October.

Kristen Darr ❤️❤️❤️

When passion turns to madness, flame devours reason, and the fire of love burns to nothing but ashes.

When Clara moves into Apartment 3B, she doesn't expect to find music drifting from an empty piano—or a ghost waiting in the shadows. Jack is everything she's ever dreamed of: beautiful and tragic, but bound to the other side. As Halloween approaches and the veil between worlds thins, their impossible connection burns brighter with every stolen glance, every haunting touch.

But love like this comes at a cost. What begins as longing soon twists into obsession, and Clara must face a question as chilling as it is inevitable: how much of herself is she willing to surrender for a love that cannot last?

Darkly romantic and achingly gothic, *The Veil's Lament* is a haunting tale of passion, madness, and the thin line between devotion and destruction. This novella is perfect for fans of tragic love stories, ghostly romances, and atmospheric reads that linger long after the last page.

Content Warning: This book contains adult themes, including graphic sexual content and depictions of mental health crises. Trigger Warning: Themes of grief, obsession, and suicide are central to this story.

Read with care.

November.

Sloane Raleigh ❤️❤️❤️

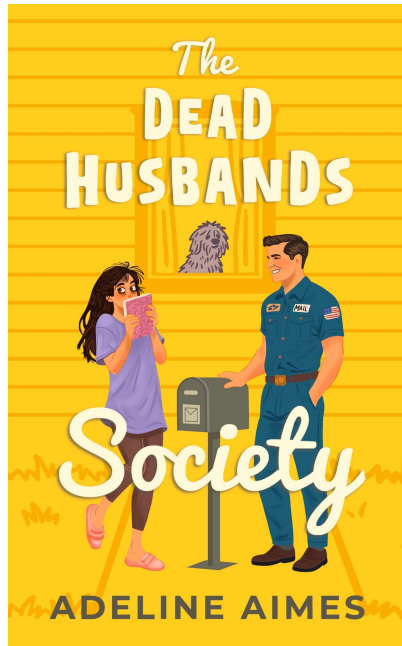

Mallory wasn't always riddled with anxiety and depression but losing her dad at sixteen broke something inside herself that she thought would never fully heal. She has spent the last five years going to therapy and been on medications, no better than the day she started them. Until the day she finds out someone was murdered in her small town and vows to get justice for them. She enlists the help of Bryce, a charming jock she knows better than to get involved with. The closer she gets to solving the murder, forgotten traumas from her past threaten to cast shadows on the investigation.

Bryce was always the life of the party, until tragedy struck unexpectedly. Trying to navigate his new world, Mallory crashes into his life full of sass and discontentment. He never imagined he would crave the presence of a woman determined to reject him at every angle, fighting everything in his power to break her walls down. When she slowly lets him, he vows to be her light in the darkness and finds the pieces of his own heart mending back together.

Shadows of a Tortured Heart is a romantic suspense that addresses mental health and trauma. It contains darker subjects that may not be suitable for all readers. Please refer to the author's note and trigger warnings prior to reading.

Adeline Aimes ❤️❤️❤️

Hi. I'm Birdie Lawson.

I used to run the PTA, plan polite birthday parties, and write thank-you notes on monogrammed stationery. Then my husband dropped dead in the butterfly garden, and my picture-perfect suburban life went with him.

If you, too, have a dead husband, questionable coping skills, and an inconvenient crush on your late husband's infuriatingly hot ex-best friend who happens to be your mailman... pull up a chair. You're one of us now.

The Dead Husbands Society

No dues. No dress code. Bring snacks. We're tired of casserole.

Perks of membership:

Two wildly inappropriate widow friends, a pink glitter notebook full of grief dares (most dares include the hot mailman), and questionable recovery tactics.

I'm done with well-behaved mourning. Now I'm here for messy living—complete with a Conga line, an ill-advised goat wine bar, and forbidden late-night kisses with the man I should absolutely not want... but absolutely do.

Please join us. We have t-shirts and kombucha.

The Dead Husbands Society: A wickedly funny, unexpectedly sexy novel about grief, friendship, and letting yourself fall hard—for life, and your mailman, all over again.
