

Tips and Directions for NACC Scholarship Application

Students will create a username and password, which allows students to save their work and login again later to finish their application. You are creating an account for the scholarship application. This is not your regular NACC account.

Once the application is complete, the student is given a listing of scholarships they qualify for and can apply for.

There is no limit on how many scholarships each student can apply.

The deadline for this application is JANUARY 24, at 4:30 pm!

A few tips to give to your students:

- Encourage students to spend some time and write quality answers on the essay questions. Although it only asks for one paragraph, we can learn a lot about them through that if they spend time and share. *The scholarship committee looks closely at the essays and can sometimes be the deciding factor if a student receives a scholarship.*
- Write their username and password down and keep it somewhere safe and accessible! You can use this to log back in and make changes if needed.
- Apply for as many scholarships as a student wants! Some scholarships require a few extra questions, additional steps, or attaching a video/photo, so don't forget to complete those and hit the submit link after they finish.
- Please use correct grammar and capitalization in completing their general information. (capitalize names, street names, city, state, etc) We have noticed that MANY students don't capitalize these items.
- If a student applies for a scholarship requiring a letter of recommendation, make sure that letter is submitted PRIOR to the deadline or else they will not be considered for the scholarship.
- We also will send out emails throughout the scholarship window to help with any errors we see and need the student to correct. (ex. GPA entered on 4.0 scale when we need it on 100 pt, majoring in a Technical program but didn't apply for Technical scholarships, wt)
