"Smooth" is anything without major FPS drops and major stuttering. I don't have a universal way to monitor FPS across all games. But all games with (Smooth) is running at a minimum 30 FPS.)

"Crossover Steam" is steam through crossover

Games That Work

Grand Theft Auto V (Parallels Windows on ARM) (Framerate isn't great but it launches)

Grand Theft Auto IV (Parallels WoA) runs well

45-60+ FPS, 1920x1080 mix of medium and high settings.

Spintires (SnowRunner) (Parallels Windows on ARM)

Spintires (Original) Parallels Windows on ARM)

Automation (Steam) (Parallels Windows on ARM)

Mafia III DE (Crossover Steam) ** You need to rename "launcher.exe" to something like "me.exe".

Then scroll down rename Mafiall DE.exe to "launcher.exe" and launch from the root folder.

It will launch to a blackscreen

Exit out and go to /Users/"account name"/Library/Application Support/CrossOver/Bottles/"bottle name"/drive_c/users/crossover/Local Settings/Application Data/2K Games/Mafia III/Saves/videoconfig.cfg

Open Videoconfig.cfg

and change the included line to "-6 31 1920 1080 0 0 0 0" (without the quotes)

Severe graphical issues, but it launches and runs...

Mafia II DE (Crossover Steam) (Smooth) ** You need to rename "launcher.exe" to something like "me.exe".

Then scroll down rename MafialIDE.exe to "launcher.exe" and launch from the root folder.

Assetto Corsa (Crossover Steam) (1920x1080 Medium) (Smooth)

World of Warships (Crossover Steam) (1920x1200 Medium) (Smooth)

Project Cars (Crossover Steam) (Smooth)

Car Mechanic Simulator 2018 (Crossover Steam) (1920x1080) Medium (Smooth)

Mafia III (Crossover Steam) (1920x1080) Severe graphical issues

Stranded Deep (DX11) (Crossover Steam) (1920x1080) Medium (Smooth)

Spintires Mud Runner (Crossover Steam) (Smooth 1920x1080)

Fallout 4 (Crossover Steam) (Smooth gameplay) 1920x1080 (Medium)

My Summer Car (Crossover Steam) Golden Eye (No vsync) (Smooth gameplay)

Wreck Fest (Crossover Steam) (Smooth Gameplay) 1920x1080

BeamNG.Drive (Crossover Steam) 0.14.5 (DX10) (Smooth) (100+ FPS on gridmap)

Rigs of Rods (Crossover) (Smooth)

Path of Exile (Crossover Steam)

Street legal racing redline (Crossover steam) ** Considering how buggy this game is, even on windows.. I'm surprised it even runs.. **

Farming Simulator

Farming Simulator 2019 (Crossover Steam 1920x1080) (Medium)

** You must go into documents and open "game.xml".

Change <fullscreen>true</fullscreen>

to <fullscreen>false</fullscreen>

save

launch game **Slight graphical glitches but it works**

Farming Simulator 2017 Crossover Steam 1920x1080) (Medium)

** You must go into documents and open "game.xml".

Change <fullscreen>true</fullscreen>

to <fullscreen>false</fullscreen>

save

launch game (no graphical glitches like FS19)

Farming Simulator 2013 Crossover Steam 1920x1080) (Medium)

** You must go into documents and open "game.xml".

Change <fullscreen>true</fullscreen>

to <fullscreen>false</fullscreen>

save

launch game (UI is offset and stutters) quite a bit.

Games that don't work

Automation (Crossover Steam) (Launches but has graphical glitches in engine designer)

Spintires Original (Crashes at intro screen) Crossover Steam

Space Engineers (Launcher opens and then crashes) Crossover Steam

Scrap Mechanic (Launcher opens and then crashes) Crossover Steam

Path of Exile (Rosetta Steam) (Instant crash on launch)

Farming simulator 2017 (Launches then says that shader model 3.0 is required)

Maple Story (Steam Crossover) (Steam reports its running but no sign of activity)

If you have any games you want to add, email them to me at psm.ucdhi@gmail.com and I can get them added.
