

Subject: Year 9 French

Year 9 Curriculum Intent: The MFL department aims to provide students with an excellent foundation in language learning through a skills-based curriculum, building students confidence in the four skills essential to learning a language; speaking, listening, reading and writing.

The Year 9 French curriculum builds from the composite end point of Year 8, building on from forming sentences in three tenses and giving opinions and reasons. Pupils will learn how to describe festivals in their own country whilst gaining an understanding of traditions in French speaking countries, how they consume media and their region .

A range of knowledge and skills will be developed throughout each unit with repeated practice. Key structures sequenced through each topic so that via the constant repetition of familiar concepts with increasing complexity, our pupils will be able to make links between each area to develop their understanding of how French works.
