

Title, Arial size 12, centered text, first word starts uppercase, the following words in lowercase

Author Last Name 1, initials⁽¹⁾, Author Last Name 2, initials ^{*(2)}, ... Indications for author names: Arial 10 Normal, left-aligned, single spaced, superscripts to specify affiliations and indicating in bold type the name of the author who will present the work. Generally, the presenting author is the first one, but sometimes the place of the presenting author could be different. The name of the Author for correspondence should be indicated with a superscript star before the superscript number of adscription.

⁽¹⁾ *Institution or Employer, address (Arial 10 Italics, left-aligned).*

⁽²⁾ *Institution 2*

*Corresponding author: e-mail xxxx@server.com

Start writing the abstract leaving 1 empty line (Arial 12, single-spaced, justified) after the last affiliation address. The abstract must be a Word document, not exceeding 3 MB and one page maximum. Text of the abstract size 12, Arial normal, full justification, either Spanish or English language. Please note that there is a second page where you will include the detailed information of all your co-authors.

From the second paragraph on, apply 0.5 cm indent. Use Letter size paper, with 2.5 cm margins (bottom, top, left and right). The abstract should give a clear indication of the objective, scope, and results of the work.

In principle, avoid figures, tables and cited references in the text of the Abstract. Sometimes the reference is required, for instance, in an abstract dealing with the modification of a known published model. The references, if necessary¹, should be cited in the text with superscript Arabic numbers and detailed at the end of the text in Arial 10, after the keywords.

Name the file starting with the last name of the first author, followed by a hyphen and the word Abstract. If the same first author is presenting a second Abstract, add a number 1 or 2 or 3 after the word Abstract. Examples of abstracts names: Last name first author-Abstract1, Last name first author-Abstract2

Make sure the extension of the file is .docx

Send the file(s) to sab.abiaer@gmail.com

If you need a rapid evaluation because of administrative procedures with a supporting institution or your employer, please also send us a short letter requesting it. We will make an effort to rapidly evaluate your abstract and send the decision to you.

Keywords: 4 keywords max.; separated by ; complex keywords allowed; Arial 12pt; order alphabetically; avoid repeating words from the title

Conference topic: Choose from the list in the announcement or from https://abiaer.com/?page_id=2226#

References (if necessary, but preferably avoid references in the Abstract)

1. First reference Last name1, initials et al. (year). Journal title (abbrev) volume number: start page-end page; Arial 10 pt size, hanging paragraph
2. Second reference Last name, initials et al. (year). Journal title (abbrev) volume number: start page-end page; Arial10 pt size, hanging paragraph .
