in the form of one paragraph, without references, without abbreviations / acronyms, and without footones. Abstract is written not in the form of mathematics, questions and conjectures. The abstract is not the result of copying and pasting the sentences contained in the contents of the manuscript. The content of the abstract in English is a maximum of 150-300 words.

Keywords: Keyword one, Keyword two, Keyword three; etc. **(minimum 3 keywords, maximum 6 keywords)**

INTRODUCTION

The contents of the introduction are the fundamental matters or the urgency of the problem which is the background for writing the study/research, written in Times New Roman 12 font.

Starting from the introduction to the bibliography, use 1.15 spacing.

LITERATURE REVIEW

The content of the literature review is a description/foundation of scientific theories related to the subject matter of the study/research, written in Times New Roman 12 font. All theoretical sources cited in this chapter must be listed in the bibliography.

METHOD

The contents of the study method are data collection techniques, data sources, methods of data analysis, correlation tests, and so on, written in Times New Roman 12 font. This chapter can also include the scientific formula used for data analysis/correlation testing.

RESULTS AND DISCUSSION

Contents Results and Discussion

The main discussion contains results and discussion, written in Times New Roman 12 font. Results are not raw data, but data that has been processed/analyzed by a predetermined method. The discussion is a comparison of the results obtained with the existing concepts/theories in the literature review. The contents of the results and discussion include statements, tables, drawings, diagrams, graphs, sketches, and so on.

Contents of Discussion Results

This section contains the main sub-discussions written in Times New Roman 12 font. The sub-discussions are written systematically. It is hoped that the numbering in the sub-discussion should not be written too much.

CLOSING

Conclusion

The contents of the conclusion are written in Times New Roman 12. The conclusion is an overview based on the research that has been done. The conclusion is not a summary of the results of the discussion that refers to a particular theory, but the results of the analysis/correlation test of the data discussed.

Suggestions and Acknowledgments (if any)

Suggestions and thanks are optional (if any), written in one paragraph with Times New Roman 12 font.

REFERENCES

The contents of the bibliography are written in Times New Roman 12 font and written with 1.15 spaces. The bibliography is a source of reference/reference which is used as a reference for manuscript writing. Writing a bibliography is a source of reference/reference that is used as material for citations to writing manuscripts. Writing a bibliography uses the rules of The Chicago Manual of Style (CMS). The number of reference sources used as a manuscript bibliography is at least 10 titles of scientific literature (80% primary references, and 20% secondary references). Primary reference sources, such as: journals, research reports, theses, teris, dissertations, and proceeding papers. Secondary reference sources, such as: books and internet sources. We recommend writing citations using the Mandeley reference manager application
