

MODULE 7

Text 1: WALK OF FAME

Many **famous** people have a star on the Walk of Fame. Whether it is a **talented actress** or a great **athlete**, they have all worked hard for their **successful career**. Most of these **celebrities** are very **wealthy** and **intelligent**, but they also remain **proud** of their achievements. For many performers, like **opera singers** or **comedians**, being **well-known** is the result of years of practice.

Text 2: STREAMING FRENZY!

I love watching movies with **stunning special effects**. Last night I wanted to watch a **science fiction** film, but my sister made a **suggestion** to see an **animation** instead. The plot was so exciting that I didn't want to **turn off** the TV. Usually, I prefer **thrillers** or **comedies**, but this film **turned into** a real **romance** by the end. Before I **turn in** for the night, I always read a **film review** to decide what to watch next.

Text 3: IN THE CHARTS!

A good **songwriter** knows how to create a **catchy tune**. When I listen to a new **album**, I always pay attention to the **lyrics** and the singer's **voice**. In many films, music stays **in the background** to create a particular **mood** or feeling. Sometimes **directors** use **sharp and fast sounds** for action **scenes** to make them more exciting. Whether it is **jazz**, **rock**, or **classical music**, every **genre** has its own fans.
