520 |a "Business ratios, formulas, and statistics are used by controllers, business managers, and analyst to evaluate company operations and performance. This book presents a comprehensive resource of nearly 250 operational criteria, allowing managers to pick and choose the tools they need to best assess their organization's performance. The measurements contain not only financial matters but also those related to efficiency, effectiveness, capacity, and market share. In addition, measurements related to asset utilization, operating performance, cash flows, liquidity, capital structure, return on investment, and market performance.Each measurement includes a description, an explanation of the calculation, an example, and cautions regarding its use. There is also a description of an electronic spreadsheet to compile a standard set of measurements using Excel as the template.This new edition will include over 20 new measurements"-- |c Provided by publisher.

Customizing the Details Sections

Which details to show in the main/top details section controls what information is shown up at the top or bottom of the full record display. If you remove any of the items listed below, they will no longer show up in the full record display. Instead, they will show up under the **More Details** tab. It is your decision about how much information you want shown in the full record display. Note: This configuration applies to individual records (not Grouped Works).

Which details to show in the main/top details section :

- ☑ Published
- ☑ Formats
- ☑ Editions
- ☑ Physical Descriptions
- ☑ Locations
- ☐ ISBNs
- ☐ Show Accelerated Reader Information
- ☐ Show Lexile Information

► More Details

Here is an example of an item with information at the top of the record, as well as More Details.

The hobbit, or, There and back again /

(Book)

Uniform Title:	Hobbit.
