

Bits and Bricks

Did you know Lego has a fun coding game called Bits and Bricks? Irony aside, you have to help the bits navigate the mazes while avoiding the Teravirus!

For this challenge, **successfully complete 5 levels of [Bits and Bricks](#)**. You can take screen recordings of each successful run and make them into a short video or post a screenshot of your level 5 certification on social media and include **#futurerosies**. Each project you post with the hashtag is an entry to win a STEM kit from Rose-Hulman Alumni Relations. Don't forget to tag Alumni Relations!
